ASSEMBLY INSTRUCTION

① Attach the seat and back using screws (E). Ensure the padding is secured, and tighten the screws.

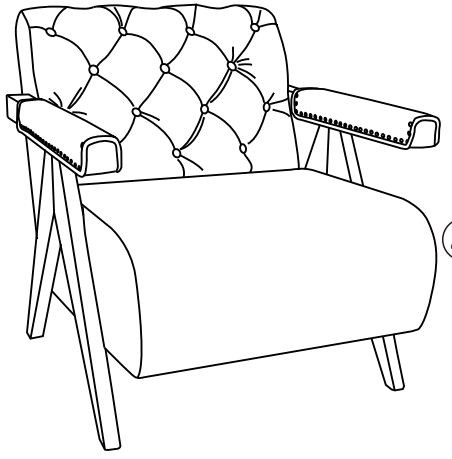

② Affix the armrests and backrests using screws(G) . Utilize an L-shaped screwdriver to tighten the screws.

③ Install the legs and secure them to the seat with screws (F). Tighten the screws securely.

Note

When installing, remember to tighten the screws to only 90% of their capacity; avoid overtightening.

④ Stand the chair upright and ensure it is level before fully tightening all screws. Then, tighten all screws to 100% capacity.
