Assembly Instructions

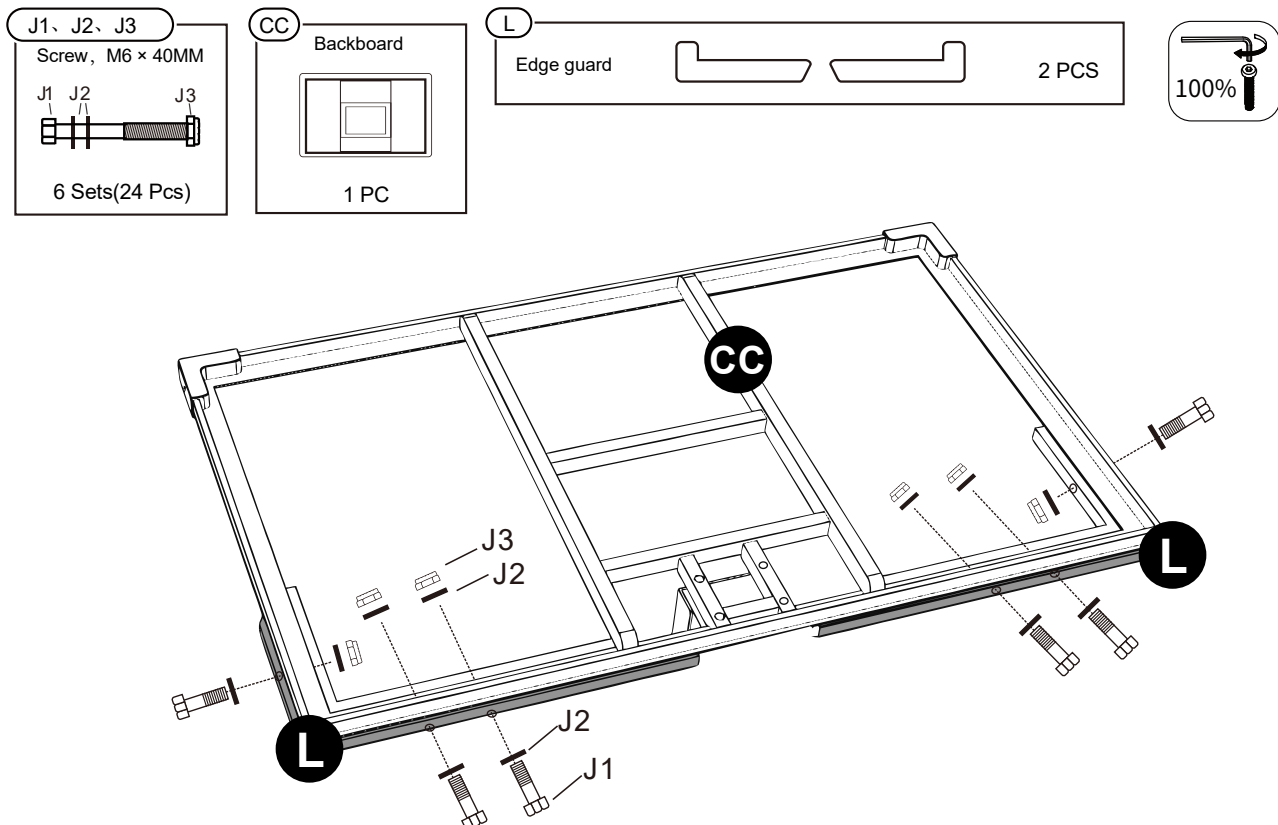

ATTENTION

When installing, we suggest you can assemble it on the carton which come with the product, or any other clean floor to avoid the backboard being scratched.

Step 1 Remove the protective film of the backboard (CC).

