

Installation Instructions

Parts Description

A

Desktop

B

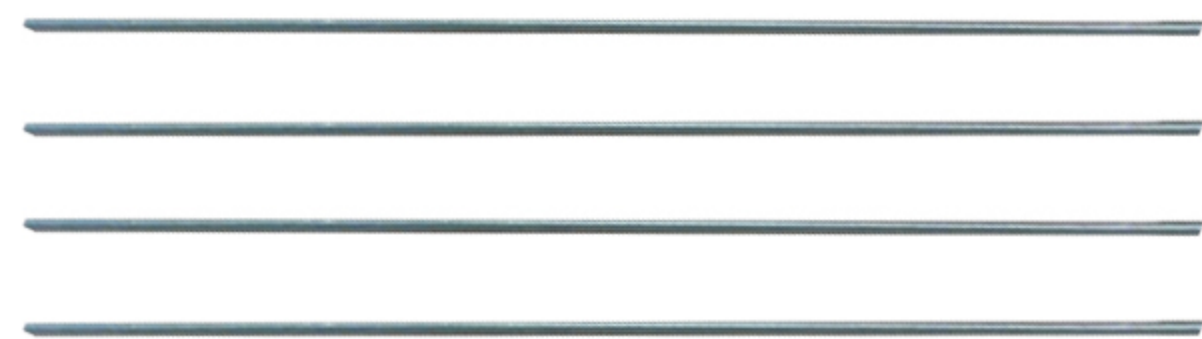

Table Legs

C

L-Shaped Table Legs

D

Connecting Bar

E

Nuts×4 / Washers×4 / Screws×4

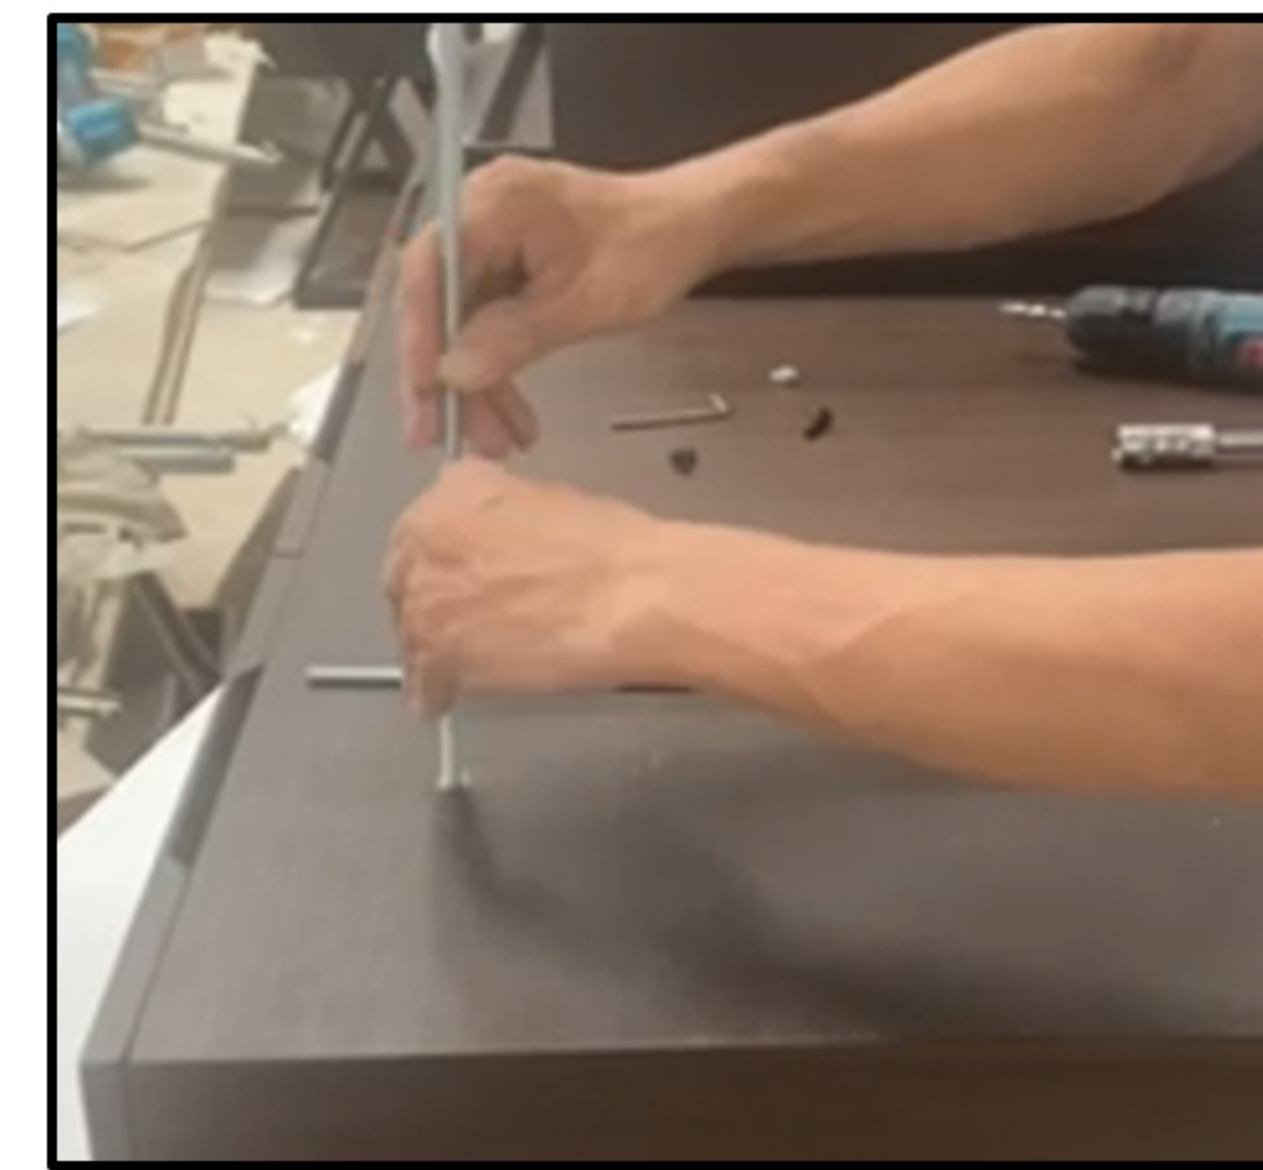

F

Socket
(Required Tools Not Included)

