

Installation steps:

1. Attach the chain connector collar with the hanging ring of lamp body and screw up.
2. Secure the mounting bracket to the junction box with 2 screws.
3. Thread the main wire and hanging chain through the screw collar ring and then the canopy.
4. Tighten the screw collar loop on the mounting bracket.
5. Connect the wires using wire connectors as follows:
 Fixture BLACK wire to home LIVE wire.
 Fixture WHITE wire to home NEUTRAL wire.
 NOTE: The bare wire can NOT be exposed to prevent leakage. Fix the fixture ground wire and home ground wire to the mounting bracket using green screws.
6. Cover the canopy on the mounting bracket and tighten the screw collar ring with screw collar loop.
7. Install 4 pieces of E12 base bulbs(Excluded) on the sockets.
8. Align the bottom cover with lamp shade and insert the springs of the bottom cover to get stuck with lamp shade.

Safety Information:

Please turn off the power before installation and read the manual carefully. Once the installation is complete, restore power to the electrical circuit and test the pendant light to ensure it is functioning properly. If the light does not turn on, double-check the wiring connections and circuit breaker/fuse box. We advise you to contact professional electricians to install it for safety purposes.

Important Notes:

Please use this product according to its intended purpose, do not retrofit or remodel the product.

Always follow local electrical codes and regulations when installing electrical fixtures. The warranty does not cover if the failure is caused by a third-party product or natural disasters.
