

Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Steps 1:

1. Using the provided accessory I to secure four accessories H (large glass panels) inside the metal frame as indicated.
 2. Using the provided accessory I to secure four accessories G (small glass panels) outside of the metal frame as indicated.
- Note: Stagger the installation of the outer glass panels relative to the inner glass panels.
3. Thread the main wire from accessory F through accessory B and C, then assemble them together as indicated.
 4. Using the provided accessory A and D to connect the glass lampshade and the light fixture.

Steps 2:

1. Thread the main wire through the hanging chain and the ceiling plate; Loosen the buckle to connect the hanging chain and the light fixture as indicated, then secure the buckle.