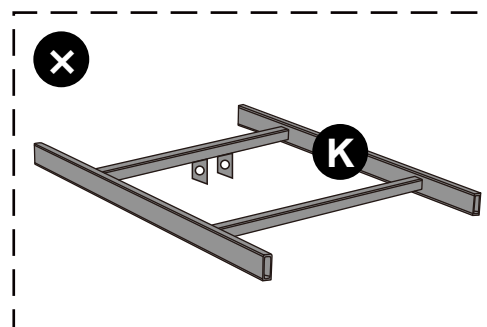

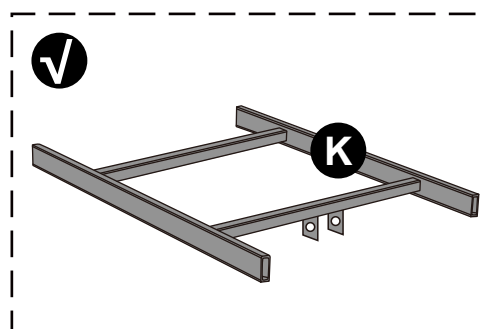

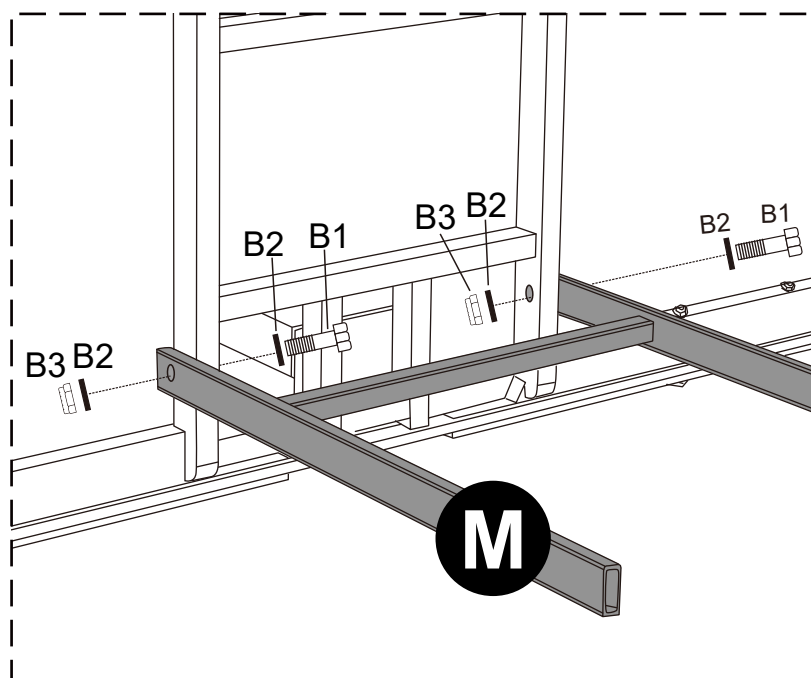

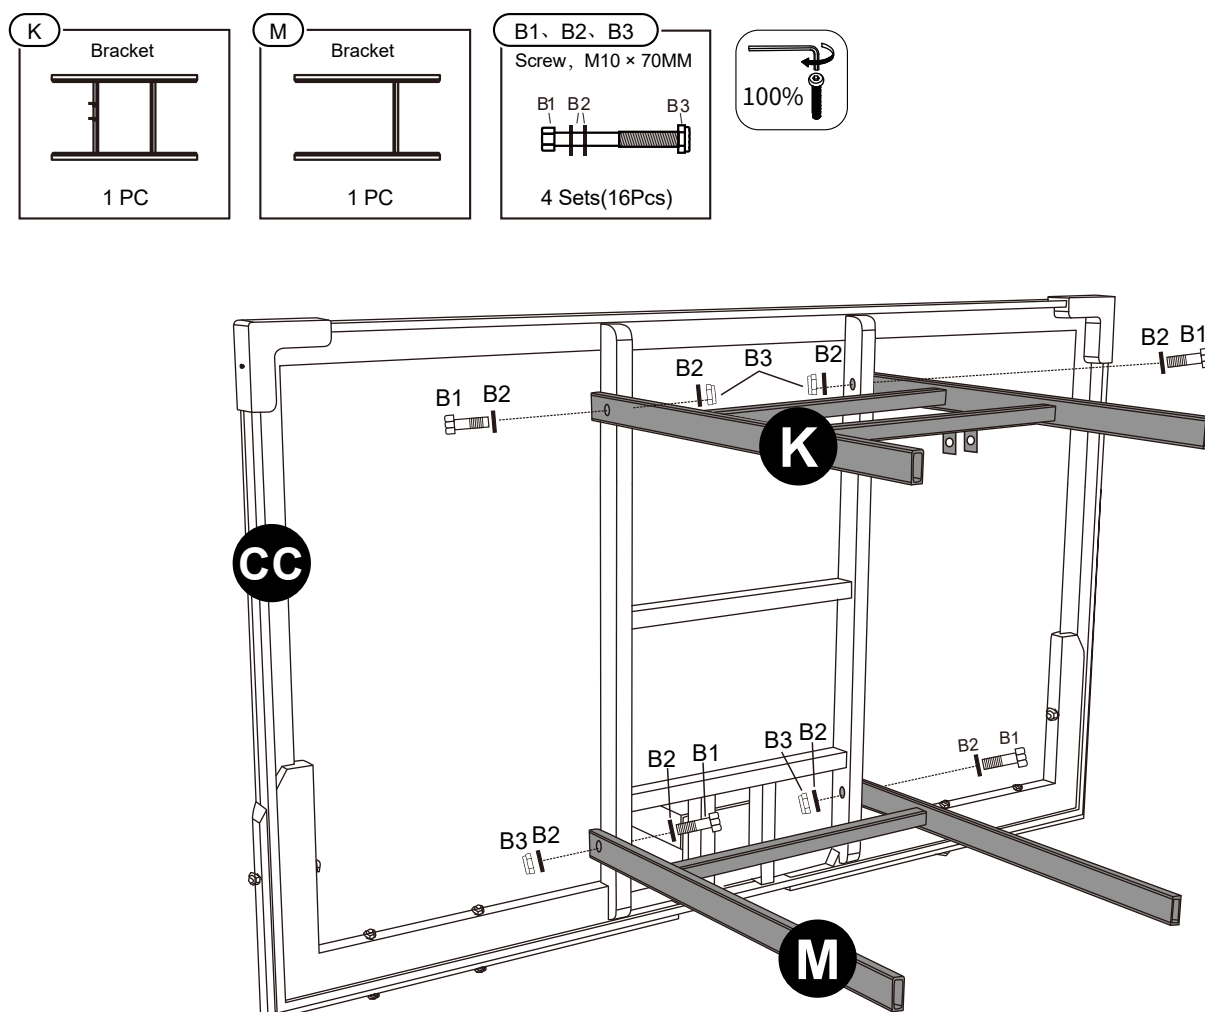

Step 2 Fix the edge guard (L) on the backboard (CC) by the screw set (J1, J2, J3) as shown.

Step 3 Fix the lower bracket (M) and upper bracket (K) on the back of backboard (CC) by the screw set (B1, B2, B3) as shown.

Note:

