

Instruction Manual

HUXG-50HUT

ENGLISH

General Guidelines

1. Please read the following instruction carefully and use the product accordingly.
2. Please keep this manual and hand it over when you transfer the product.
3. This summary may not include every detail of all variations and considered steps.
Please contact us when further information and help are needed.

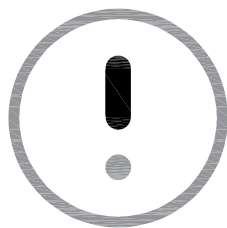

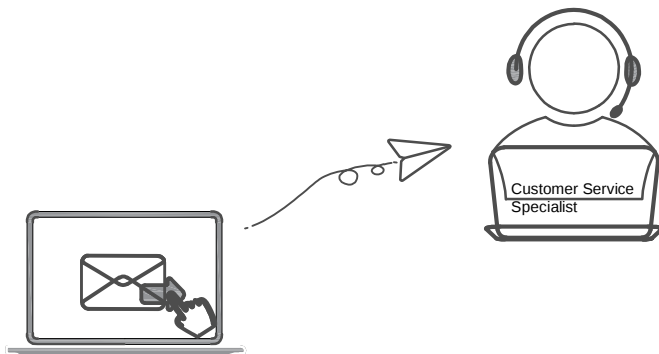

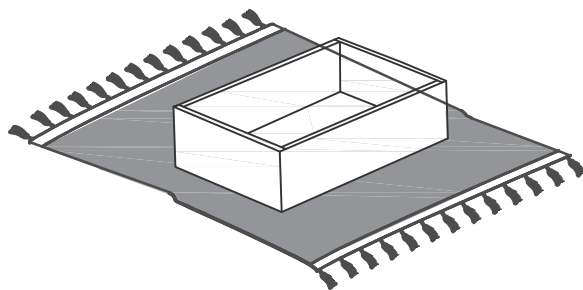

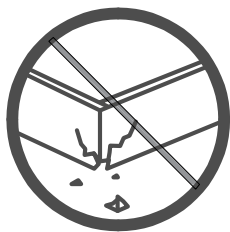

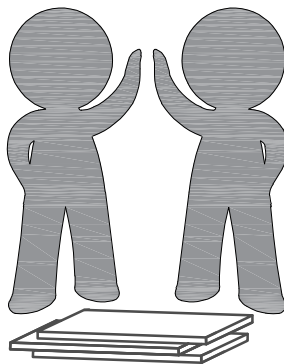

Warnings

1. Children are not allowed to assemble the product. During assembly, keep small parts out of the reach of children as they may be fatal if swallowed or inhaled.
2. Children are not allowed to climb or stand on the product to avoid personal injury caused by the toppling.
3. Keep plastic packing bags out of reach of children to avoid any potential danger, such as suffocation.
4. Avoid sharp objects and corrosive chemicals to prevent damage to the product or the user.
5. Please do not use the product if there is/are defective and/or missing part/s, as this can result in damage or injury.

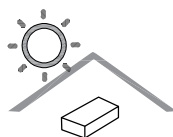

Notes

1. The item is only intended to be used indoors. Personal injury and/or damage to the product may occur if products are used outside of their intended purposes and/or if products have been changed/modified from their original design. The product must be assembled and used in accordance with the provisions of the manual. The seller does not assume any responsibility or liability with respect to any damage caused by incorrect assembly or improper use.
2. Do not place it in a damp environment for extended periods of time to prevent mildew.
3. During assembly, first loosely align all screws with the corresponding pre-drilled holes and then tighten the screws one by one.
4. Periodically inspect screw tightness while the product is in use. If necessary, re-tighten to ensure structural integrity.

