Level Adjustment

Niveauanpassung / Réglage du niveau / Ajuste de nivelación / Regolazione del livello

Note: If the unit is not level, adjust it by turning the feet to raise or lower.
Hinweis: Wenn die Einheit nicht eben ist, passen Sie sie an, indem Sie die Füße drehen, um sie anzuheben oder abzusenken.
Remarque : Si l'unité n'est pas de niveau, ajustez-la en tournant les pieds pour la relever ou l'abaisser.
Nota: Si la unidad no está nivelada, ajústela girando las patas para elevarla o bajarla.
Nota: Se l'unità non è livellata, regolala ruotando i piedi per alzarla o abbassarla.
