IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.

If the cord is long at the neck (B)

Pull loose cord at bottom  until the neck reaches the lamp body (A).

Then screw the neck (B) onto the lamp body (A) until tighten.

Skip step 2: If the neck (B) is already attached to the lamp body (A).
