1* Wrench

Application

It is universal for various types of stoves, including gas stoves, glass stoves, electric ceramic stoves, electric stoves, and halogen stoves. It is ideal for making pancakes, frying eggs, frying chicken wings, making pizza, crepes, bacon, etc.

Notes

1. Please check the size carefully before ordering.
2. Please note that when using a gas stove, it is recommended that the flame size does not exceed the bottom of the pan; medium to low heat is sufficient.
3. Although it is scratch-resistant and dishwasher-safe, we still recommend you wash it by hand to extend its service life. Please hang or store the cookware in a dry place.
4. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before you order.
