Step 3

Product Maintenance

Solid Wood Base: To ensure the service life of the solid wood base, please use a soft cloth to wipe and keep it dry. Please avoid placing the solid wood base in a humid or direct sunlight place for a long time. Avoid sharp objects from scratching the base and avoid contact with corrosive liquids. You can use wood wax oil to wipe and maintain the base.

Slate Tabletop: Although slate is heat-resistant, try to avoid direct contact of hot objects with the tabletop. If you need to place high-temper ature items, please use a heat-insulating pad. Avoid scratches from sharp objects, wipe and clean with a soft cloth, and avoid using chemicals containing acidic or alkaline components. If you need to encounter oil stains, please deal with them in time to prevent oil stains from seeping into the interior of the table board.