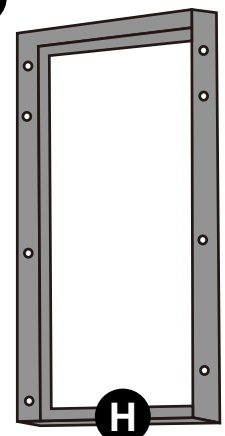

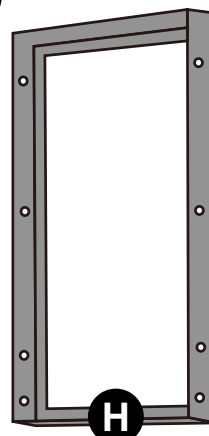

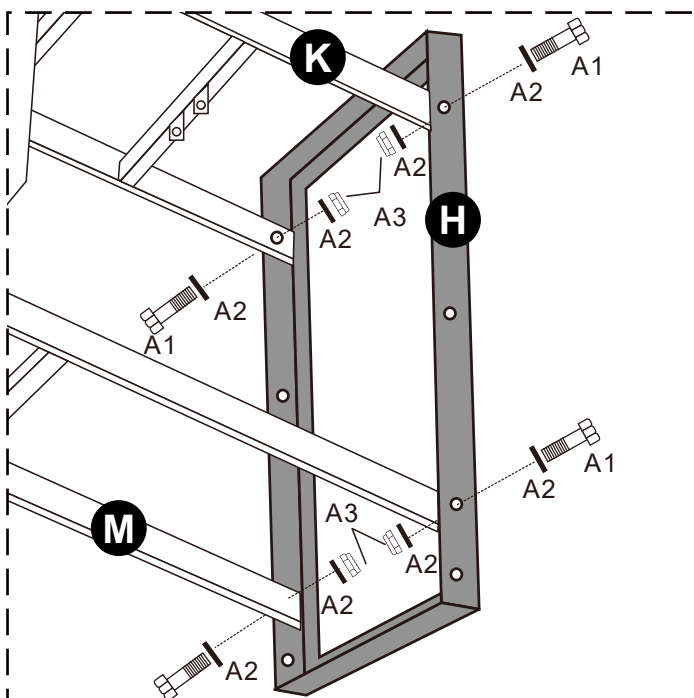

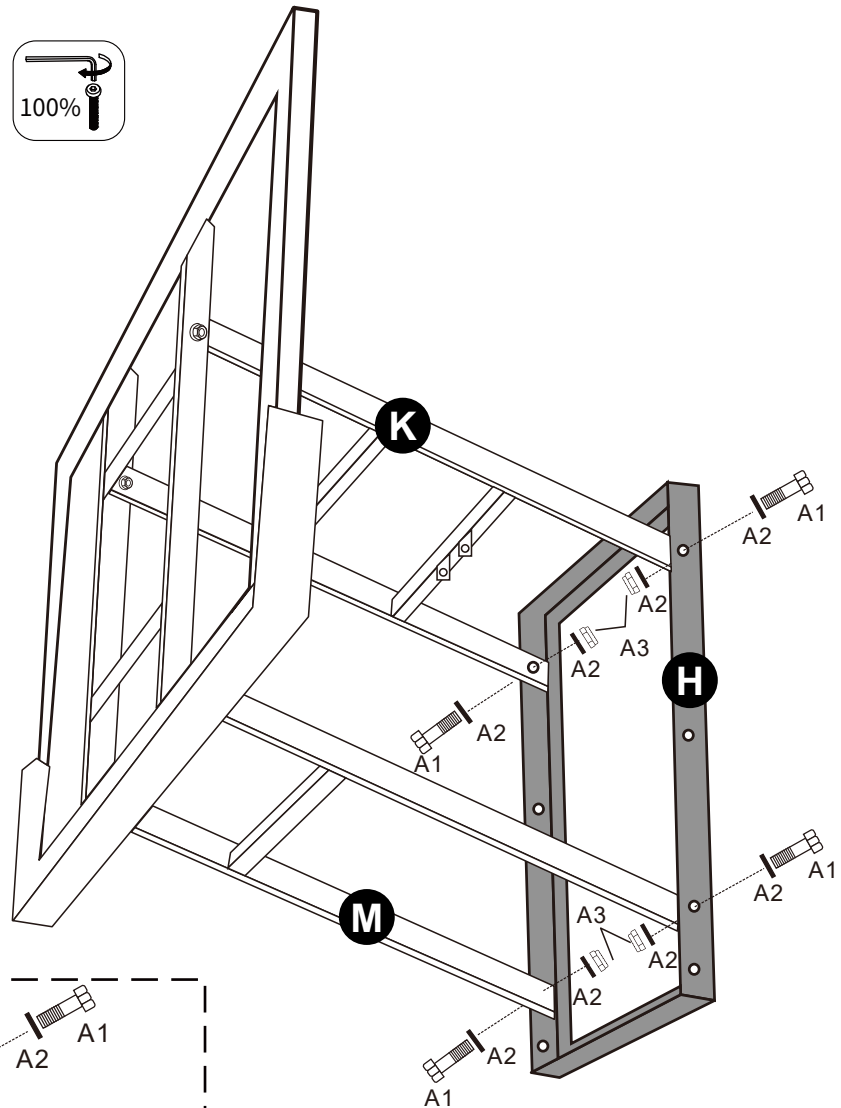

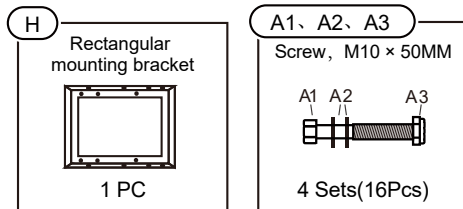

Please make sure the direction of bracket (M) and upper bracket (K) should be assembled same as below picture, otherwise you couldn't continue next steps.

Step 4 Install the bracket (K) to the 1st line holes of rectangular mounting bracket (H) , and the bracket (M) to the the 3rd line holes of rectangular mounting bracket (H) by using the screw sets (A1, A2, A3).

Note:

