Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

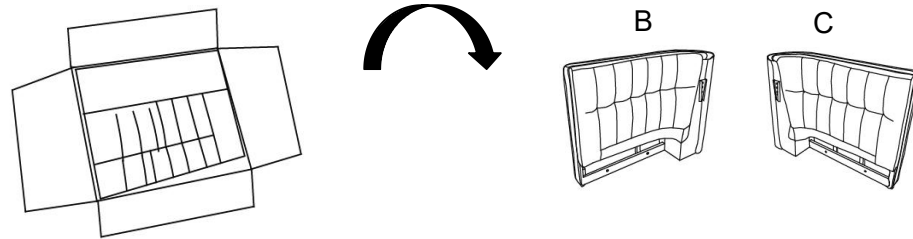

Note: It is recommended that you have an adult partner to assist during the entire assembly process.

## Step 1

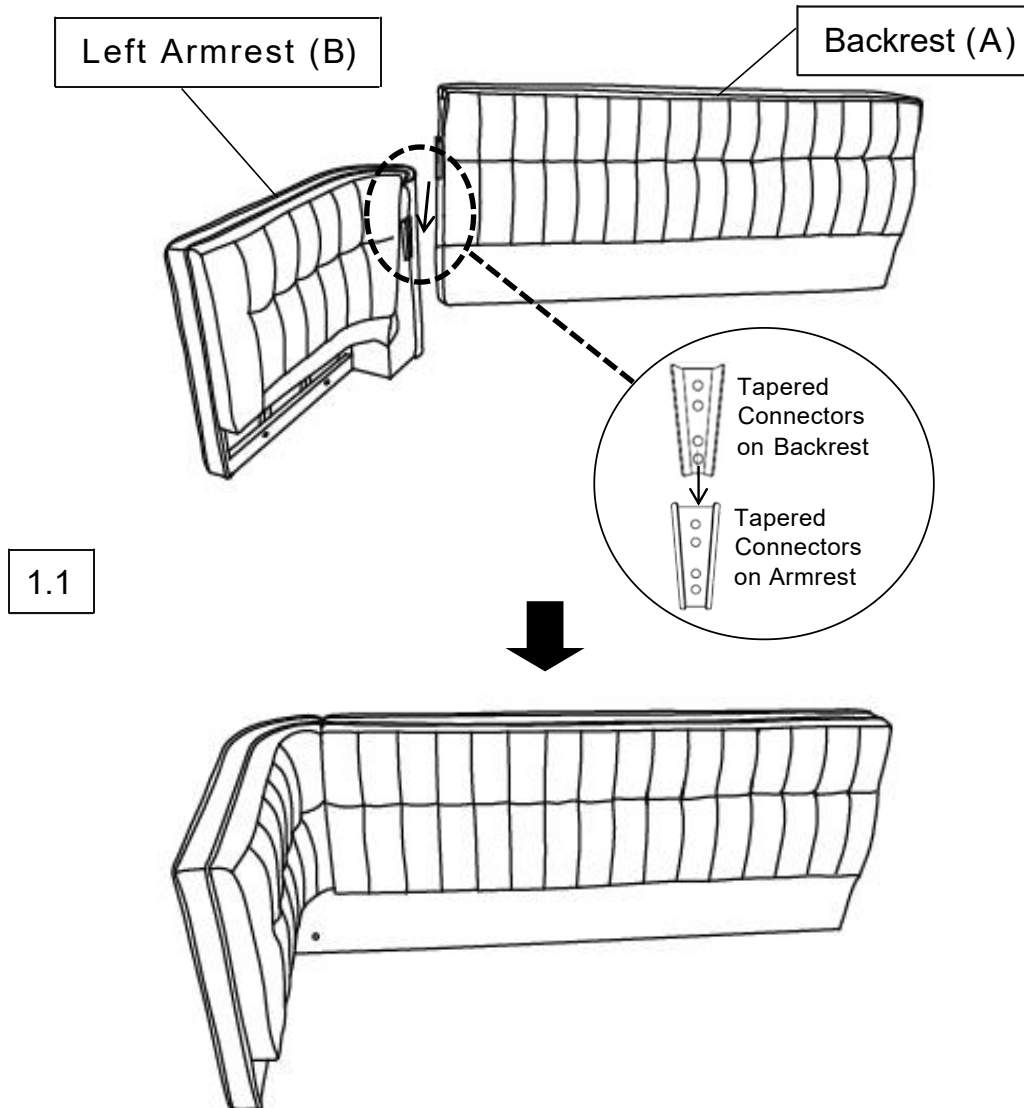

Take out the Backrest(A), Seat(D), Leg(E), Middle Support Leg (F) and Hardware box from the Carton "A", place it on a clean, non-marring surface.

## Step 2

Take out the Left Armrest(B), Right Armrest© from the carton "B" and place them on a clean, non-marring surface.

## Step 3

With the assistance from your adult partner:

