

METAL numbers will be screwed on a weatherproof/rust-proof High-density polyethylene very durable material.

INSTALLATION: There are ONLY TWO studs/Screws at the back of the sign. Drill two holes on the wall, apply silicone glue (or gorilla glue) in the holes, and insert the screws in the holes (As simple as that...)

MATERIAL, WHY WE DON'T USE WOOD?

Wood is not weather resistant; Wood can also be susceptible to termites and other insects. HDPE is a durable and weather-resistant material.

Size options of VERTICAL MODE house number are as below:

VERTICAL HOUSE NUMBERS: 1 digit = 6" x 11" 2 digits = 6" x 15" 3 digits = 6" x 21" 4 digits = 6" x 27" 5 digits = 6" x 33" 6 digits = 6" x 35"

HORIZONTAL HOUSE NUMBERS: 1 and 2 digits = 11" x 6" 3 digits = 15" x 6" 4 digits = 21" x 6" 5 digits = 21" x 6" 6 digits = 27" x 6"