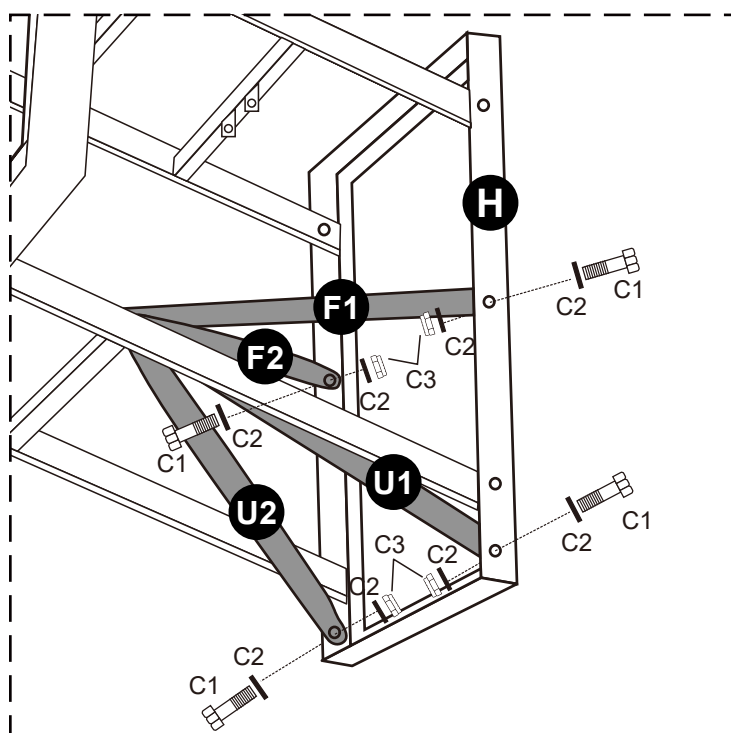

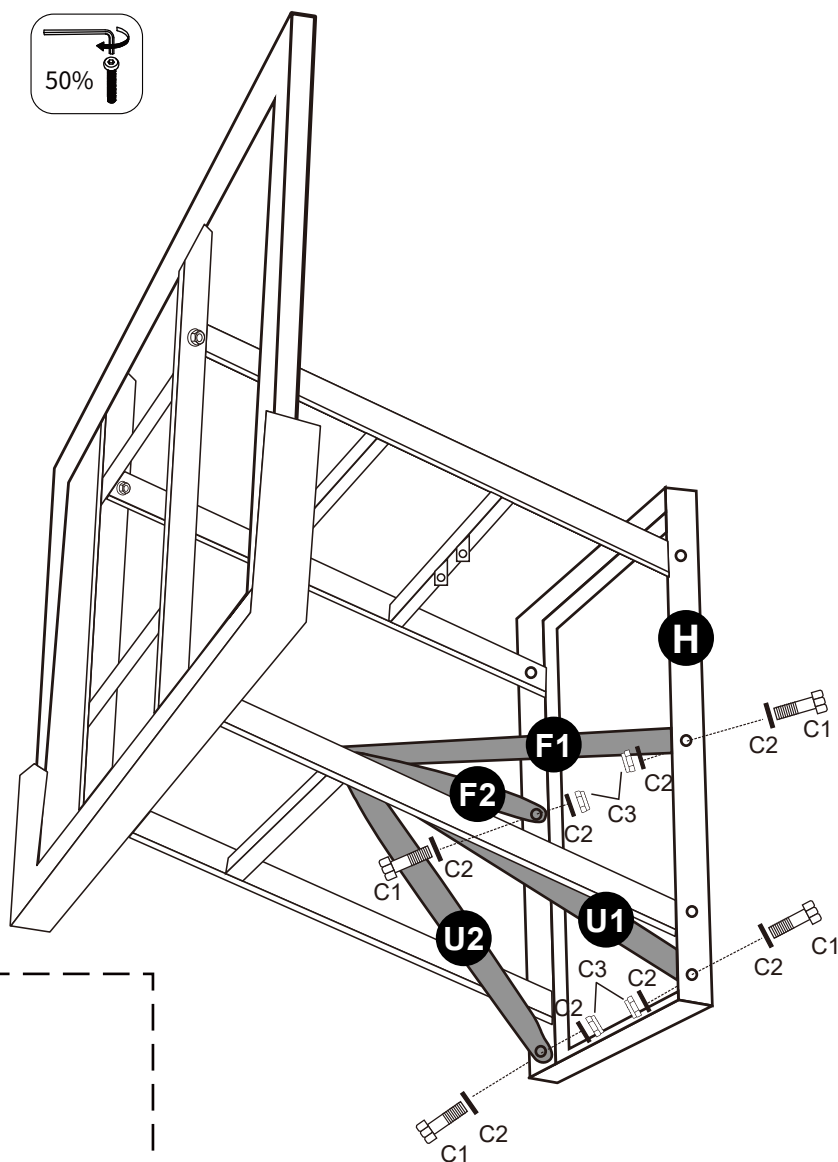

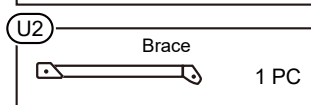

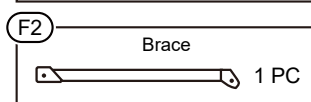

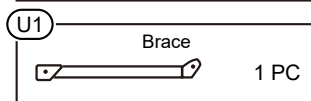

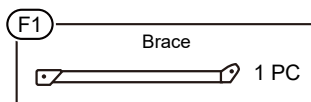

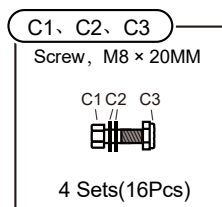

Please make sure the direction of rectangular mounting bracket (H) should be assembled same as below picture, otherwise you couldn't continue next steps.