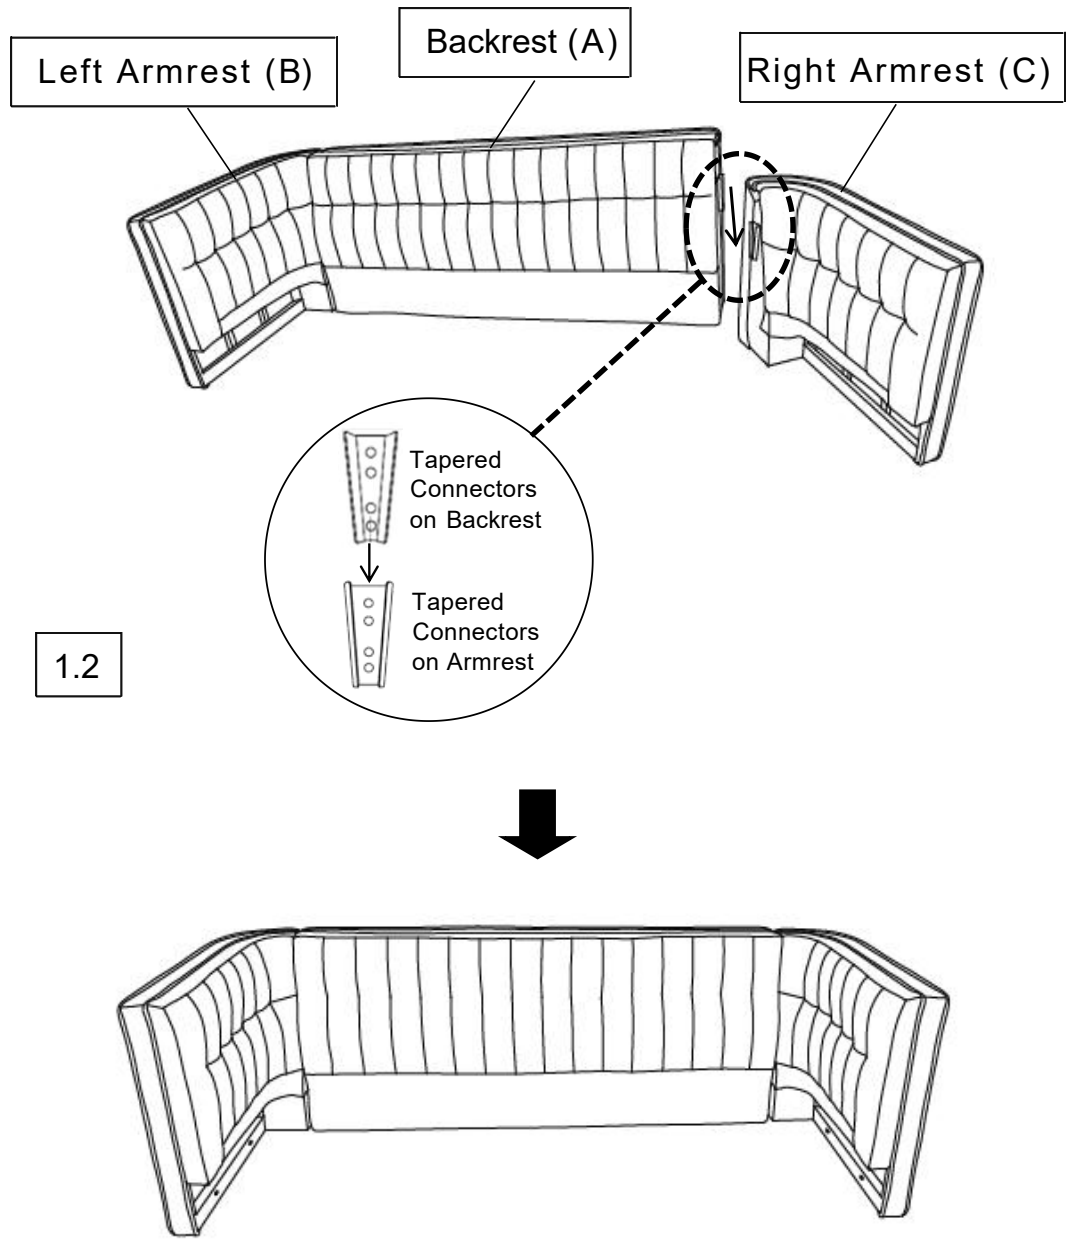

1.1) Lift the Backrest(A) up, make sure the Backrest(A) is vertical and aligned to the Left Armrests(B).

Your adult partner may need to push the Armrests in towards the Backrest(A) to allow for better alignment.

Slip and Slide the Left Armrests(B), in a gradual and balanced manner into the Tapered Connectors.

Push the Backrest(A) downwards until it is fully slotted and locked into position.