ATTENTION

KEEP DRY

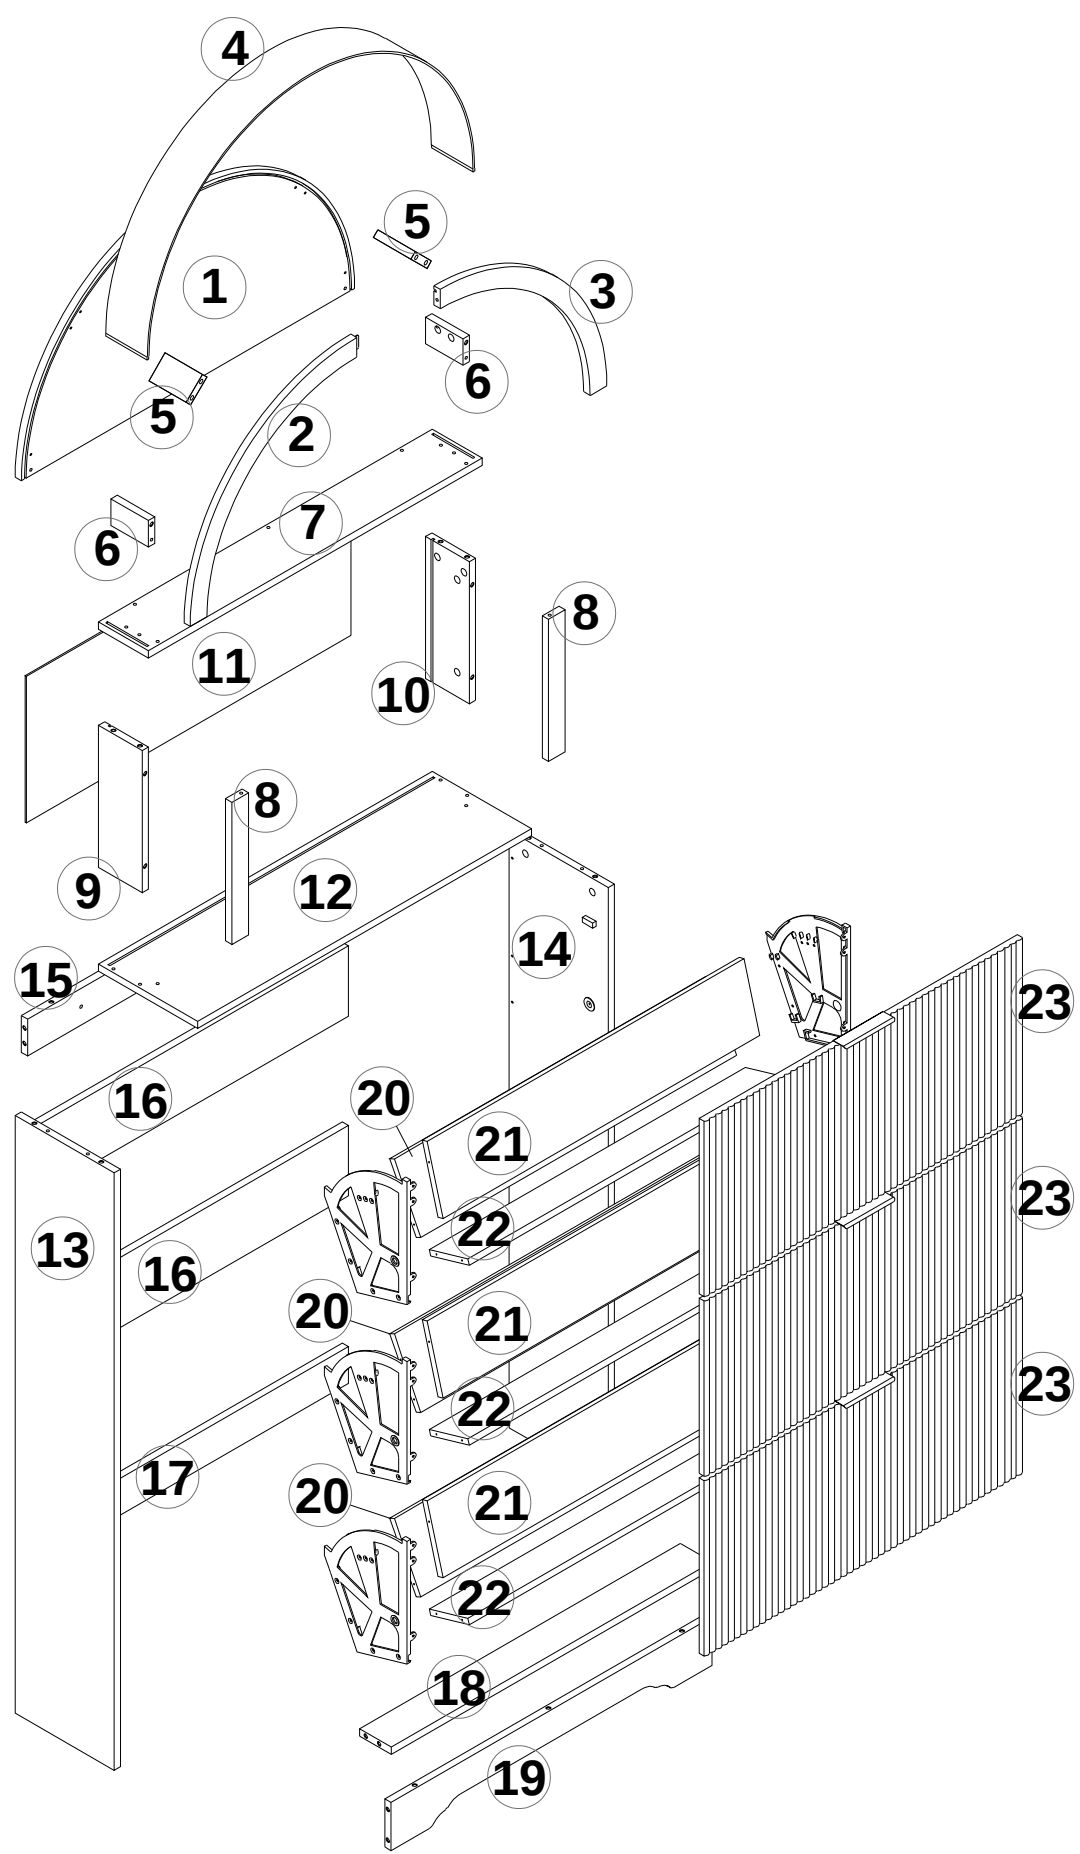

NO SUN EXPOSURE

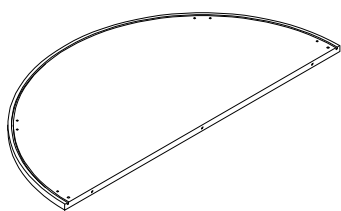

SOFT DRY CLOTH

Assembly Steps

#Installation Instructions for Two-in-One Connectors

Precautions

1. When installing the two-in-one screw, align the screw with the matching hole on the connecting plate, and insert the positioning pin into the dedicated positioning hole beside the two-in-one threaded hole.
2. The two-in-one screw shown in the figure is in the standard installed position. Misalignment during installation will prevent the connecting plate from being tightened and secured properly.
3. Tighten the two-in-one screw by turning it clockwise until the screw head fits flush against the connecting plate and is fully seated.
4. Hammering is strictly prohibited during installation. Improper operation will result in assembly failure.

