HAND HEWN

Distinguished by a distressed texture, this vintage look imitates reclaimed wood from the 1800s.

RIVERWOOD

Replicated salvaged submerged wood from the Great Lakes, the quality of this waterlogged wood enhanced during its long stay underwater. Exquisite and classic.

SANDBLASTED

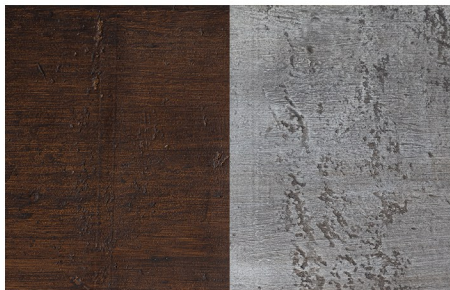

Heavily sandblasted texture reveals swirling grain patterns that give a weathered, vintage look that dignifies any room.

ROUGH SAWN

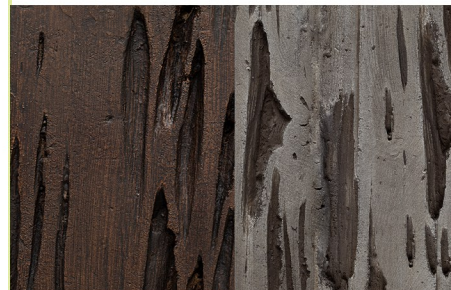

This pebbled, rough-sawn texture resembles board lumber cut from an old sawmill. Rough and refined at the same time.

KNOTTY PINE

Knotty pine refers to pinewood boards that have many visible knots yet elegant by nature.

PECKY CYPRESS

This wood is amazing, textural, & organic. It's full of oblong holes, like a stretched long sponge. It's truly beautiful.