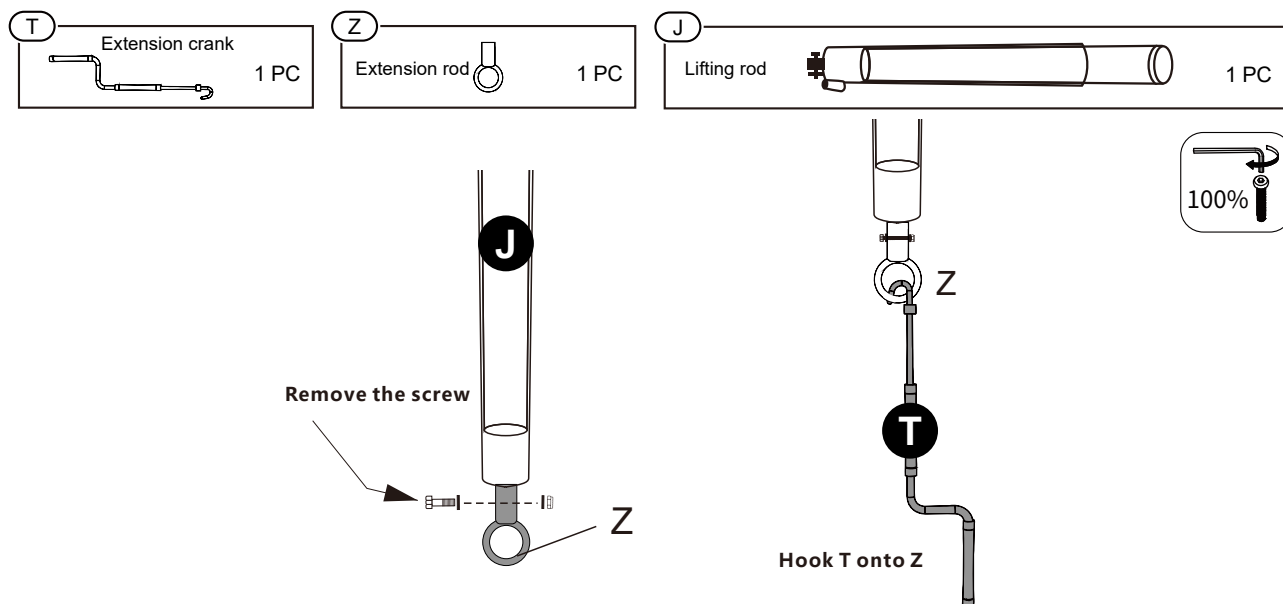

Step 5 Install the 4pcs braces (F1, F2, U1, U2) on the rectangular mounting bracket (H) by the screw set (C1, C2, C3) as shown.

Note:

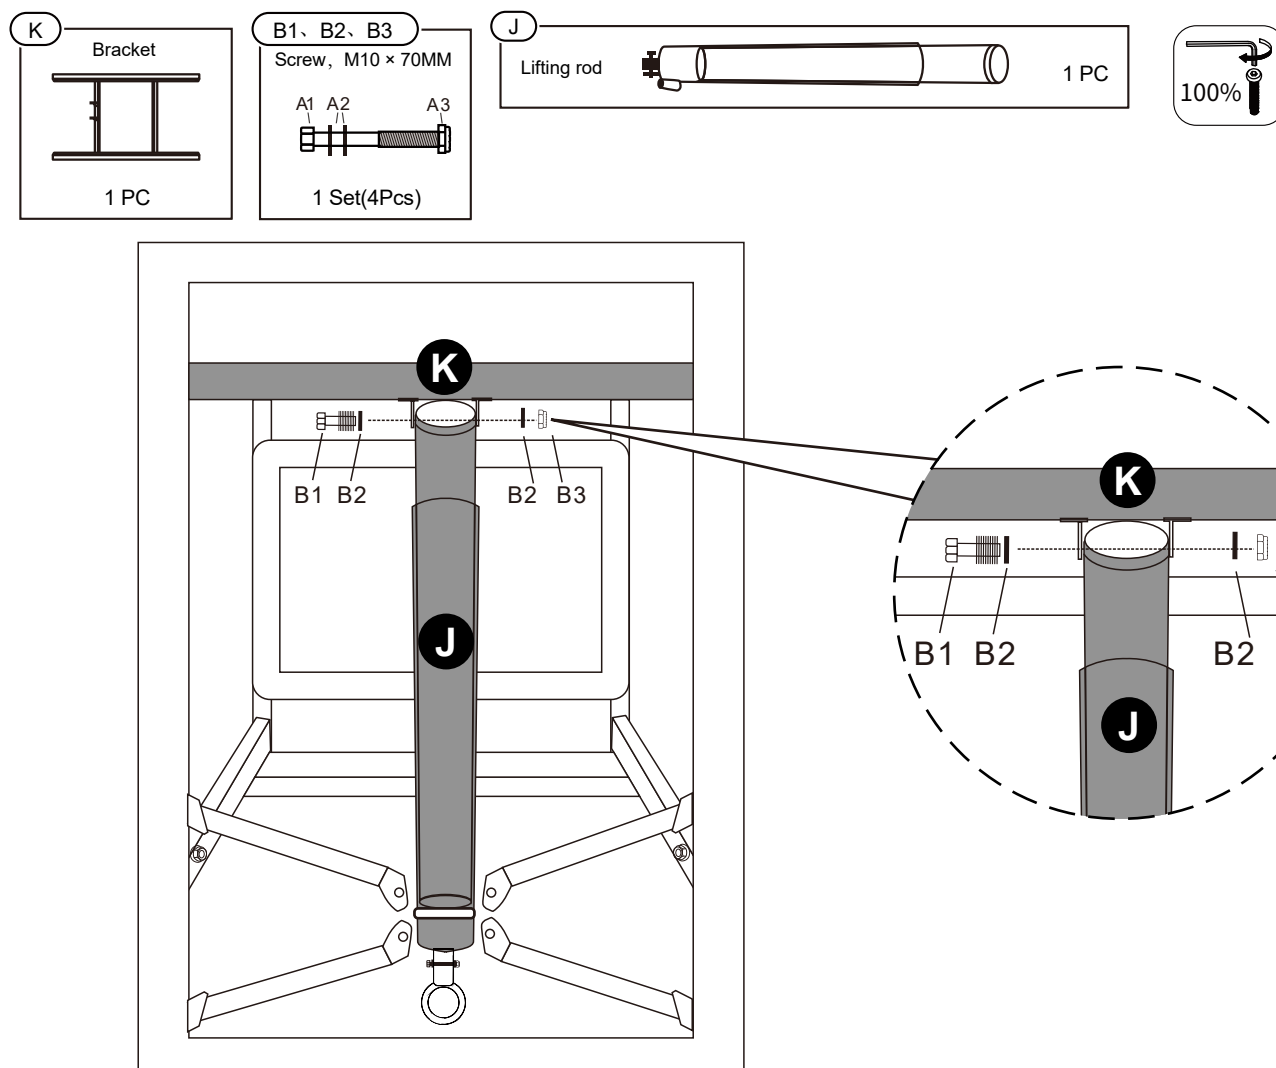

1. Make sure the braces (F1, F2) should be installed on the 2nd line holes of rectangular mounting bracket (H) and the braces (U1, U2) should be installed on the 4th line holes of rectangular mounting bracket (H).
2. Please don't completely tighten the screws on the rectangular mounting bracket (H) before attaching the braces (F1, F2, U1, U2) to the lifting rod (J).