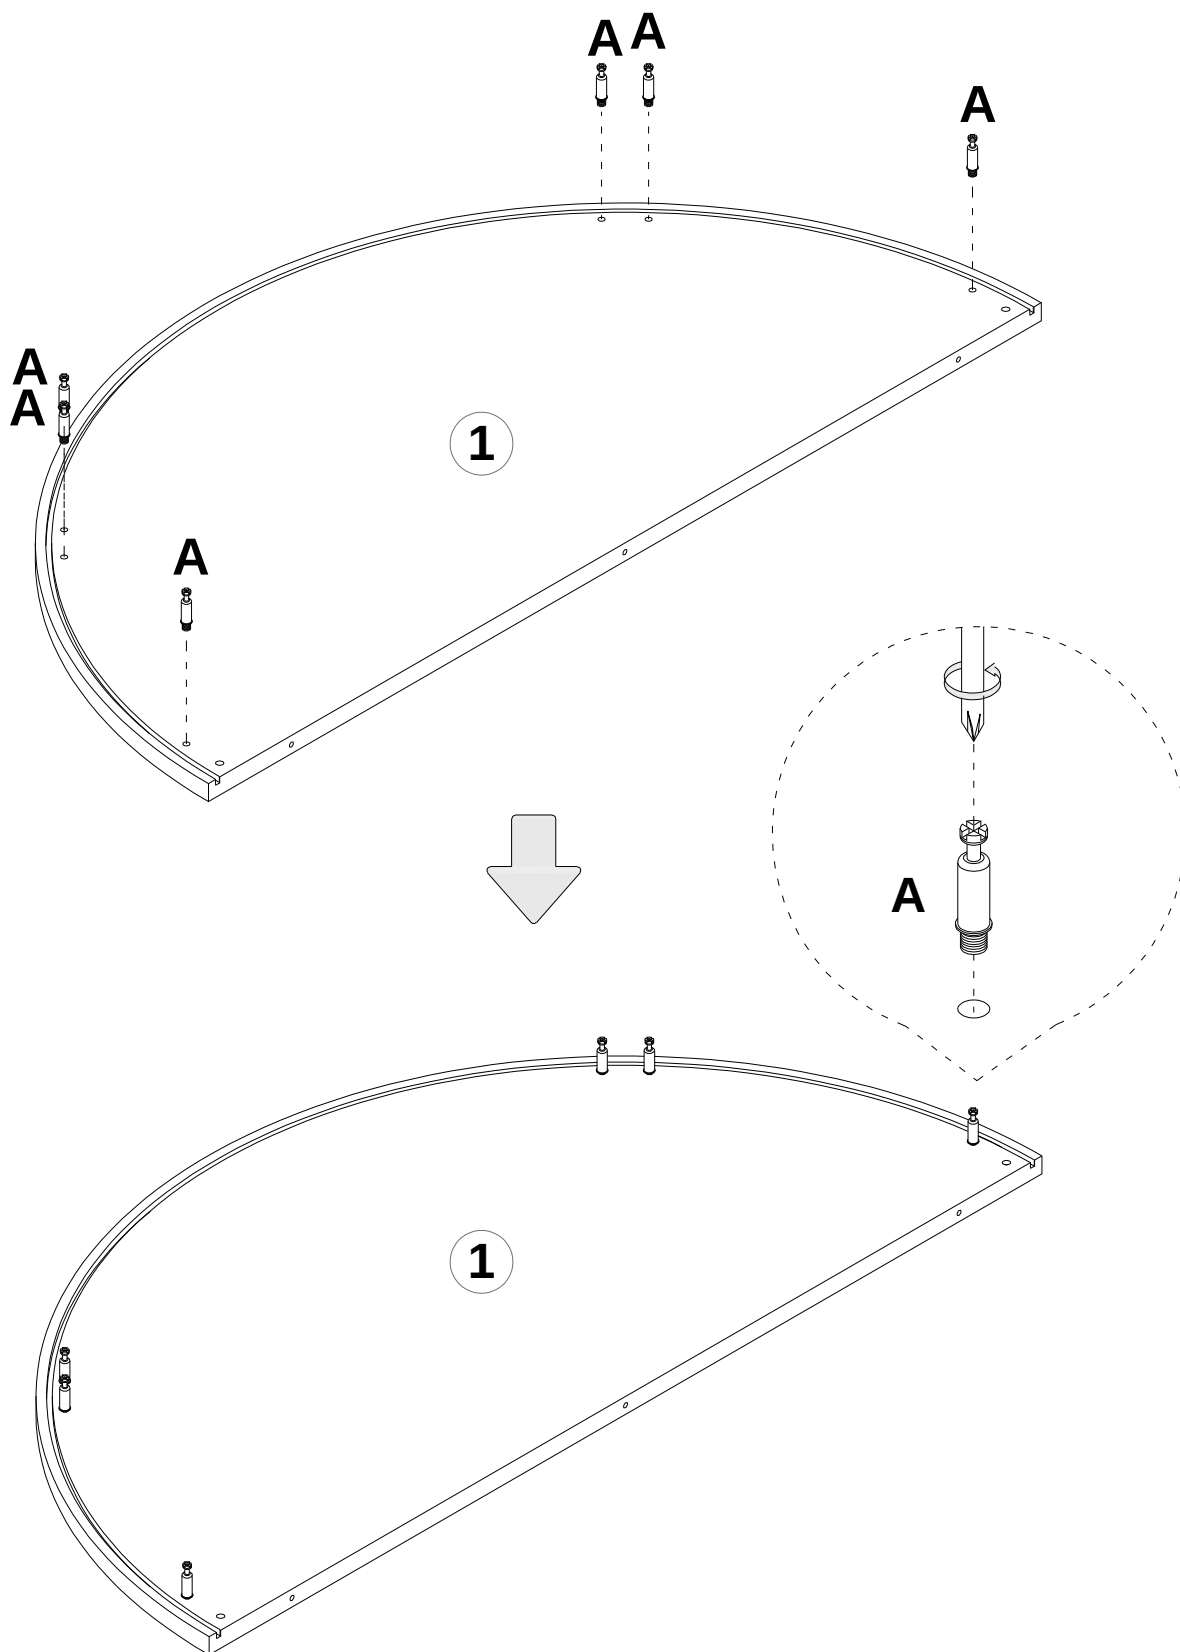

Installation Instructions for Eccentric Cam Connectors

Precautions

1. When fitting the eccentric cam, ensure the opening side of the cam faces the entry direction of the eccentric screw. Insert the wooden dowel into the matching hole next to the eccentric cam and threaded hole.
2. The eccentric cam shown in the diagram is reversely installed with misaligned dowel hole, which will stop the eccentric screw from engaging properly.
3. Tighten the eccentric cam by rotating it clockwise until the arrow mark on the cam points away from the connected panel.
