

ASSEMBLY INSTRUCTION

Disclaimer

Use of this product constitutes acceptance of this disclaimer. Please read the following terms carefully:

- The product is guaranteed to be safe under normal use or foreseeable misuse.
- This furniture is designed for indoor household use only. Any improper modification, or use beyond the specified weight capacity (see product manual) shall void this disclaimer, and the manufacturer shall not be liable for any damage or injury arising therefrom.
- Regular wear and tear (e.g., fabric fading, minor hardware loosening) due to normal use is not considered a quality defect.
- The manufacturer shall not be responsible for damages caused by improper transportation, storage, or natural disasters (e.g., fire, earthquake).

Electrical Safety Precautions

- **Do not** use damaged power plugs or loose power sockets.
- **Do not** move the product by pulling the power cord.
- **Do not** forcibly bend the power cord or place it under heavy objects.
- If the power socket is wet, carefully unplug the product's power plug.
- **Do not** touch the power plug with wet hands.
- Unplug the product's power plug before maintenance.
- For electrical products not in use for an extended period, ensure the power supply is disconnected.

 Children should use this product only with adult supervision.

DO NOT CLIMB OR HANG

DO NOT PLAY WITH OR SWALLOW SMALL PARTS

Installation of Anti-Tip Device Kit:

1. For the safety of you and your family, the Anti-Tip Device Kit must be installed.
2. For products with wheels, it is recommended that the Anti-Tip Device Kit be installed.

Weight Capacity:

–**Do not** place items exceeding the maximum weight capacity of the product. (For the product's weight capacity, please refer to the product link.)

Usage Scenarios and Maintenance Methods

- **Do not** place the product in a humid environment.
- Avoid direct exposure to high temperatures and keep it away from heat sources.
- Clean and maintain the product regularly.
- Place it on a flat surface. When moving is required, ensure that at least two people lift it together.
- Check the condition of screws regularly. If any screws are loose or fall off, reinforce them promptly.

Steel–wood products

Preparation before Installation

–Please read the assembly instructions carefully before installation and keep this manual for future reference. Check that all components are complete, including panels, hardware fittings, screws, plastic parts and other small components.

Ensure that **only adults** perform the installation, and keep children away from the installation area.

Instructions for Use

- (1) Install in accordance with the instruction manual or professional guidance to ensure that screws, connectors, and other components are securely fastened. Make sure the support points are evenly in contact with the ground; if not, adjust the adjustable feet to level the product.
- (2) Place items stably. Heavier items should be placed at the bottom (layer) to avoid instability and tipping due to an unbalanced center of gravity.
- (3) Avoid prolonged exposure to direct sunlight or humid environments to prevent aging or mildew.
- (4) **Do not** place heavy objects exceeding the product's load – bearing capacity, so as to avoid deformation and sagging of the wooden boards, which may affect the service life of the product.
- (5) Regularly clean dust and stains on the surface to maintain hygiene.
- (6) Suitable anti – collision corners can be installed to prevent children from being injured by sharp parts. This product is not a children's furniture. When children use this product, they should be accompanied and supervised by adults to ensure safe use. Adults and children are prohibited from climbing on it. It is forbidden to use the product as a support or stand on it for high – altitude operations.

- Steel–wood furniture is prone to moisture and rust, so it should avoid long–term contact with water or exposure to light and humid environments.
- Keep away from corrosive substances and avoid contact with corrosive chemicals such as acids and alkalis to prevent damage to the surface coating.
- High–temperature or frozen items should be placed on the furniture after being padded with heat–resistant mats; heavy or hard items should be placed on the tabletop after being padded with soft decorative tablecloths or felt pads for protection.
- Keep away from high temperatures and fire sources: It should be kept away from high temperatures, open flames or heat sources to prevent fires.
- Pay attention to the load–bearing range of the product and avoid overloading.
- Secondary drilling on metal parts is not recommended, as it will damage the internal structural strength.
- It is recommended to replace the product under the following circumstances: large–area rust or deformation of the base material, loose connection parts after multiple repairs, and significant decline in load–bearing capacity.
- Strictly use anti–tipping components in accordance with the instructions.
- It is strictly forbidden to violently open or close the doors and drawers of the furniture. When in use, appropriate force should be applied to avoid loose connections.

- When moving the furniture, items in the cabinet and drawers should be taken out, and movable parts such as doors and drawers should be fixed to prevent the furniture from tilting and parts from sliding off and causing injury. Do not drag or push hard during moving to avoid loose connectors and broken parts. The product needs to be lifted off the ground by multiple people at the same time, and attention should be paid to safety during moving.

Maintenance Methods

- (1) **Loose connectors:** Check the tightness of the connectors every 3 months. If they are loose, use the matching wrench to adjust and tighten them.
- (2) **Surface cleaning:** Wipe with a soft dry or slightly damp cloth; do not use steel wool, hard objects, rough scouring pads, or acidic cleaners to avoid scratching the surface coating.
- (3) When opening the cabinet doors and drawers of the product, apply appropriate force. It is strictly forbidden to open or close them violently, as this may cause loose connections.
- (4) In suitable weather, regularly open the cabinet doors and drawers, take out the internal items, and ventilate the furniture to remove moisture.
- (5) Place high-temperature or frozen items on the furniture after placing them on heat-resistant mats; place heavy or hard items on the tabletop after covering them with soft decorative tablecloths or felt pads for protection.
- (6) **Rust prevention:** Regularly apply anti-rust oil or wax, especially in humid environments.

