
Assembly Guide

SC013 Sideboard

Tips: Do not throw away packing materials until assembly is complete for small parts may come loose inside the carton during shipment. If parts are missing, please contact us. Assemble this item on a soft surface, such as carpet to protect the finish.

Before You Start

Read through each step carefully and follow the proper order

Separate and count all your parts and hardware

Give yourself enough room for the assembly process

Have the following tools: Flat Head Screwdriver, #2 Phillips Head Screwdriver and Hammer

Caution: If using a power drill or power screwdriver for screwing, please be aware of to slow down and stop when screw is tight. Failure to do so may result in stripping the screw. Assembly speed can be increased by using electric screwdriver

Helpful Hints

PEOPLE NEEDED FOR ASSEMBLY: 1-2

- Open your item in the area you plan to keep it to avoid excessive heavy lifting.
- Identify, sort and count the parts before attempting assembly.
- Compression dowels are lightly tapped in with a hammer.
- Slides are labeled with an R (right) and L (left) for proper placement.
- Make sure to always face the point on the top of the Cam Lock towards the outer edge.
- If there is a back panel in the package, please install it to make sure your unit is complete and sturdy.
- Please fix all the screws provided for the back panel which can enhance product stability. If it is difficult to fix it when tightening, it can be fixed with the help of a hammer and then tightened.
- Do NOT use harsh chemicals or abrasive cleaners on this item.
- Never push, pull, or drag your furniture.

This narrow one need to be pulled out from the wide one. It is installed on the side panel of drawers.

right

This narrow one need to be pulled out from the wide one. It is installed on the side panel of drawers.

1. One set of guide rail should be four parts.
 2. Two wide guide rails are installed on the side panel of the cabinet.
 3. Two narrow guide rails are installed on the side panel of drawers.
- Attention:
- Take care when installing the slide rails as they have been pre-lubricated

Step 1

Step 2

Step 3

Step 4

Make sure these two holes face outward;
otherwise, it will prevent the other holes from
aligning properly.

Step 35

Move the sliders to the front end of rail before sliding the drawer into place.

The drawer will initially have resistance when it is first inserted. It will become smooth and easy to use after being used several times.

Step 36

Note: Before installing the door hinges, please carefully read the installation precautions on P43 first, and then go on with the installation.

Hinge Adjustment Diagram

Step 38

Drawer panel adjustment:
Loosen the screws slightly,
adjust the position properly,
and then tighten them again.

How to adjust the drawer panel

Each extraction surface has an adjustable gap of 0.08”.

Loosen the screws and raise the drawer surface upwards.

How to adjust the drawer panel

Each extraction surface has an adjustable gap of 0.08”.

Loosen the screws and lower the drawer surface.

How to adjust the drawer panel

Each extraction surface has an adjustable gap of 0.08”.

Loosen the screws and move the drawer face to the left.

How to adjust the drawer panel

Each extraction surface has an adjustable gap of 0.08”.

Loosen the screws and move the drawer face to the right.

Step 39

Step 40

ANTI-TIP RESTRAINT INSTALLATION

Serious or fatal crushing injuries can occur from furniture tip-over. To help prevent tip-over:

1. Install tip-over restraint provided.
 2. Do not set heavy objects on top of this product, unless the product is specifically designed to accommodate them.
 3. Never allow children to climb or hang on mirrors, shelves, consoles, or cabinets with doors and/or drawers.
- Use of tip-over restraints may only reduce but not eliminate, the risk of tip-over.

! WARNING!

REQUIRED TOOL

NO.	Hardware	QTY
①		4
②		4
③		4
④		4
⑤		2

Hardware (③/④) to attach brackets to wall is designed for drywall. To attach this unit to another type of wall, consult with your local hardware store.

Note: Please be careful during the installation of the anti-tip kit. We would not be responsible for the damage to the item(s) caused by any improper installation.

Step 1. Mark on the wall where the bracket ① should be placed, then drill holes and insert the plugs ③ into the drilled holes. Install the bracket ① to the wall with screws ④.

Step 2. Repeat to install another bracket ① to the product.

Step 3. Insert the strap ⑤ through the two brackets ①, then connect and pull the strap ⑤ down until it snap-locked.

Step 4. Check the safety and begin to use.
