Before Device Installation

Wall-Mounting Tips

Take the height of all device users into consideration. It is recommended to install the device at an eye-level height.

Ensure sufficient space for both horizontal and vertical mounting orientations.

Do not drill holes above wall studs, electrical wires, or pipes.

Before installation, unplug the device from the power socket and keep it away from water sources.

Download Vcivik app on your mobile phone

To share your schedule with compatible calendar devices worldwide, please first download the free Vcivik app on your mobile device. Search for "Vcivik" in the App Store (iOS) or Google Play (Android) to download the Vcivik app.

Bind and Connect Devices

To synchronize your schedule with the Calendar, you need to connect the Vcivik app to the Calendar device. Follow the steps below for connection:

Download the "Vcivik APP" through your rmobile phone

Open the device's member management

Open Share Device

View the device sharing code; this code is valid for 12 hours.

Enter the device code in the "Vcivik APP" to bind the device

You can now synchronize your mobile phone with the calendar

Functions on Device Home page:

The home page serves as the main dashboard for family collaboration and management, integrating eight core modules: Calendar, Chores, Rewards, To-Do List, Meal Planning, Photo Album, and Member Management. Users can quickly view the current month's dates, to-do lists, chores, member rewards, and daily meal plans.

Vocie Assitant Interface

Once you have completed the basic setup and entered the main interface of the digital calendar, you can use the voice assistant to wake up your device. Simply tap the robot icon on the screen. The device will then display the following windows and features:

A series of common voice command cards will typically be listed at the bottom of the window to guide new users:

AI Voice Interaction Mode

Experience seamless AI Voice Conversation with Viki. You can ask the AI assistant questions ranging from general knowledge to real-time data.

How is the weather like today?

Tell me a story..

How many ounces are in a cup?

The assistant stays active for 15 seconds after replying, allowing you to ask follow-up questions. It will auto-exit after 15 seconds of inactivity. To re-activate, click the robot icon again.

Voice Command Interaction

Truly Hands-Free Experience. Stop tapping and start talking. Our digital calendar eliminates the need for manual input, letting you control everything with simple voice commands:

Task Inquiry: Quick voice access to your to-do lists, chores, and more.

Timers & Alarms: Countdown reminders for any event, keeping you organized and on track.

Kitchen Companion: Easily look up and follow your daily recipes.

Memories: Open and browse your photo gallery with ease

For a complete list of supported voice commands, please tap the link below:

Calendar Features

The Calendar module is a time management and event reminder tool that helps you record and keep track of important dates, daily schedules and countdown events.

Introduction to Household Functions

The Household Chores module is a task allocation and progress tracking tool within the Family Collaboration Dashboard, designed to create, assign and track the completion of daily household chores. It displays all household tasks in a list format, links them to family members, and tracks each person's progress in real time.

Introduction to Meal Planning

The Meal Planning module is a dietary planning and menu management tool within the Family Collaboration Dashboard. It helps family members organize daily meals (breakfast, lunch, dinner) in advance, as well as manage snacks and dining out. It supports a weekly view to display the menu and allows you to add specific dishes.

Introduction to the Rewards Feature

The Reward Module serves as the incentive and redemption hub within the family collaboration management dashboard. Parents can create reward tasks (via the mobile 'vcivik' app). Family members earn stars (points) by completing household chores, and can redeem corresponding rewards once they accumulate enough stars. This module links household chores with positive incentives, helping cultivate a sense of responsibility and goal orientation among family members.

Introduction to the To-Do List Feature

The To-Do module is a quick note and shopping list tool within the family collaboration dashboard. It helps family members jot down items to buy and small tasks to finish anytime. All to-do items are displayed in a clean list, with each entry including a title, notes and creation time. Users can easily mark items as completed or delete them with a single click.

Introduction to the Photo Album Feature

The Photo Album module serves as the family media centre within the Family Collaboration Management Panel, enabling parents to upload photos and videos from their mobile devices (via the vcivik app) to shared devices, where they can be viewed by all family members at any time. It supports both individual and batch uploads of photos, whilst videos can only be uploaded individually; these can be displayed in a loop as a digital photo frame to showcase family memories.

About the Settings Feature

The Settings module serves as the system configuration hub for the home collaboration management panel, allowing you to manage device networks, general settings, display effects, audio, customisation options for various functional modules, screen savers, and access help and 'About' information. It forms the cornerstone of the smooth operation of your home devices and a personalised user experience.

Introduction to Main Functional Pages on Mobile App:

Calendar, Housework, Reward, Meal plan, To-do, Album

Introduction to Main Functional Pages on Mobile App:

Calendar,Housework,Reward,Meal plan,To-do,Album

Star Assignment:

Create rewards and set rules together.

When you have collected enough stars, you can redeem our pre-agreed rewards with them! Rewards can be items or a special experience.

Rewards are created by parents on the mobile app, and children can view their rewards and progress on the device

Factory Reset

Deletes all data from your frame. This will permanently delete all your photos/videos, contacts, and settings.

Warranty & Contact Us

Limited One-Year Warranty

We offer a one-year quality warranty on all products, valid from the date of purchase, and subject to the following terms and conditions:

If a quality defect is discovered within the warranty period, the manufacturer is responsible for repairing or replacing the device at no charge to the customer.

This warranty does not apply to damages caused by improper use, accident, exposure to water, or if the product was altered or repaired by anyone other than the Manufacturer's Service Center.

The manufacturer shall not be liable for any incidental or consequential damages arising from the use, misuse, or mounting of the photo frame.

All information in this manual is based on the latest information available at the time of publication. We reserve the right to make changes at any time without notice.

Opens the quick start guide that is shown during initial setup of the frame

Check for Updates

Check for available software updates and download/install them on your frame.

Feedback

We strive to continuously improve our product and user experience, If you have any questions, comments, or suggestions, please reach out to us by email or through the support feature in the Vcivik app.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Specific Absorption Rate (SAR) information:

This PC meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure information and statement: the SAR limit of the USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: PC has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the PC kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the PC. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements and should be avoided.
