

## Cordless LED Table Lamp with Rechargeable Battery & Charging Station | User's Guide

### Product specifications

- Light source: LED
- Battery type: lithium-ion battery
- Charging station: contact induction charging base with USB-A cord (included)
- Lamp material: iron
- Finish: powder coat
- Shade material: linen or metal
- Protection rating: linen IP44 or metal IP54
- Environment: damp rated
- Safety class: class III

### Technical information for lamp

- Switch: touch ON/OFF
- Light longevity at full charge: 10 hours with light at full intensity
- Dimmer: stepless touch dimmer
- Color temperatures: 2200K, 2600K, 3000K
- Total wattage: 2.3W
- Total lumens: 200LM
- Volt: DC 5V
- CRI: greater or equal to 80

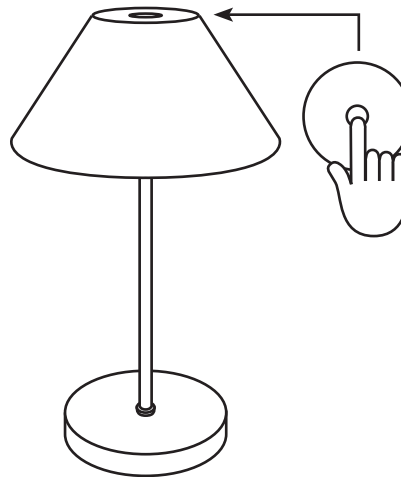

### Technical information for charging station

- Charge time: 6 hours
- Input/output: 5V1A with 0.8M USB cable
- Charging station requirements: input AC100-240V 50/60Hz; output 5V1A
- Lamp can be used while connected to the charging station
- Charge lamp only with included charging station

### Important!

- The charging station is not waterproof and must be kept in a dry location at all times
- Charge the lamp in a dry, indoor location
- The lamp can only be charged by a maximum of 5V output charge; if over 5V, the battery will be incapacitated
- When not in use, disconnect the charging station from the power supply
- Keep the lamp & charging station away from chemicals and heat
- Do not attempt to disassemble the lamp or charging station
- This product is not a toy; when not in use, keep out of reach of children and pets

### Instructions for operation

#### 1st touch:

Turn ON to candlelight (2200K)

#### 2nd touch:

Change to warm white (2600K)

#### 3rd touch:

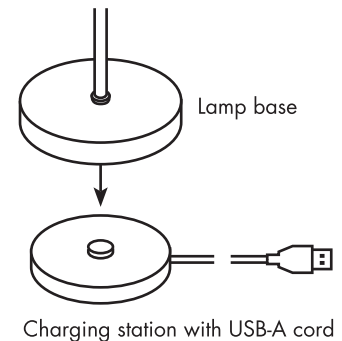

Change to cool white (3000K)

#### 4th touch: Turn OFF

**To dim:** Hold touch at any setting to dim light

### Instructions for charging

- To charge, place lamp base on top of the charging station so that the two make contact
- Connect charging station to power supply via USB-A cord
- Charge time: 6 hours. Red light indicates lamp is charging. Green light indicates lamp is fully charged.

### Product care & use

- Intended for covered porch or indoor use
- Not for use in inclement weather
- Protect lamp from excessive moisture and store inside when not in use
- To clean, dust with a soft dry cloth
- The support surface for the lamp must not exceed a 15-degree tilt or lamp will tip over
- Regularly charging the lamp is recommended
- The battery has an overload protection function to preserve the integrity of the battery
- If the lamp is not used for long periods, keeping the charge between minimum 20% and maximum 80% is recommended
- For proper disposal and recycling of this product, please refer to your community guidelines. This product cannot be disposed with general waste