Step 6 Remove the 2 pre-installed screws from the lifting rod (J).
Install the extension rod (Z) to the lifting rod (J) with the
screws removed before. Hook the extension crank (T) to
the extension rod (Z).

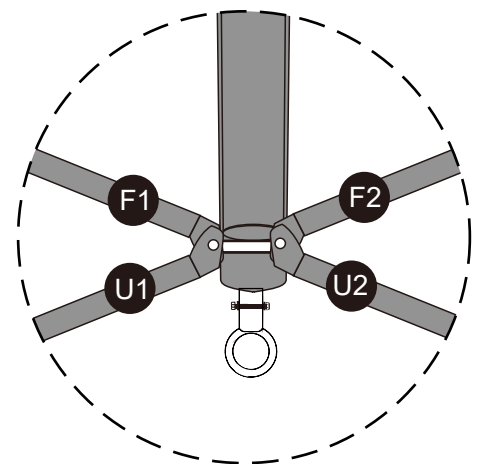

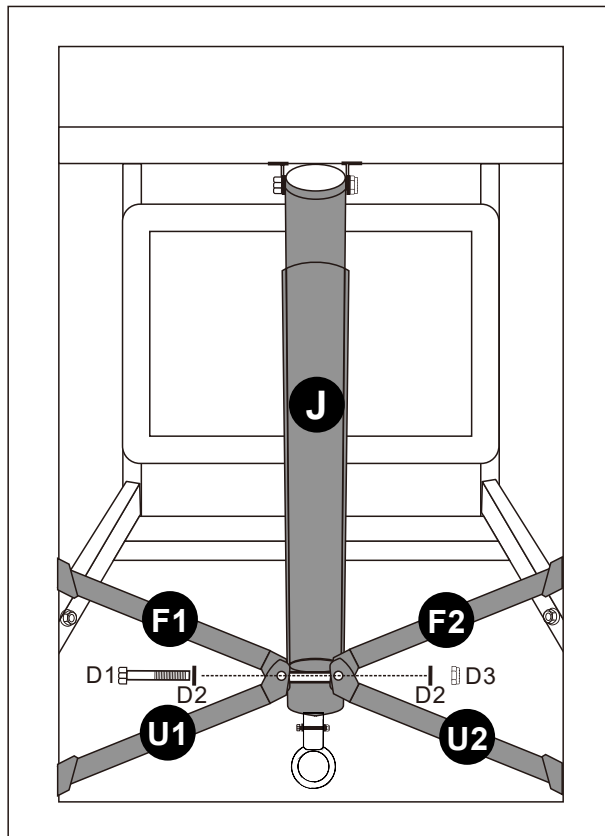

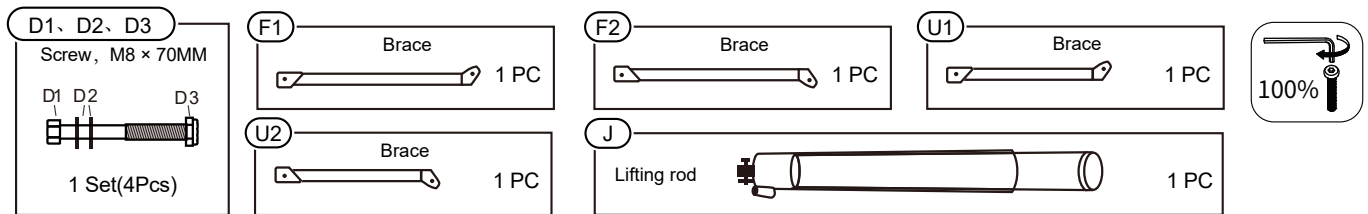

Step 7 Fix the top end of lifting rod (J) on upper bracket (K) by the
screw set (B1, B2, B3) as shown.

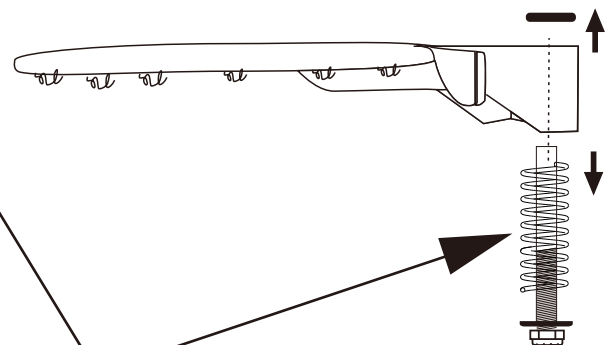

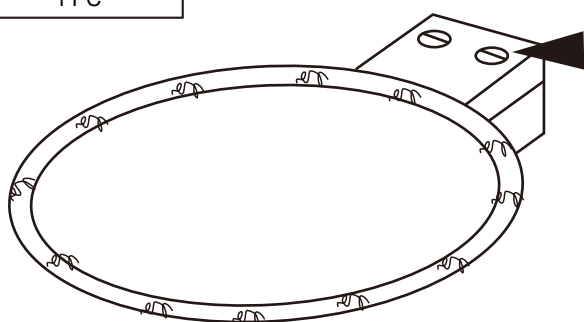

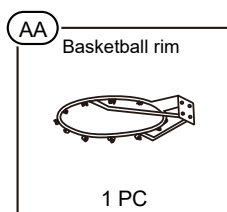

Step 8 Fix the 4pcs braces (F1, F2, U1, U2) on the bottom of lifting rod (J) by the screw set (D1, D2, D3) as shown.

Note:

The braces F1 and F2 must be fixed on the inside of the upper ends of the braces U1 and U2.

Step 9 Remove the 2 pre-installed screws from the basket rim (AA).

