If there are problems related to product quality such as missing accessories, panel bending, or assembly problems, you can contact us by email, and we will help you solve the problem.

NOTE:

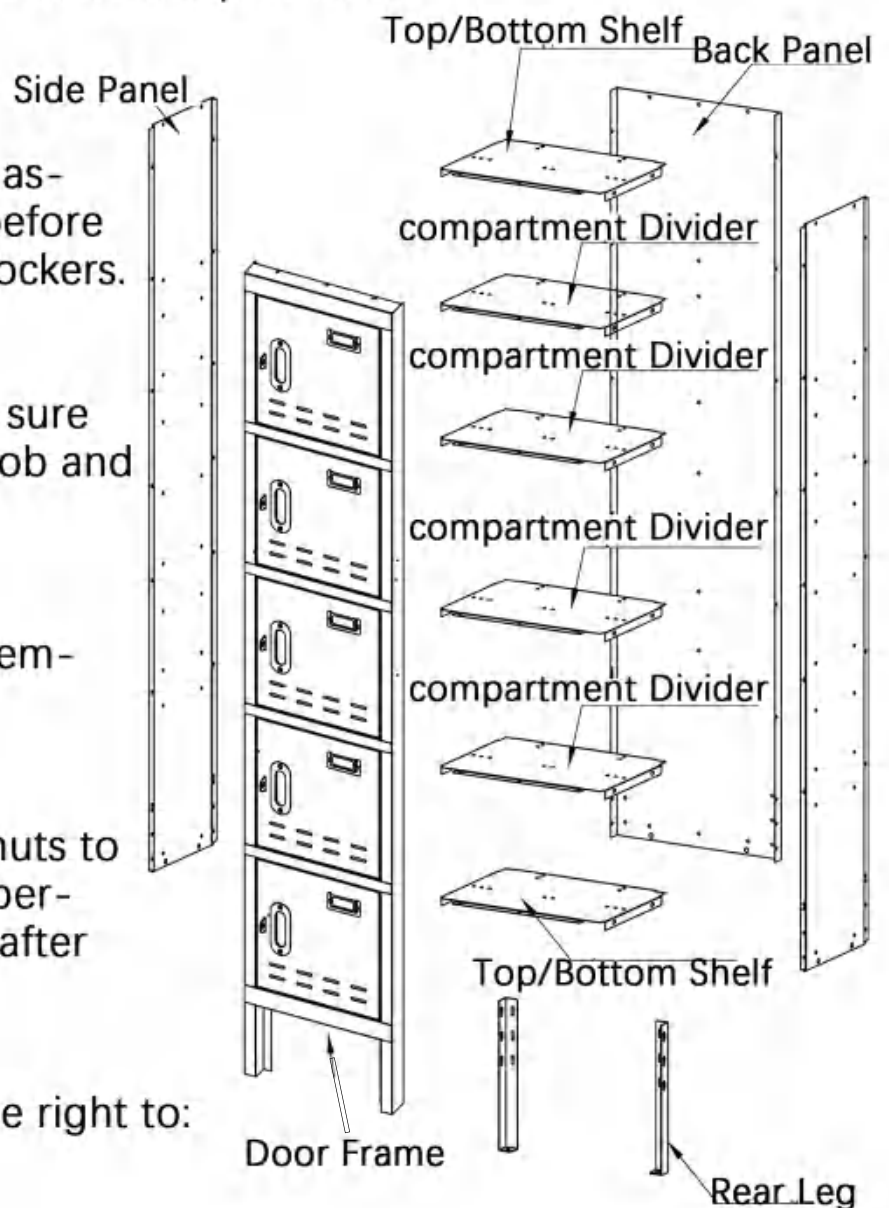

- Please read the complete assembly instruction carefully before attempting to assemble the lockers.

- Check the materials to be sure that they are correct for the job and that there is no damage.

- The lockers should be assembled on a flat surface.

- At first, loosely screw on nuts to insure all exterior panels properly. The nuts can be tightened after all panels are assembled.