## Step 4

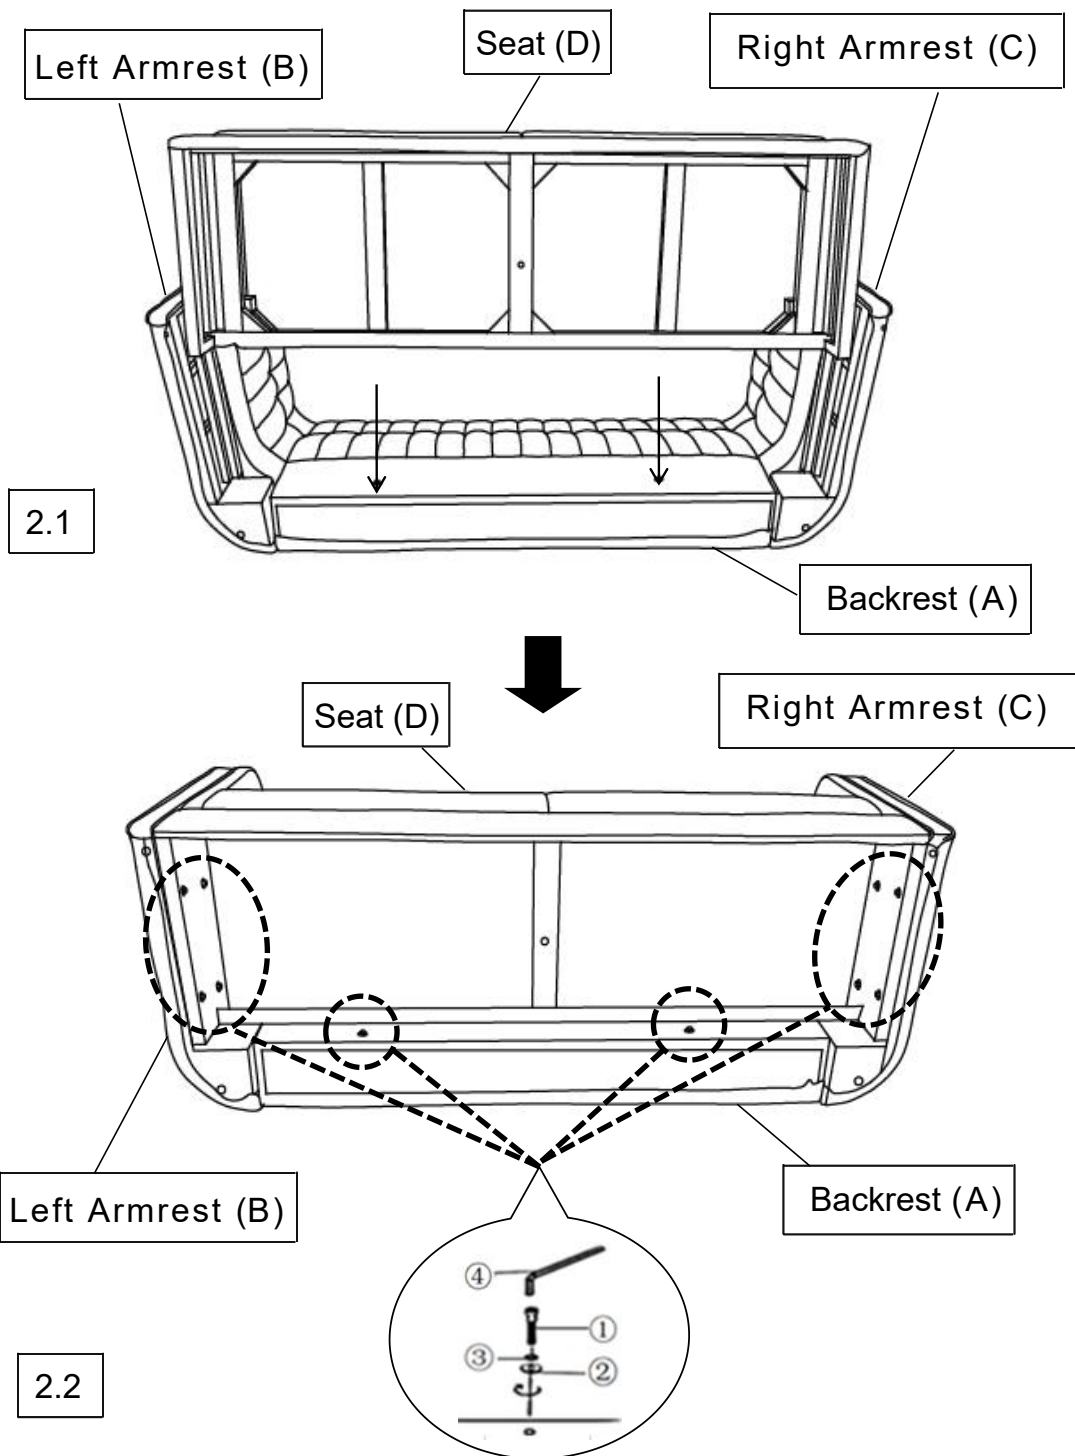

1.2) Installation of the right armrest(C) follows the steps of 1.1).

**Note: Make sure the Tapered Connectors on the Backrest(A) lock into the Tapered Connectors on Armrest(B&C) .**

**Fully locked position: Check and assess that the base of the Backrest(A) and Armrest(B&C) are aligned and level.**

## Step 5

With the assistance from your partner.

2.1) Shown as above picture, Tilt and lay the STEP4 assembled parts on its Backrest(A) onto a flat surface.

2.2) Attach the Seat(D) to the Left Armrest(B) & the Right Armrest(C) & Backrest(A) using Bolts (①), Spring Washers(③), and Washers(②) with the Allen Wrench(④).

