General Guidelines

Please read the following instructions carefully and use the product accordingly.

Please keep this manual and hand it over when you transfer the product.

This summary may not include every detail of all variations and considered steps. Please contact us when further information and help are needed.

Notes

The product must be assembled and used in accordance with the provisions of the manual.

The seller does not assume any responsibility or liability with respect to any injury/damage caused by incorrect assembly or improper use.

If there are any defective or missing parts after unpacking, please cease assembly immediately and contact us.

Please assemble the item on a spacious surface and do not place the unwrapped product directly on the ground to avoid product damage. ☒

Please wear gloves during the assembly and/or disassembly process to avoid scratches from any sharp edges.

Please match the corresponding part and fitting based on the part number in the manual.

If the part does not match with the fitting, please check the piece as specified in this manual.

During assembly, first loosely align all screws with the corresponding pre-drilled holes and then tighten the screws one by one. ☒

Periodically inspect screw tightness while the product is in use. If necessary, retighten to ensure structural integrity.

Please keep the product away from sharp, pointed objects and corrosive substances to prevent product damage.

Please place this item on level, solid ground during use.

Warnings

During assembly, keep all small parts out of the reach of children. It may be fatal if swallowed or inhaled.

Children should not climb or play on the product in order to avoid tipping over the furniture and causing serious injury.

To avoid the potential dangers of suffocation, please keep all parts and packaging (film, plastic bags, foam, etc.) away from babies and children. ☒

Keep sharp objects and corrosive items away from the product to avoid any damage or injury.

Do not shake or move violently during use to avoid tipping over the product.