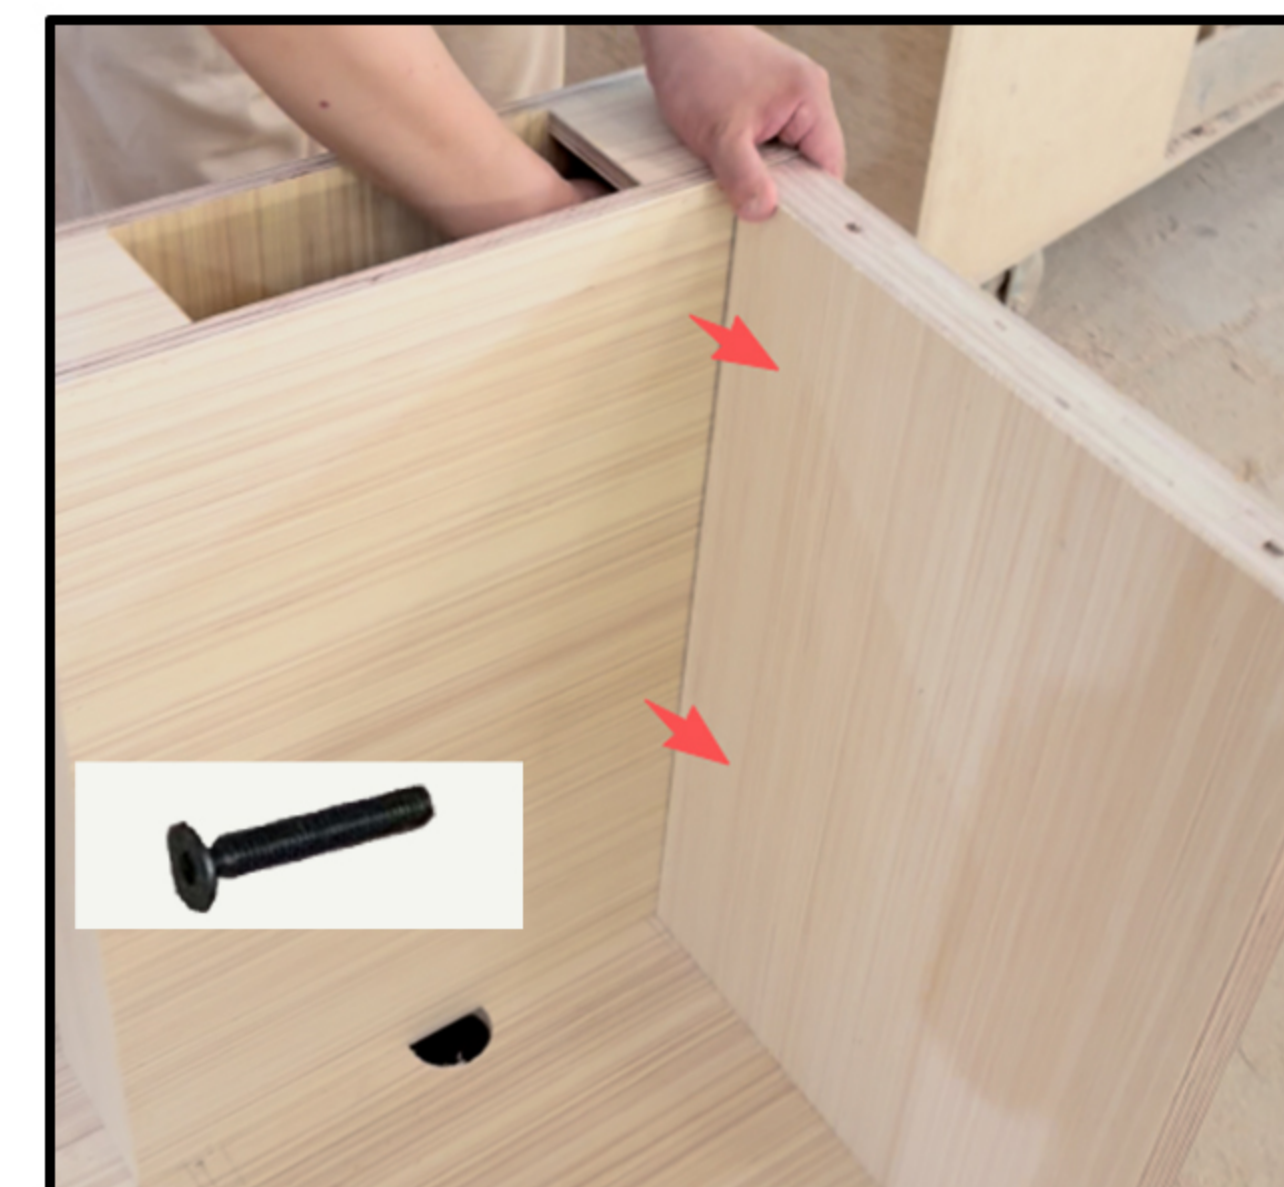

Install the connecting rods

1. Flip the tabletop upside down.
2. Place the connecting rods at the corresponding positions and tighten them.

