

Cassia

FREESTANDING ELECTRIC STOVE

RTOFSTV20

The Cassia combines the classic feeling of a wood burning stove with modern electric functionality. With opening doors, a choice of log effect or coal fuel bed, and fantastic Optiflame visuals, it's a striking focal point for any space. Freestanding to ensure minimal installation and manoeuvrability within any room.

This fire can operate via a remote control and can even be used independently of the fully concealed 2kW heater, meaning you can enjoy the classic feel of the fire all year round.

The thermostatic controls mean you can set your fire to produce heat when the room drops to a certain temperature, helping to maintain comfort in your home. The cast iron style is a traditional classic, fitting in with any interior.
