6'x6' Folding Canopy

Parts List

Part	Description
A	Peak Cap
B	Ceiling Assembly
C	Top Bracket
D	Eave Assembly
E	Leg Assembly
F	Ground Peg
G	Fabric Top
H	Backpack

IMPORTANT:

Carefully read and follow the instructions provided with this product.

WARNING:

Keep all flame and heat sources away from this canopy top and sidewall fabric. This canopy top is made with flame resistant fabric which meets CPAI-84 specification. It is NOT FIRE PROOF. The fabric will burn if left in continuous contact with any flame source. The application of any foreign substance to this fabric may render the flame resistant properties ineffective.

WARNING:

Do not set-up or leave the canopy unattended in the following conditions: gusty wind, rain, hail, sleet, snow, drizzle, or any other harsh weather conditions. Doing so may cause damage to the entire canopy.

Set Up The Canopy

1. Pull opposite corners away from each other to expand frame as far as possible.

2. Engage the slider at each corner by pushing up the slider with one hand while holding down the top of the leg with the other hand until it locks into place.

3. Place the canopy over the top frame. Use the Velcro pads to secure the canopy to the frame at each corner.

4. Gently pull out the telescoping legs stage by stage till the spring button pops in position. They are three stage telescoping legs. Please do not push in the spring button while pulling the legs and do not over pull each leg!
You may lower the height by telescoping the legs back.

5. Drop the sunblock fabric wall and attach to the legs.

Take Down The Canopy

Release the spring button lock and shorten the telescoping legs.

Remove the canopy top from the frame and fold it up nicely. Do not put it in the backpack before frame.

Release sliders at all four corners by pushing the red plastic button and gently push the sliders down to leave the locking position.

With all four pull-pin lock released, lift and walk one corner of the frame towards the opposite corner to close the frame.

Put the folded frame into the backpack and then slide the folded canopy into the backpack too. Zip the backpack.

Be sure the shelter is completely dry before storage.
