Cleaning & Maintenance Instructions/ Instrucciones de limpieza y mantenimiento

(EN)

1. Do not use strong acid, strong alkali, abrasive-containing (such as steel wool, scouring powder) or chlorine bleach-based cleaners, to avoid corrosion of cabinet panels and hardware, which may cause discoloration, rust or cracking.
2. Do not scrape the cabinet and hardware with sharp objects; avoid heavy impact and forceful opening/closing of cabinet doors/drawers to prevent loose hardware and cabinet deformation.
3. Keep the cabinet away from long-term high humidity and standing water. Avoid direct water splashing on the cabinet during showers. Wipe up water on the cabinet promptly to prevent panel swelling and hardware rusting.

(ES)

- 1.No utilice limpiadores a base de ácido fuerte, álcali fuerte, abrasivos (como lana de acero, polvo de fregado) o lejía con cloro, para evitar la corrosión de los paneles y herrajes del armario, lo que podría causar decoloración, óxido o grietas.
- 2.No raspe el armario y los herrajes con objetos afilados; evite impactos fuertes y la apertura/cierre forzada de puertas/cajones del armario para prevenir herrajes sueltos y deformación del armario.
- 3.Mantenga el armario alejado de la humedad alta prolongada y el agua estancada. Evite salpicaduras directas de agua en el armario durante la ducha. Limpie inmediatamente el agua en el armario para evitar la hinchazón de los paneles y la oxidación de los herrajes.

Thank You for Your Support

(EN)

Thank you again for your support and trust in our product.

If you have any questions during use, please feel free to contact us anytime.

(ES)

Gracias nuevamente por su apoyo y confianza en nuestro producto. Si tiene alguna pregunta durante el uso, no dude en contactarnos en cualquier momento.