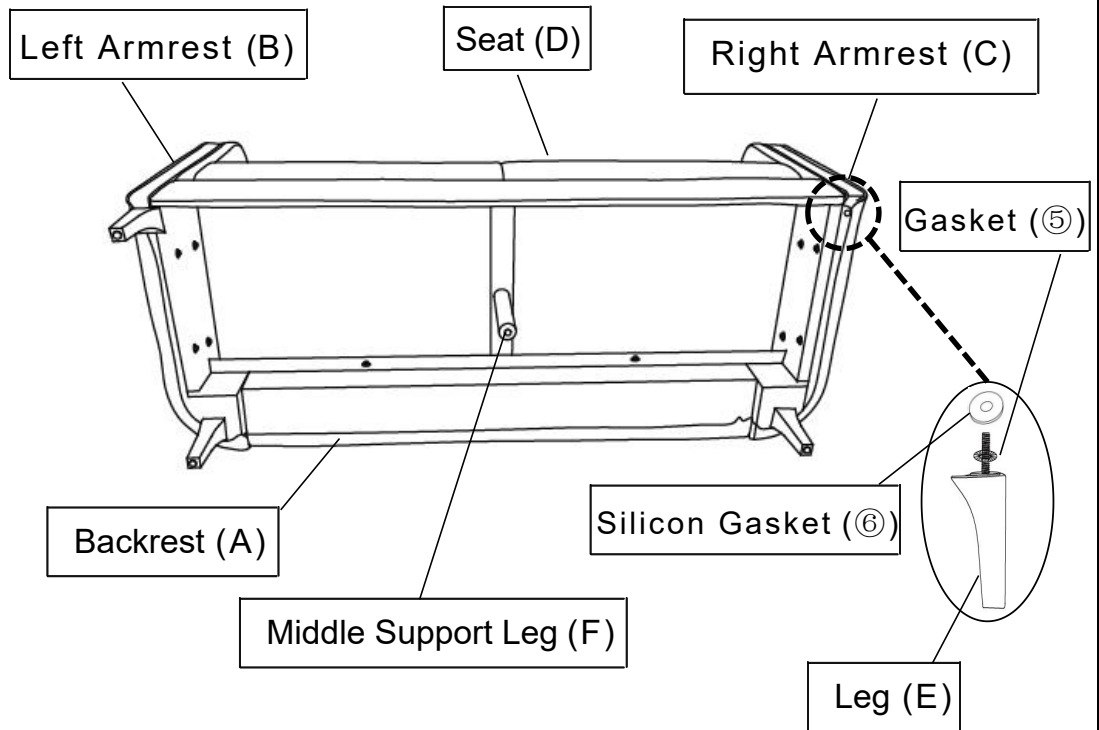

**DO NOT fully tighten a Bolt in one go and then move on to the next.**

**Rather, In a sequential manner, gradually tighten each Bolt until all Bolts are evenly secured.**

**This methodology will ensure maximum evenness once all Bolts are fully tightened.**

**Note: Insert the bolts on the Armrest first, then go to Backrest. If you can not insert the Bolt into position on Backrest, please push the Backrest towards Seat bottom, make sure the Backrest bottom is leveling with Seat bottom.**

## Step 6

Install the Sofa Leg(E) and the Middle Support Leg(F) onto the bottom of the Sofa by placing one Gasket(5) and one Silicon Gasket (6) on the threaded stem.

Then insert the threaded stem into the threaded mounting position at the corner of the Sofa.

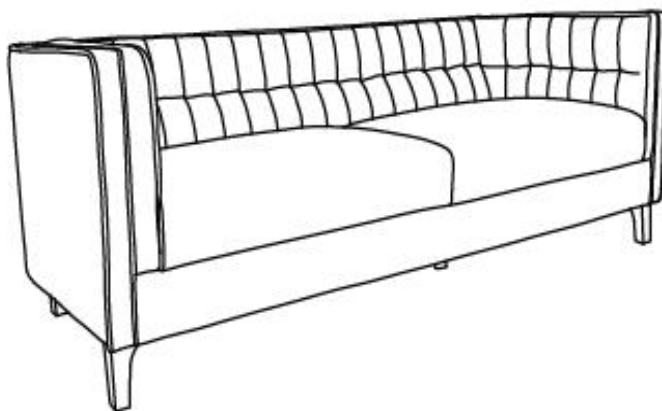

Tighten by turning the Leg clockwise.

Repeat the same step to install the remaining Legs.

**Note: The use of Gaskets are OPTIONAL and are especially useful to help alleviate slight wobbles.**

**Some Legs may need more than one whilst some legs may not need any.**