4. Do not use an electric screwdriver to fasten the eccentric cam, and avoid over-tightening.

Assembly Steps

STEP 17

P ×2

R ×2

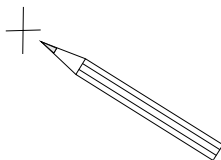

S ×2

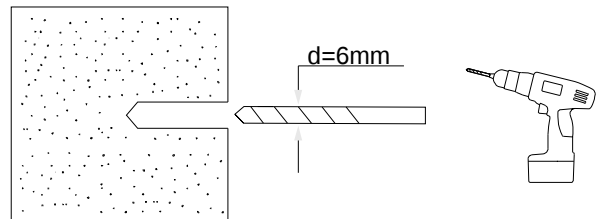

U ×2

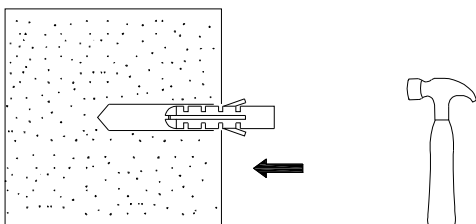

1. Measure and locate positions with measuring tools, then make marks.

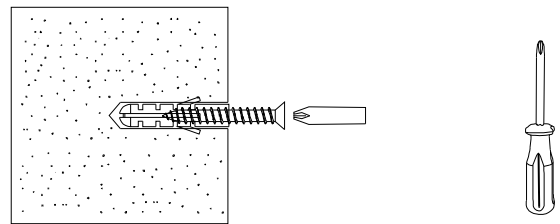

2. Drill Ø6mm round holes at the marked positions using an electric drill or similar power tool.

3. Drive the expansion tube into the round hole with a hammer.

4. Install with a Phillips screwdriver or power tool until fully locked.
