

CAT TREE

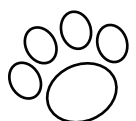

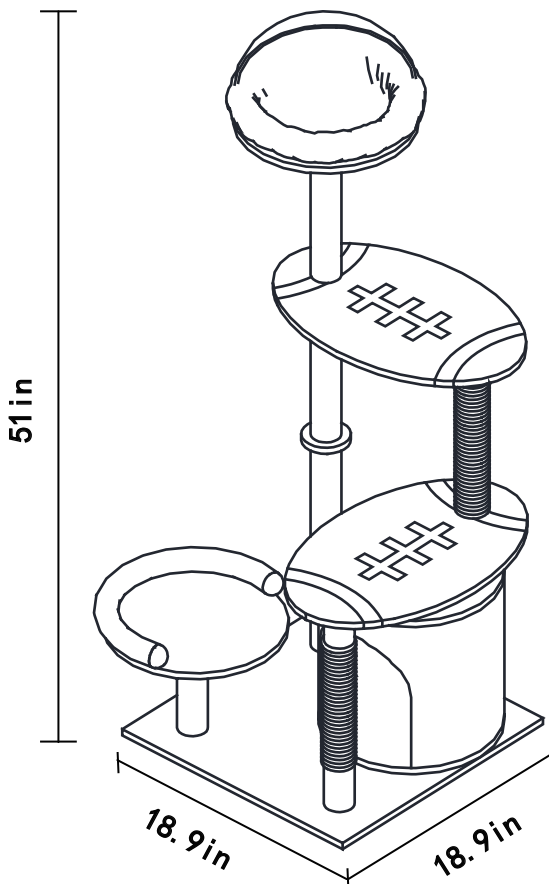

INSTRUCTION MANUAL

CAT CLIMBING TREE USER GUIDE :

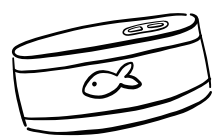

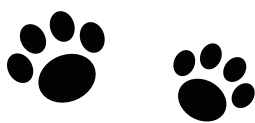

- Put the cat climbing tree in a suitable place, which can be the living room, bedroom or balcony, etc.
- Guide the cat close to the cat climbing tree and allow it to explore and use freely.
- If the cat is unfamiliar or unwilling to climb, inducers such as catnip, cat toys, or cat treats can be used to help encourage the cat to climb the tree.
- If the cat climbs the tree, praise it and give rewards to increase the cat's interest and enthusiasm for climbing the tree.
- Regularly clean the cat climbing tree, especially the hair and dust on the platform and accessories, to keep it clean and hygienic.

PERFECT SIZE FOR CAT

SAFETY PRECAUTIONS AND WARNINGS

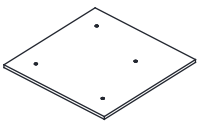

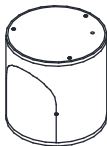

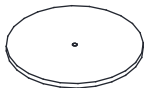

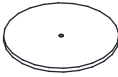

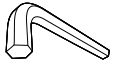

- **Regular Inspections:** Regularly inspect the structure and connecting parts of your cat tree to make sure there are no loose or damaged parts. If any problem is found, please repair or replace it in time.
- **Safe Perimeter:** When choosing a location for a cat tree, consider a safe perimeter around it to prevent your cat from falling or getting injured. Avoid placing cat trees on cliff edges or in areas with dangerous objects.
- **Supervision:** When cats are using the cat tree, please maintain supervision, especially when using it for the first time or when there are new adjustments or additions to the cat tree. Make sure your cat doesn't get stuck or get stuck in an unsafe position.
- **Do not swallow foreign objects:** Make sure the cat tree is free of small parts, threads or other debris that could be swallowed by cats. Avoid fragile or toxic materials.
- **Appropriate Weight Limits:** Please follow the weight limit guidelines for cat trees, and do not allow overweight cats or multiple cats to use the cat tree at the same time, so as not to damage the structure or cause accidents.

ASSEMBLY STEPS :

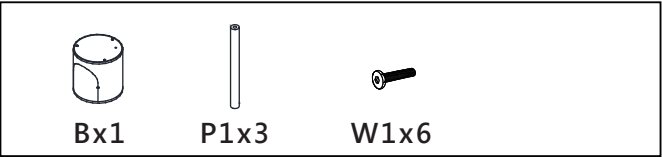

- Unpack the cat climbing tree and make sure all parts are complete. (The accessories of the product are all as shown in the picture above)
- Lay the base flat on the assembly site, making sure there is enough room for the entire cat climbing tree.
- Using a screwdriver or other tool, attach the post to the base mount. Note that the post may need to be screwed or otherwise secured to the base for stability.
- Mount the platform or other accessories on the posts following the design of the cat climbing tree. Make sure all parts are installed tightly to ensure the stability of the cat climbing the tree.
- Check all parts to make sure they are installed correctly and nothing is loose or skewed. Retighten the screws or adjust the connection if necessary.

Note: All cat scratching posts have been marked with serial numbers. Please correspond one to one with the marked serial numbers, and sort and install the cat scratching posts according to the serial numbers as shown in the picture.

MAINTENANCE

- **Cleaning:** Clean your cat tree regularly to keep it clean and hygienic. Use a mild detergent and a soft cloth or brush to clean the surface, avoiding cleaners that contain harmful chemicals. Make sure it is thoroughly cleaned and thoroughly dried to prevent bacterial growth or damage to the wood.
- **Hair Management:** Cat hair can build up on cat trees and should be removed regularly. Carefully brush your cat's coat with a soft brush or comb, and brush hair off the tree to keep it tidy.
- **Storage and Protection:** When the cat tree is not in use, store it in a dry, safe place away from direct sunlight and moisture. Avoid exposure to harsh weather conditions to prolong the life of your cat tree.
