Package List

Upon opening the package, please check for the following items:

- * 1 × Heated Blanket
- * 1 × User Manual

Specifications

- * Material: Flannel
- * Color: Grey
- * Size Option: Standard; Updated
- * Input: DC5V/2A
- * Power: 8W
- * Temperature Level: Low/Medium/High Temperature(40-60°C/104-140°F)
- * USB Cable Length: 1.5M/59In(Updated Size); 15cm/5.9in(Standard Size)
- * USB Cable Length According to your purchase
- * Blanket Size: 150×80cm/59×31in

3 Heating Levels

Long press to turn it on/off

Short press to switch between 3 temperature levels

Red-Highest Temp

Blue-Medium Temp

Green-Lowest Temp

Operation Advices

1. Use the blanket as a wearing blanket only. Please do not use as bedding.
2. This blanket is designed for domestic use only. This blanket is not intended for medical use in hospitals or nursing homes.
3. Please do not use the product while sleeping, or when there is the potential to fall asleep while using.
4. Please do not use this product with an infant, child, a person who is unable to help themselves, or anyone insensitive to heat, such as a person with poor blood circulation.
5. Refrain from using this product in case of unexplained pain, swollen muscles, or following a serious muscular injury without first consulting your physician.
6. Due to the nature of heated products, they may cause burns or discomfort. Consult a physician prior to use on sensitive skin or if you may have a medical condition affecting circulations or skin sensitivity.
7. Refrain from allowing the product to come into contact with bare skin - always ensure that the skin is covered with clothing.
8. If any signs of skin redness, blisters, itching, or dermatitis-like conditions manifest during use, it is advisable to discontinue use immediately and seek prompt medical consultation.
9. The continuous usage time should not exceed 5 hours per session to avoid prolonged high local temperatures, which may lead to low-temperature burns.
10. It is not advisable to continuously operate at 100% power setting for an extended period of time, as it may lead to overheating or physical discomfort.
11. Please do not use the product under the influence of drugs or alcohol, as this can decrease skin sensitivity, or impair the ability to recognize the sensation of a burn.

Important Safety Instructions

1. Please connect the USB port to 5V/2A or above power supply to make the blanket work normally.
2. To protect against electrical shock do not immerse cord, plug, or appliance in water or other liquid. Do not operate with wet hands.
3. Please do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner.
4. Keep the cord away from heated surfaces.
5. If you observe an abnormal rising in temperature, smoke, or an unusual odor emanating from the seat cushion during use, discontinue use immediately and investigate the issue. This may indicate a short circuit or other critical issues, and continued usage could result in hazardous situations such as fire.
6. The use of accessory attachments not recommended by the appliance manufacturer may cause fire, electric shock or injury.

7. Please do not operate with other heated products. Excessive heating can cause fire, electric shock, or injury to persons.
8. Exposure to high humidity, elevated temperatures, or physical impact may result in damage to the device and render it inoperable.
9. Refrain from spilling any liquids onto any part of the seat cushion, including the power cable. A wet, heated apparel increases the risk of electric shock.
10. Do not place flammable objects or clothing on top of the appliance.
11. Do not use the appliance near a bath, shower or a swimming pool. The blanket must not be used over or under a waterbed.
12. Do not use the appliance in a room with explosive gas such as petrol, or while using any kinds of flammable glues, sprays or solvents.
13. Unattended use of electrically heated products on children or incapacitated persons may be dangerous.
14. Refrain from using pins or any other metallic objects to secure this pad in place.
15. Keep all dogs, cats and other pets away from this heated product. This is an electrical appliance that they can damage or be injured by.
16. If provided with a detachable controller, use only with the provided controller.
17. Excessive heating may result from folding or bunching this heated product while in use.

Maintenance

1. Electric blankets should be checked annually for electrical safety in order to limit the risk of electric shock or fire.
2. Wrapping of cord around the controller may damage the cord. Loop loosely when storing.
3. Store in the original packaging, in a cool, dark, dry place.
4. Do not bleach or iron.
5. It is recommended you follow instructions for localized soiling or hand washing if soiling occurs.
6. Avoid using commercial dryers or those at your local laundromat, as they generate excessive heat that could potentially damage the wiring of the heated product.
7. Drape the heated product over a clothesline or a shower rod. Do not use clothespins as they may damage the inner electronic wires.
8. Heated product must be completely dry before reconnecting the power plug or control plug.
9. Controller is not waterproof. Do not immerse in water or other liquids.
10. Please take out the Power Bank/Cigarette Lighter Cable/USB Cord and zip the charging area before separately washing
