

# Eucalyptus vs Acacia

Eucalyptus (Teak Finish)		Acacia
✓ Highly resistant to moisture, pests, and wear.		✗ Low, less durable in extreme weather.
✓ Low maintenance, occasional oiling.		✗ High maintenance, needs frequent treatment.
✓ Excellent weather resistance, withstands sun & humidity.		✗ Low weather resistance, it can crack in extreme weather.
✓ Warm finish, contemporary look.		✗ Warm tones but fades without care.
✓ Fast-growing, eco-friendly, 100% FSC		✗ Less sustainable, slower growth.
✓ Great value, affordable.		✗ More affordable, but less durable.
