

## BEFORE YOU BEGIN

- Please read these instructions carefully to familiarize yourself with the required tools, materials, and installation instructions. Follow the sections that pertain to your particular installation. Doing so will help you avoid costly mistakes. In addition to proper installation, please read all operating and safety instructions
- Please provide adequate space for the bath unit in accordance with the rough-in. Arrange the location of the drain in advance
- These instructions contain important care, cleaning, and warranty information

## COMPLIANCE INFORMATION

- Art Bath Company Inc only provides the bathtub. It is the buyer's or installer's responsibility to make sure that the bathtub and installation complies with local state, city, and regulatory laws. It is also the responsibility of the buyer or installer to ensure that the waste drain is made watertight with silicone sealant or caulking compound

## SAFETY

- Please use all necessary safety precautions when using the bathtub
- Bathtub may become slippery when wet and increase risk of fall or injury
- Use of handrails or handicap accommodations is highly recommended for seniors or those with disabilities
- Ensure small children are supervised when using the tub to prevent risk of drowning or injury
- Pets should not be left in the tub without proper supervision
- Under no circumstances is the manufacturer liable for bodily harm or injury stemming from accidental falls or misuse of our bathtub

## MAINTENANCE

- Most dirt will simply be washed off with mild soap and water
- **CAUTION:** Do not use any industrial strength cleaners or solvents to clean the bathtub surface. The surface will be damaged
- Only use calcium remover when cleaning chrome surfaces
- **CAUTION:** Avoid getting calcium remover on the bathtub surface

## REPAIR

- For Minor Scratches & Dulling: Use liquid polishing compound suitable for acrylic
- For Deep Scratches or Burns: Use very fine sandpaper (at least 1500 grit) in a circular motion covering an area wider than the scratch. Always wet the sandpaper with water before sanding. Repeat until the scratch is eliminated. Finally, polish the area with polishing compound to bring back its original shine. Use a soft cloth and a small amount of polish to buff the surface. Repeat the process as needed

### INSTALLATION NOTES

- Read the entire installation manual before beginning the installation. If installing a rim-mounted faucet (only on certain models), make sure there is no interference with the overflow drain before drilling any holes
- Position a protective covering or similar material in the bottom of the unit to protect the bathtub's surface from being scratched

### CLEARANCE REQUIREMENTS

- Measure the area where you intend to install the bathtub to ensure you have adequate space available for the installation

### SITE REQUIREMENTS

#### Sub-floor Preparation

- Check the flooring where the bathtub is going to be installed and make repairs as needed. Make sure the sub-floor is level. It is strongly recommended to prepare a waterproof layer for the sub-floor beforehand

## FAUCET INSTALLATION ON THE BATHTUB (OPTIONAL) INSTALLATION DU ROBINET SUR LA BAIGNOIRE (OPTIONNEL)

- Locate where you will drill the holes into the acrylic, and stick masking tape onto that area. This will prevent the acrylic from chipping
- Drill holes for the faucets on the bathtub at the desired location
- Unscrew the bolts at the bottom of the bathtub using an adjustable key. Then carefully take out the top of the tub and place it on a throw rug or other protective floor covering to prevent damage to the bath and the floor
- Install the faucets according to the faucets' manufacturer instructions. Then assemble the top of the bathtub with the skirt, and secure the bolts at the bottom as shown in the illustration

**Notes: Check all pipe connections to ensure no leakage occurs.**

# INSTALLATION (Option #1)

## Option #1

- Screw the supplied Adapter to the preinstalled bathtub drain. Use Teflon tape and/or sealant
- Connect the P-Trap to the Adapter using PVC pipe sealant to adequately join the two parts
- Then, as shown in the illustration, connect the P-Trap to the Flexible Tube
- Connect the Flexible Tube to your existing floor drain as illustrated, using PVC pipe sealant to join the parts together

# SECURING THE BATHTUB

**BEFORE FIXING THE BATHTUB TO THE FLOOR, MAKE SURE YOU HAVE INSTALLED YOUR FAUCET(IF APPLICABLE) AND THAT YOU HAVE CHECKED FOR LEAKS**

- Test for leak by filling up the tub and let it drain. Then check all plumbing connections for leaks
- Fix the bathtub to the floor by applying a strong Tub &Tile Adhesive under each edges of the tub that will be in contact with the floor: The rim, the lateral bars and the feet
- Finally, for a professional finish, draw a bead of silicone around the base
- Let it dry for 24 hours

## RETURNS & WARRANTY

We thank you for your purchase. If you are not satisfied with your purchase or have an issue with our product, please kindly let us know. Our full returns policy is outlined below. Carefully read over our terms before contacting us. If you have questions, our customer service team can be reached: [sales@moklebabath.com](mailto:sales@moklebabath.com).

For 1-3 years from the date of purchase, when this major appliance is operated and maintained according to instructions attached to or furnished with the product, Moklebabath.com will supply factory specified replacement parts for free if needed. This limited warranty is valid only in the United States or Canada and applies only when the major appliance is used in the country where it was purchased. Outside the United States and Canada, this limited warranty will be voided if it is used outside the United States and Canada. Proof of original purchase date is required to obtain service under this limited warranty

## WARRANTY EXCLUSIONS

The included warranty is null/void and does not cover the following conditions:

1. Service calls to correct the installation of your major appliance, to instruct you on how to use your major appliance, to replace or repair house fuses, or to correct house wiring or plumbing.
2. Service calls to repair or replace appliance light bulbs, air filters or water filters. Consumable parts are excluded from warranty coverage.
3. Repairs when your major appliance is used for other than normal, single-family household use or when it is used in a manner that is contrary to published user or operator instructions and/or installation instructions.
4. Damage resulting from accident, alteration, misuse, abuse, fire, flood, acts of God, improper installation, installation not in accordance with electrical or plumbing codes, or use of consumables or cleaning products not approved by us.
5. Cosmetic damage, including scratches, dents, chips or other damage to the finish of your major appliance, unless such damage results from defects in materials or workmanship and is reported to us within 30 days from the date of purchase.
6. Any food loss due to refrigerator or freezer product failures.
7. Costs associated with the removal from your home of your major appliance for repairs. This major appliance is designed to be repaired in the home and only in-home service is covered by this warranty.
8. Repairs to parts or systems resulting from unauthorized modifications made to the appliance.
9. The removal and reinstallation of your major appliance if it is installed in an inaccessible location or is not installed in accordance with published installation instructions.
10. Major appliances with original model/serial numbers that have been removed, altered or cannot be easily determined. This warranty is void if the factory applied serial number has been altered or removed from your major appliance. The cost of repair or replacement under these excluded circumstances shall be borne by the customer.