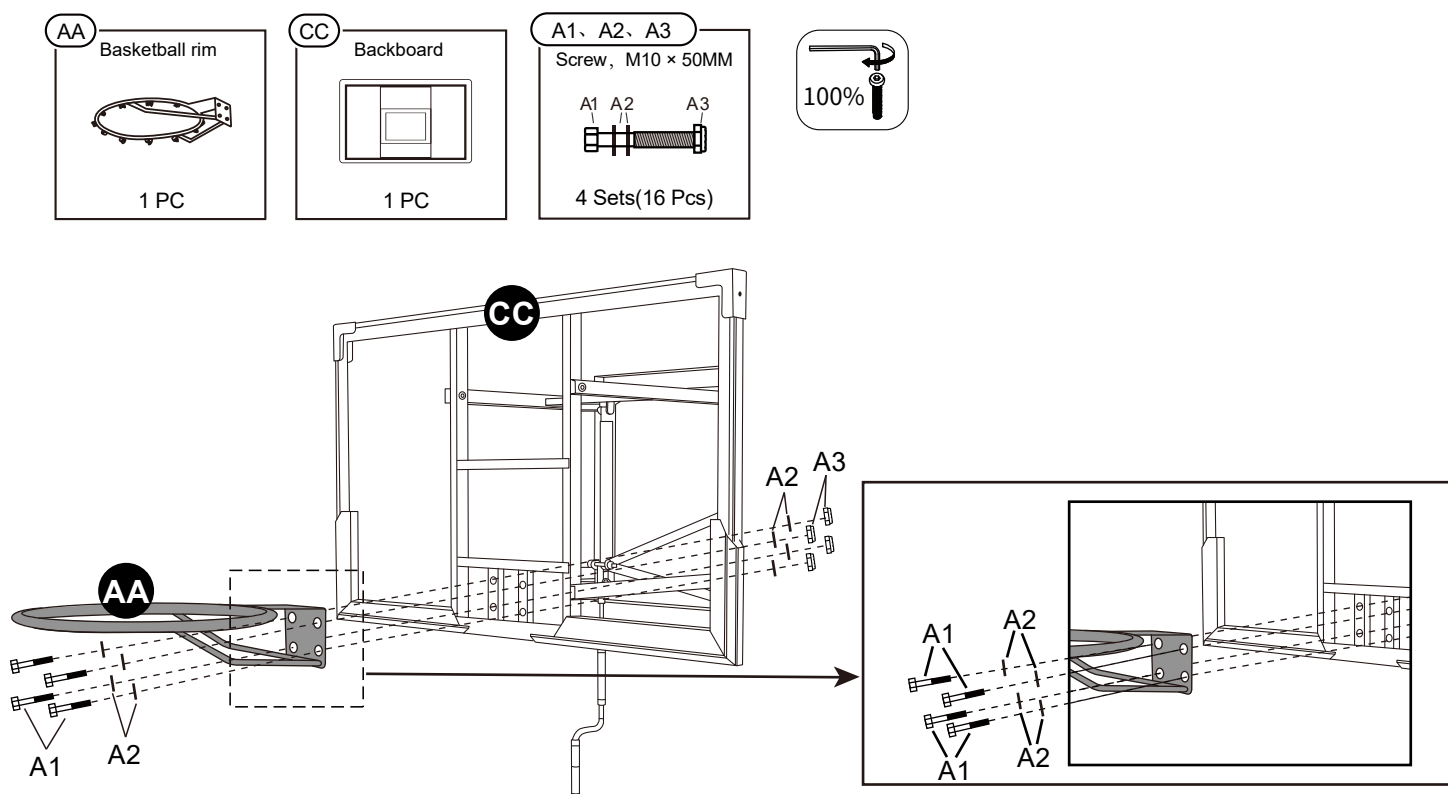

Remove the screw

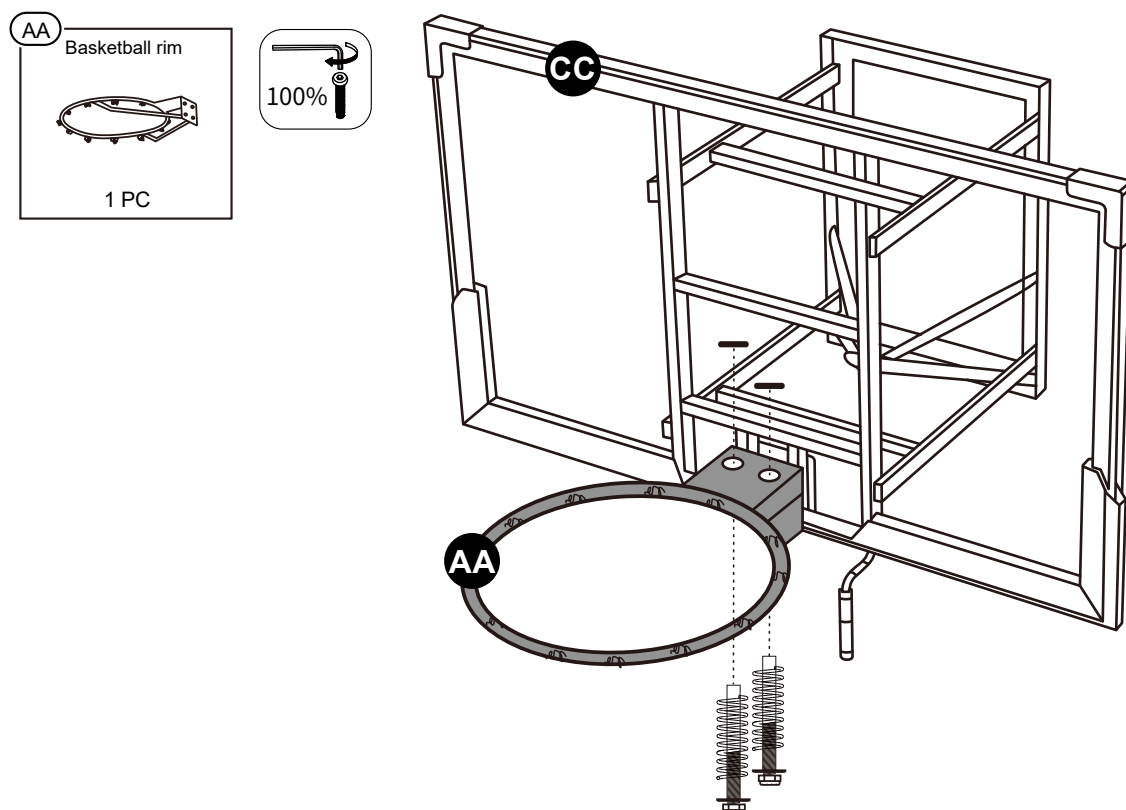

Step 10 Connect the basketball rim (AA) and backboard (CC) using screw sets (A1, A2, A3) in the four holes.

