

Twister LED Floor Lamp Assembly Instructions

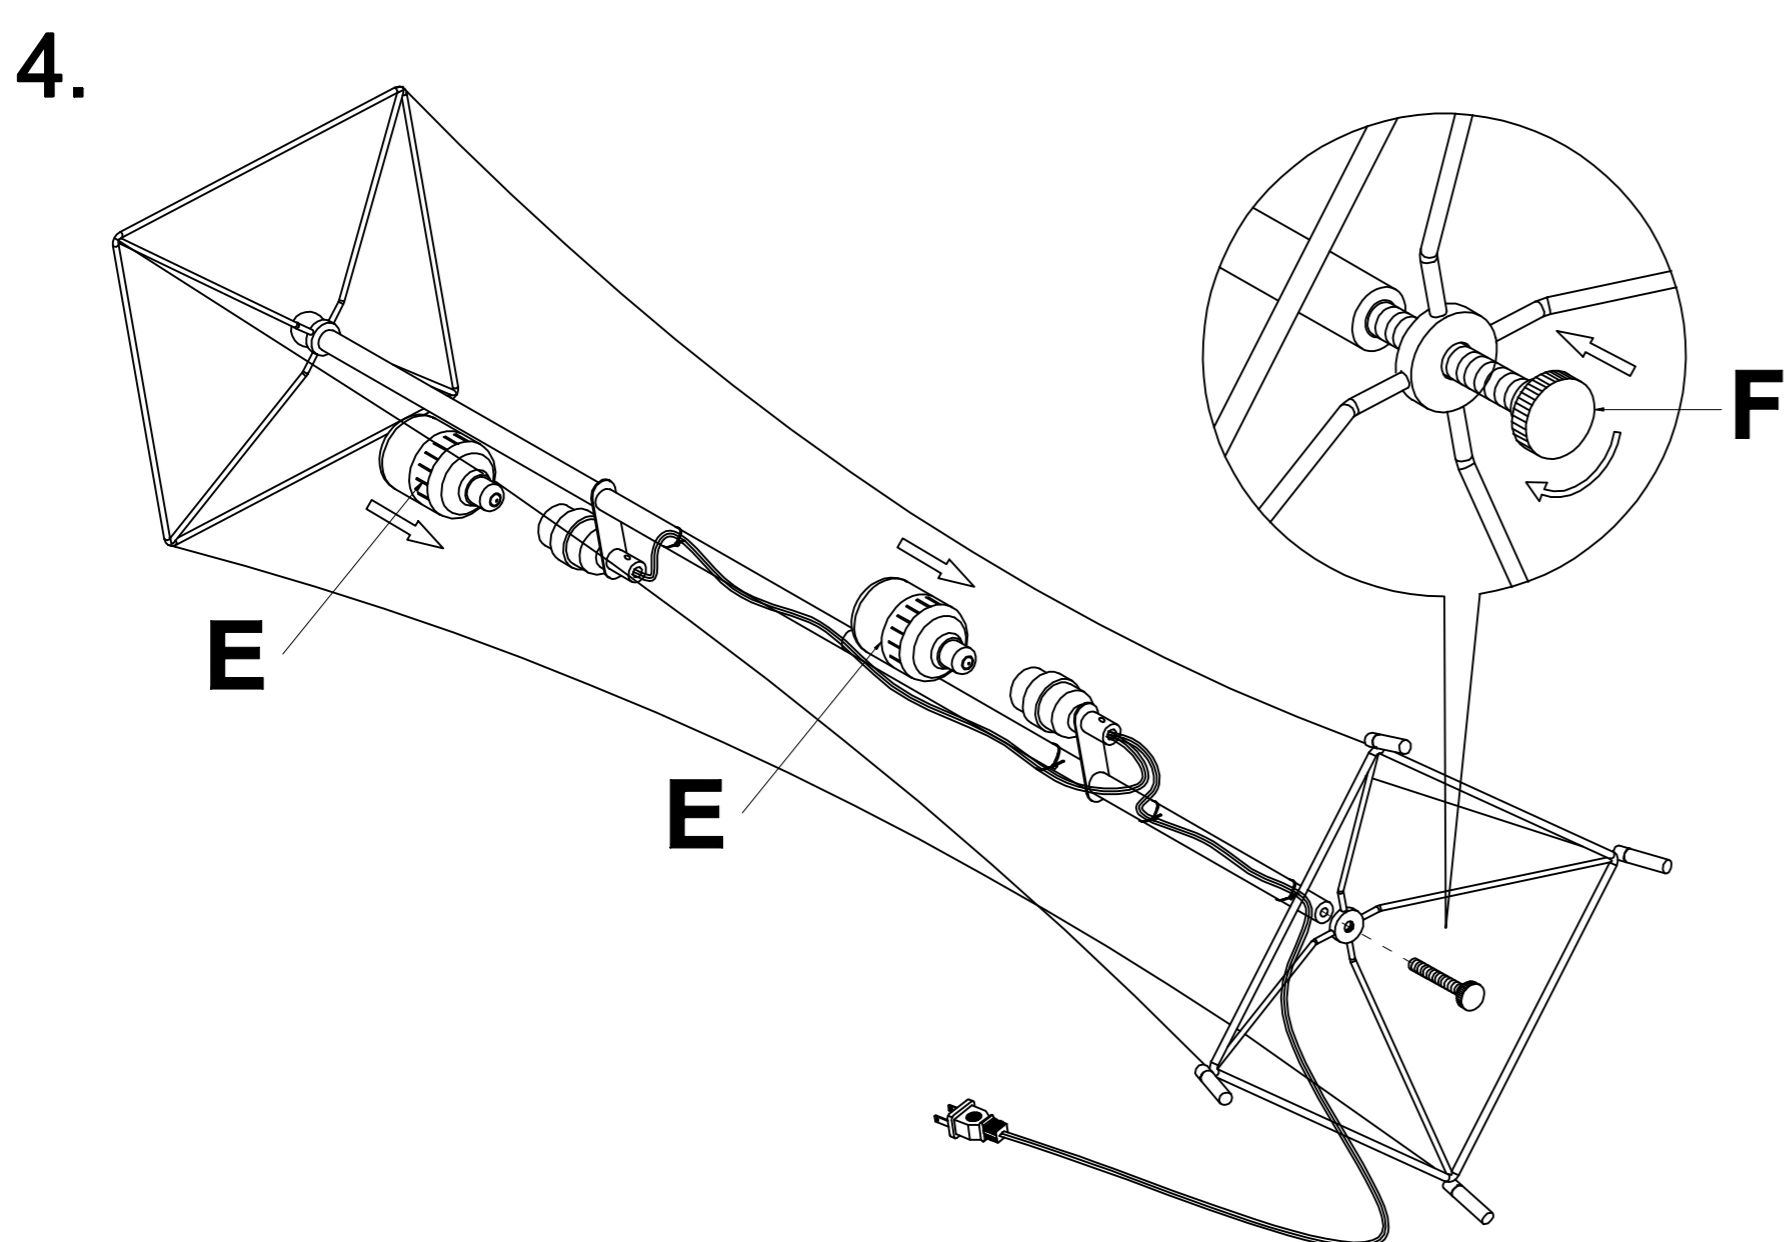

A Bottom Pole	B Sockets	C Long Poles	D Top poles	E LED bulbs	F screw	G Shade	H legs	I cable tie	J Final
									
1 PC	1 PC	2 PCS	2 PCS	2 PCS	1 PC	1 PC	4 PCS	4 PCS	1 PC

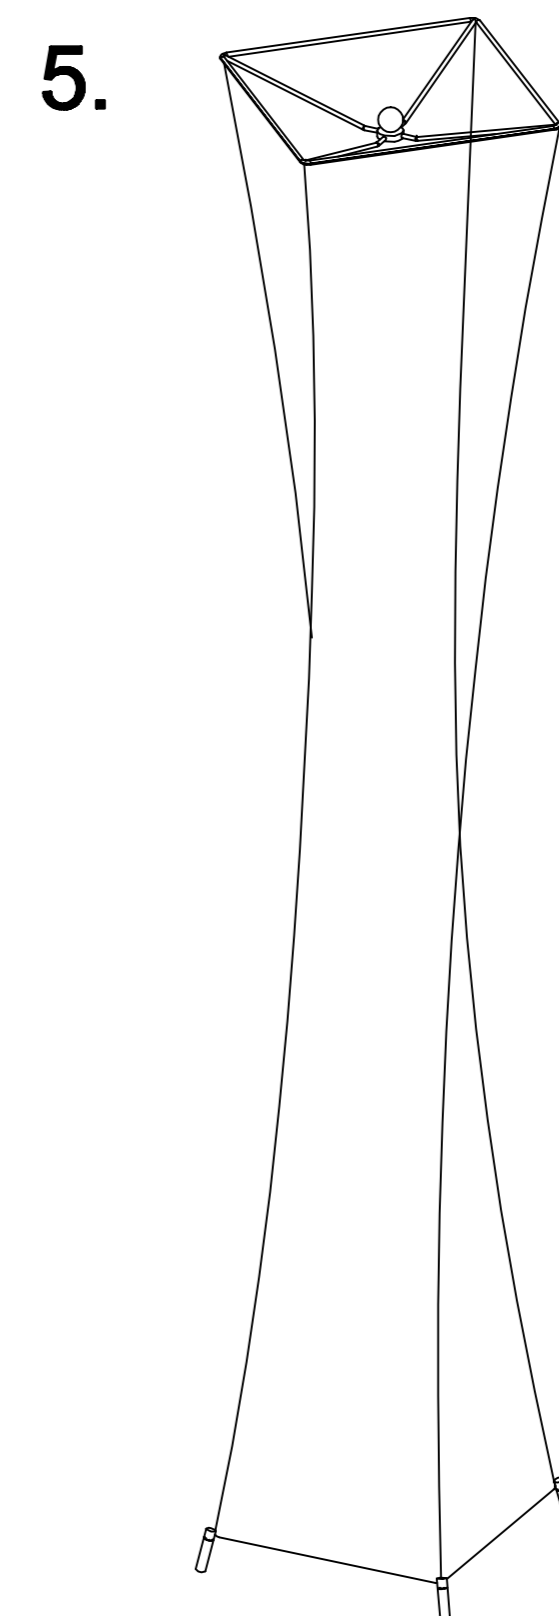

1. Fix the socket (B1) between Bottom Pole (A) and long pole (C), Then screw other long pole (C) as picture shows.

2. Fix the socket (B2) between long pole (C) and top pole (D). Then screw other top pole (D) as picture shows.

3. Fix the cord with cable tie (I) and Screw the legs (H) to shade bottom frame as picture shows. Then make the assembled lamp pole go through the shade (G) and fix the shade top frame with Final (J).

4. Fix the shade bottom frame with Screw (F) as picture shows. Then lay the lamp flat on the clean ground and fix the LED bulbs (E).
Ps: If the shade will be looser over a period of time, we can make it tighten again by screw (F). So please leave some room when we screw the screw (F), do not make the shade too tight to broken.

5. Finished as above
