

Nauticau Upholstered

MATERIALS

Powder coated aluminum is durable and lightweight. The rustproof nature of the frame offers high quality and strength. Nauticau is a PVC material that has been used for years in marine environments for its luxurious look and feel and ability to resist the harshest weather conditions. Nauticau can withstand extreme temperatures, has ultraviolet inhibitors in the pigment system, and is healthcare grade mold and mildew resistant.

MATERIALS

Powder coated aluminum is durable and lightweight. The rustproof nature of the frame offers high quality and strength. Nauticau is a PVC material that has been used for years in marine environments for its luxurious look and feel and ability to resist the harshest weather conditions. Nauticau can withstand extreme temperatures, has ultraviolet inhibitors in the pigment system, and is healthcare grade mold and mildew resistant. Resin Wicker is made of a synthetic polyethylene material. Durable and elastic, resin wicker will resist weathering and endure. Solution-dyed polyester fabric is an economical option available on stocking cushions with the look and feel of cotton and the durability of synthetic fibers.