Note:

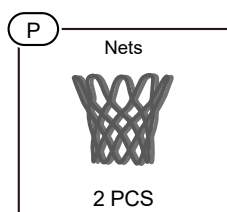

The tightness of 2 screws sets (A1, A2, A3) should be the same to provide totally same support.

Step 11 Install the screws removed before to tighten the basket rim (AA).

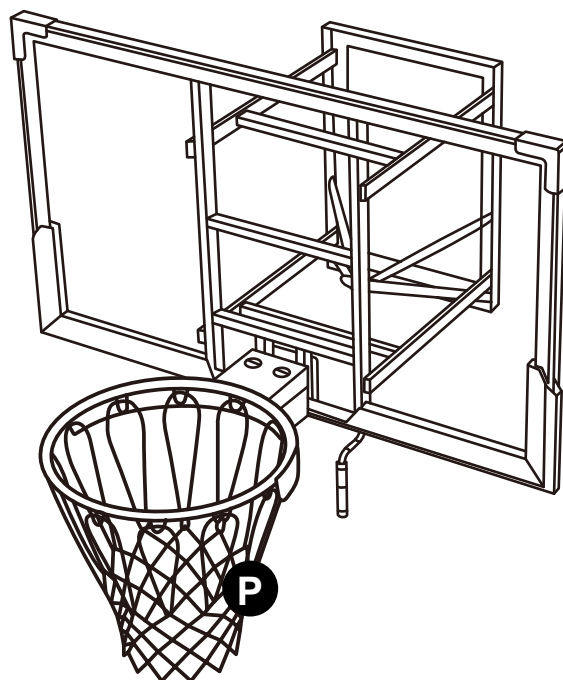

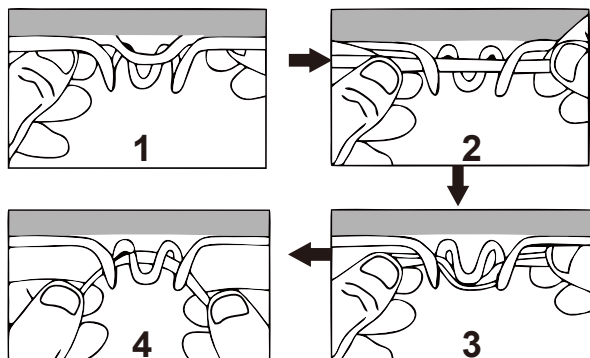

Step 12 Follow the directions to install the basketball net (P).

■ Follow the directions to install the basketball net.

Note:

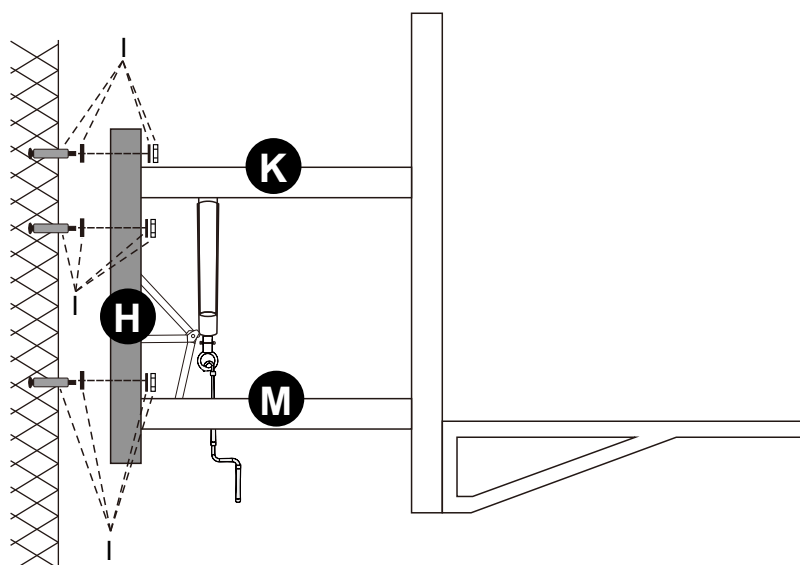

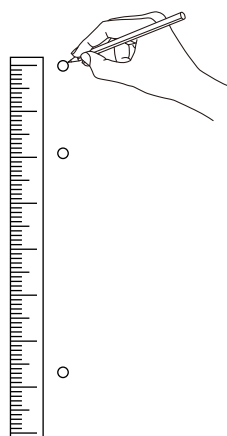

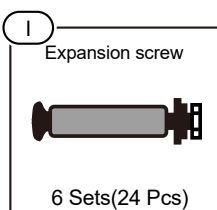

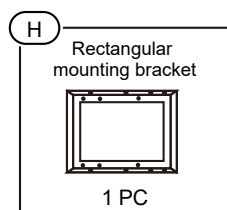

Please connect the white net rope to the rim.

Step 13 As shown in the figure, according to the holes on the rectangular bracket(H), mark 6 position on the wall and drill the holes with an electric drill, and then firmly fix the wall mounted basketball hoop system on the wall with 6 expansion screw sets(I).

Note:

The wall-mounted basketball hoop must be installed on solid brick walls or concrete walls. Installation on gypsum board walls or lightweight partition walls is strictly prohibited.

Height Adjustment

1. Hook the extension crank (T) to the extension part (Z).
2. Rotate the extension crank (T) to adjust the basketball hoop to the desired height.