(7) **Coating protection:** For metal parts with coatings, avoid using strong acid or strong alkali cleaners to prevent the coating from peeling off.

(8) **Lubricating connectors:** Regularly lubricate moving parts (such as hinges and slide rails) to maintain flexibility.

(9) **Products with wheels:** Regularly remove entangled hairs and fibers.

EXPLODED DRAWING:

Please check all parts and accessories according to the parts list before assembling, make sure all contents are sufficient and in good condition.

If there is any parts missing or defective, please contact us immediately with purchase platform message to get replacement parts.

PARTS:

HOW TO INSTALL

STEP 1

x2

STEP 2

BACK
FRONT

NOTICE:

(1) Please ensure that the hole of part 5 is facing backwards.

(2) Please ensure that a specific part of part 6 is facing inwards.

STEP 3

STEP 4

STEP 5

STEP 6

NOTICE:

Please lock the part **(C)** first for easier installation.

STEP 7

There's a corresponding L and R mark on each part located in a specified spot designed to distinguish them from each other easily.

STEP 8

NOTICE

For the safety of you and your family, the **Anti-Tip Device Kit** must be installed.

NOTICE:

Electric drill and hammer are not included in our parts, please prepare them by yourself.

Place the rack against the wall, locate and mark out two holes.

WALL

WALL

2

WALL

3

WALL

4

NOTICE:

Please use a hammer to strike part **M** to make it more stable.

STEP 9

STEP 10

Light strip

Preparation before Installation

Before installation, please carefully read the instructions for this type. Check whether the light strip, power adapter, controller (if any), and connecting wires are in good condition, without extrusion, cuts, or exposed wires.

Confirm that the output voltage (V), current (A), or power (W) of the power adapter fully matches the rated input parameters of the light strip. **Strictly prohibit use with overvoltage or overpower!**

Confirm that the type of the controller (RF remote control, WiFi, Bluetooth, DMX, etc.) is consistent with your needs and compatible with the light strip (in terms of voltage and signal protocol).

Instructions for Use

(1) Operate the on/off function, dimming, color adjustment, and mode switching according to the controller's instructions. Avoid prolonged full – power operation in extremely high – temperature environments (such as direct sunlight without heat – dissipation measures) or enclosed, poorly ventilated spaces.

(2) Unless necessary, **Do not** frequently turn the power on and off. Avoid pulling, squeezing, or folding the light strip, as this may cause circuit breaks and render the light source inoperable.

Notes

- **Stay away from all water sources:** Use the light strip away from water sources or humid environments.
- **Strictly prohibit live – line operation:** All installation, cutting, connection, and maintenance must be carried out when the power is off.
- **Power adapter:** Be sure to use the original or high – quality power adapter with strictly matching parameters.

- **Pay attention to temperature:** It is normal for the light strip to feel slightly warm when working. But if it feels scalding hot ($> 50^{\circ}\text{C}$), it indicates poor heat dissipation or overload. You must immediately cut off the power and check (installation environment, power matching, whether there is a local short circuit).
- **Professional installation:** For complex installations (such as long – distance, high – power, special environments) or if you lack electrical knowledge, it is recommended to seek the help of a professional electrician.
- **Child safety:** Keep children away from this component; Prevent children from biting, swallowing, or wrapping it around their bodies.

Maintenance Methods

(1) **Cleaning Method:** Before cleaning, be sure to disconnect the power supply and wait for the light strip to cool down. Use a dry or slightly damp soft cloth to gently wipe dust and stains on the surface of the light strip. The surface of the encapsulated glue is relatively easy to clean. It is strictly forbidden to use corrosive chemical cleaning agents (such as strong acids, strong alkalis, alcohol, gasoline, thinner, etc.), abrasives, steel wire balls and other hard objects for wiping, so as not to damage the surface finish, transparency of the encapsulated glue layer or cause aging and cracking. **Do not** soak the light strip in water for cleaning!

(2) **Inspection and Maintenance:** Regular inspection (recommended quarterly or semi – annually): Check whether the light strip has physical damage (such as cuts, indentations, colloid cracking, degumming). Check whether all connection points (joints, solder joints, power interfaces) are firm, free of rust, and free of water ingress marks. Check whether the waterproof measures (end caps, connector seals, sealant) are in good condition and not aged and ineffective. Check whether the fixing devices (back glue, buckles, cable ties) are loose or fallen off.

AFTERSALE SERVICE

Dear customer,

Thank you so much for purchasing the product from us, we really appreciate your support.

We are aimed to provide the best shopping experience to our customers. We also want to build a mutually beneficial relationship with our customers, and step further to make our brand both reliable, responsible and recommendable.

We hope that our products could meet your needs and expectations, please consider us again if you need more products for your home and kitchen.

The package would be out of our control during shipping, please contact us through your purchasing channel directly if there is anything wrong with the box or contents. We are always here offering you our service.

We will reply your messages as soon as possible, please kindly wait for the response from our team.

Your comfort and contentment are of utmost importance.

Best Regards,
Customer Care Specialist