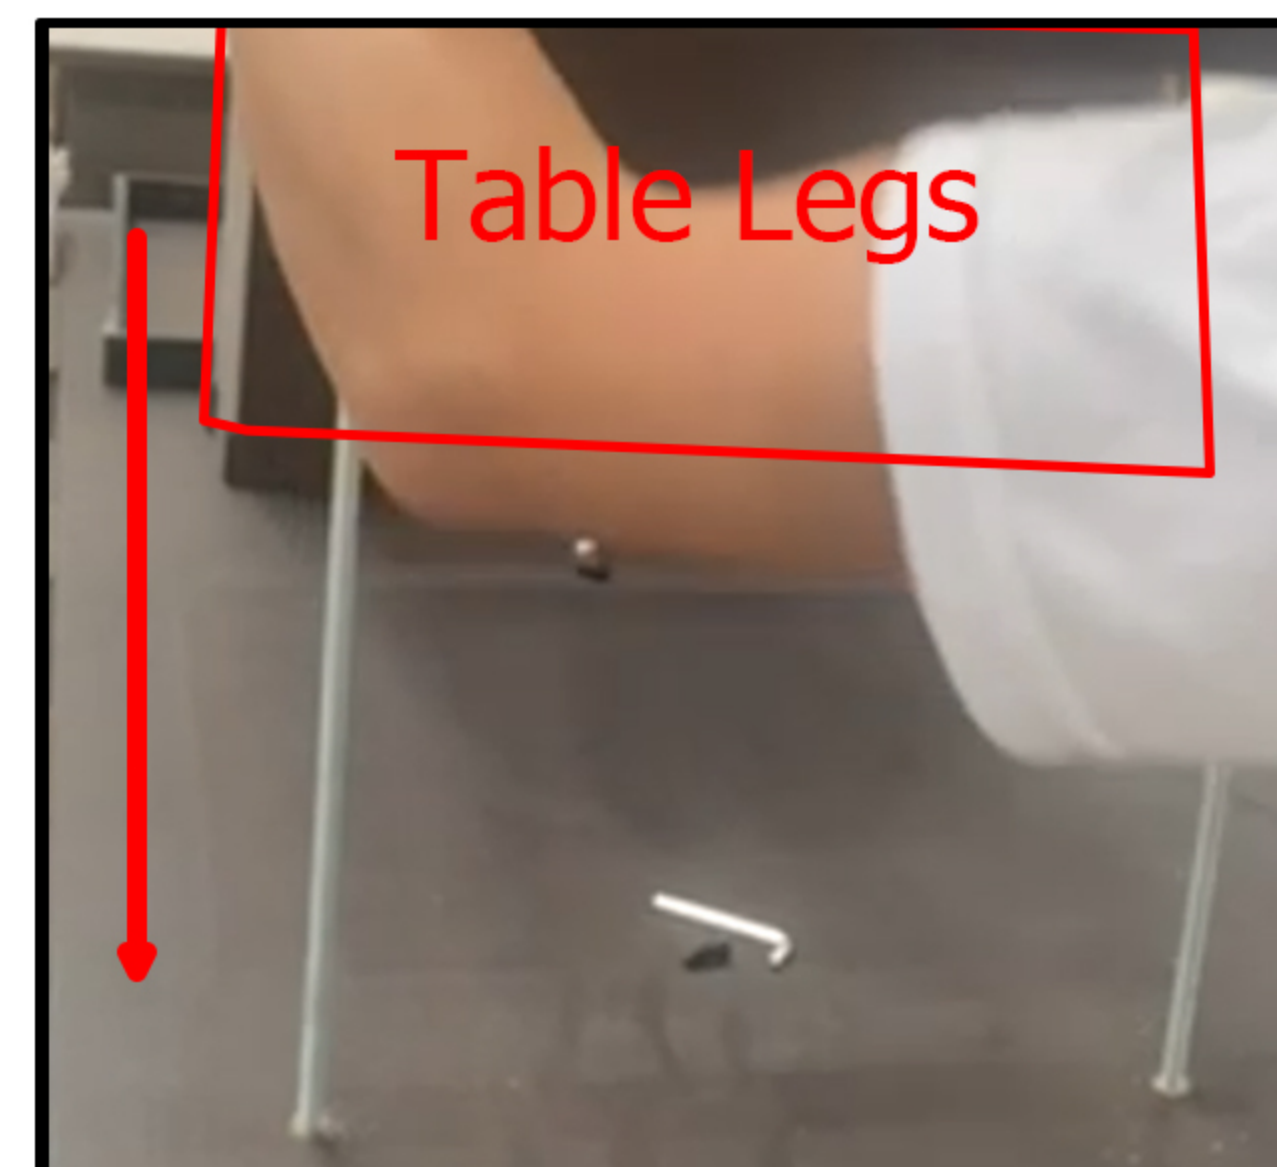

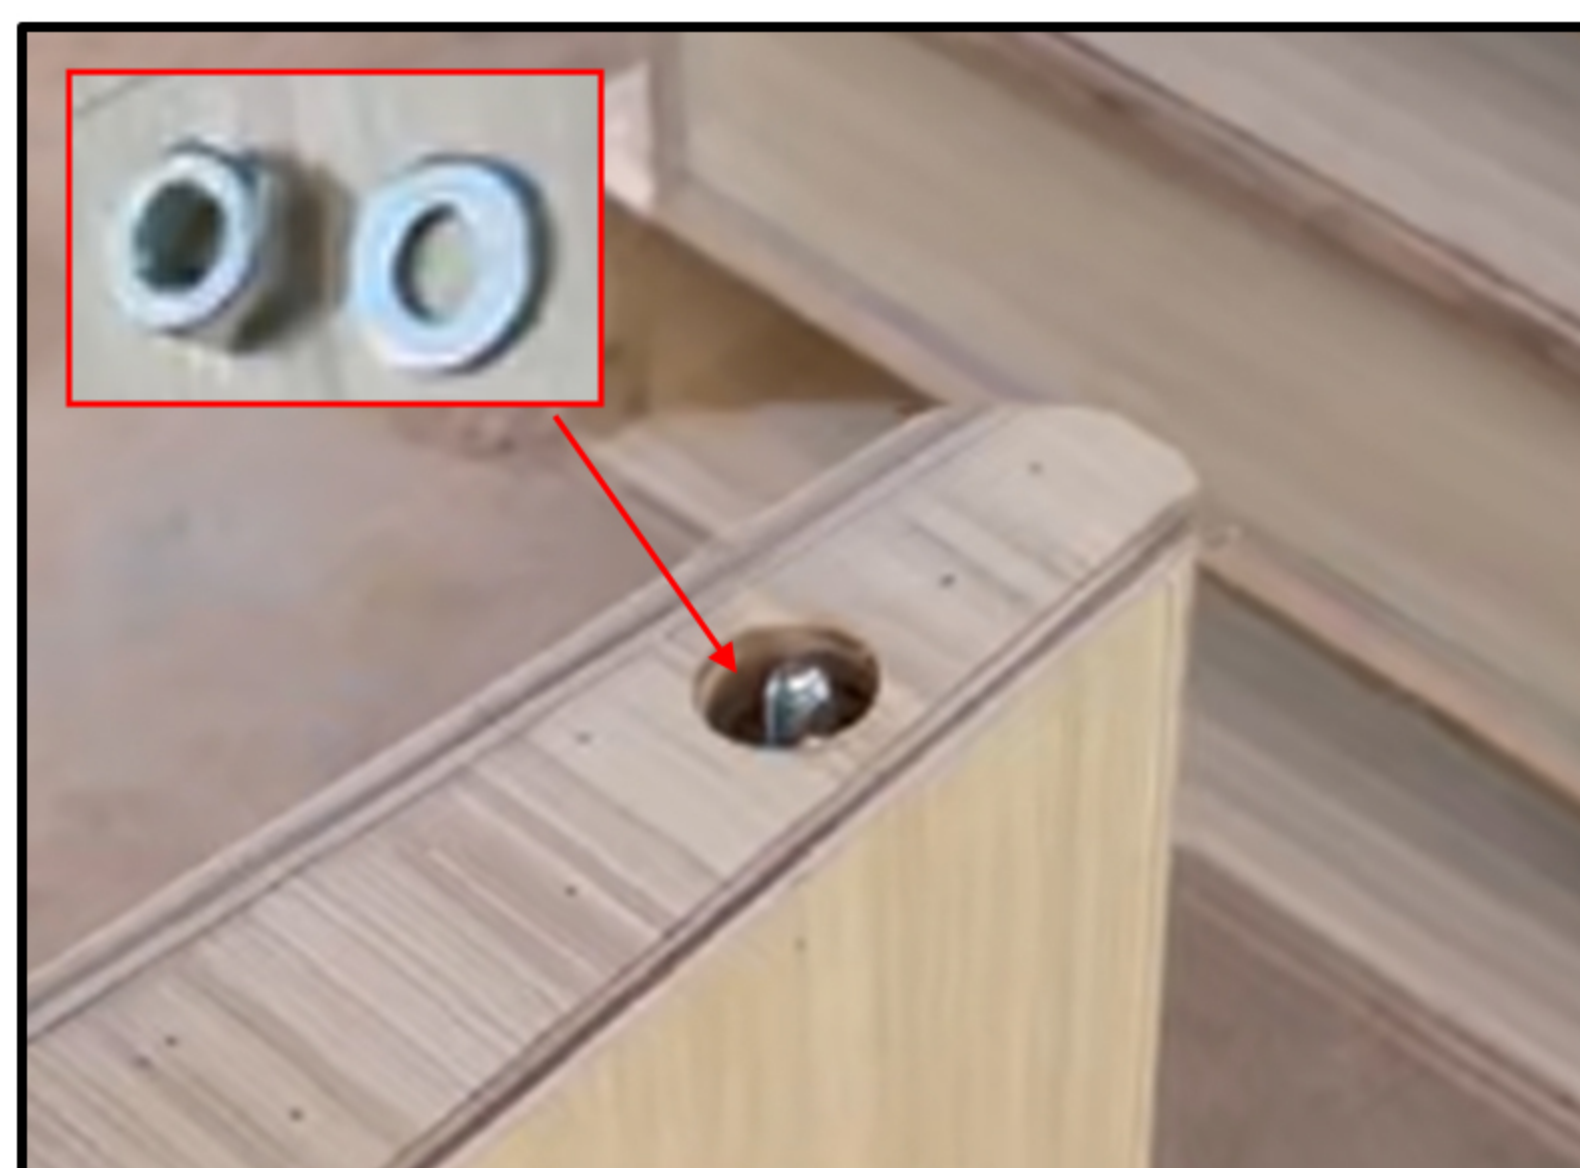

Assemble the L-shaped table legs

1. Install and secure the small table leg using the Connecting Bar.
2. Place the large table leg in the correct position, then insert screws into the pre-drilled holes inside the square holes to connect and secure the two table legs.
3. Secure the large table leg to the tabletop by aligning the pre-drilled screw holes on both parts and fastening with screws.

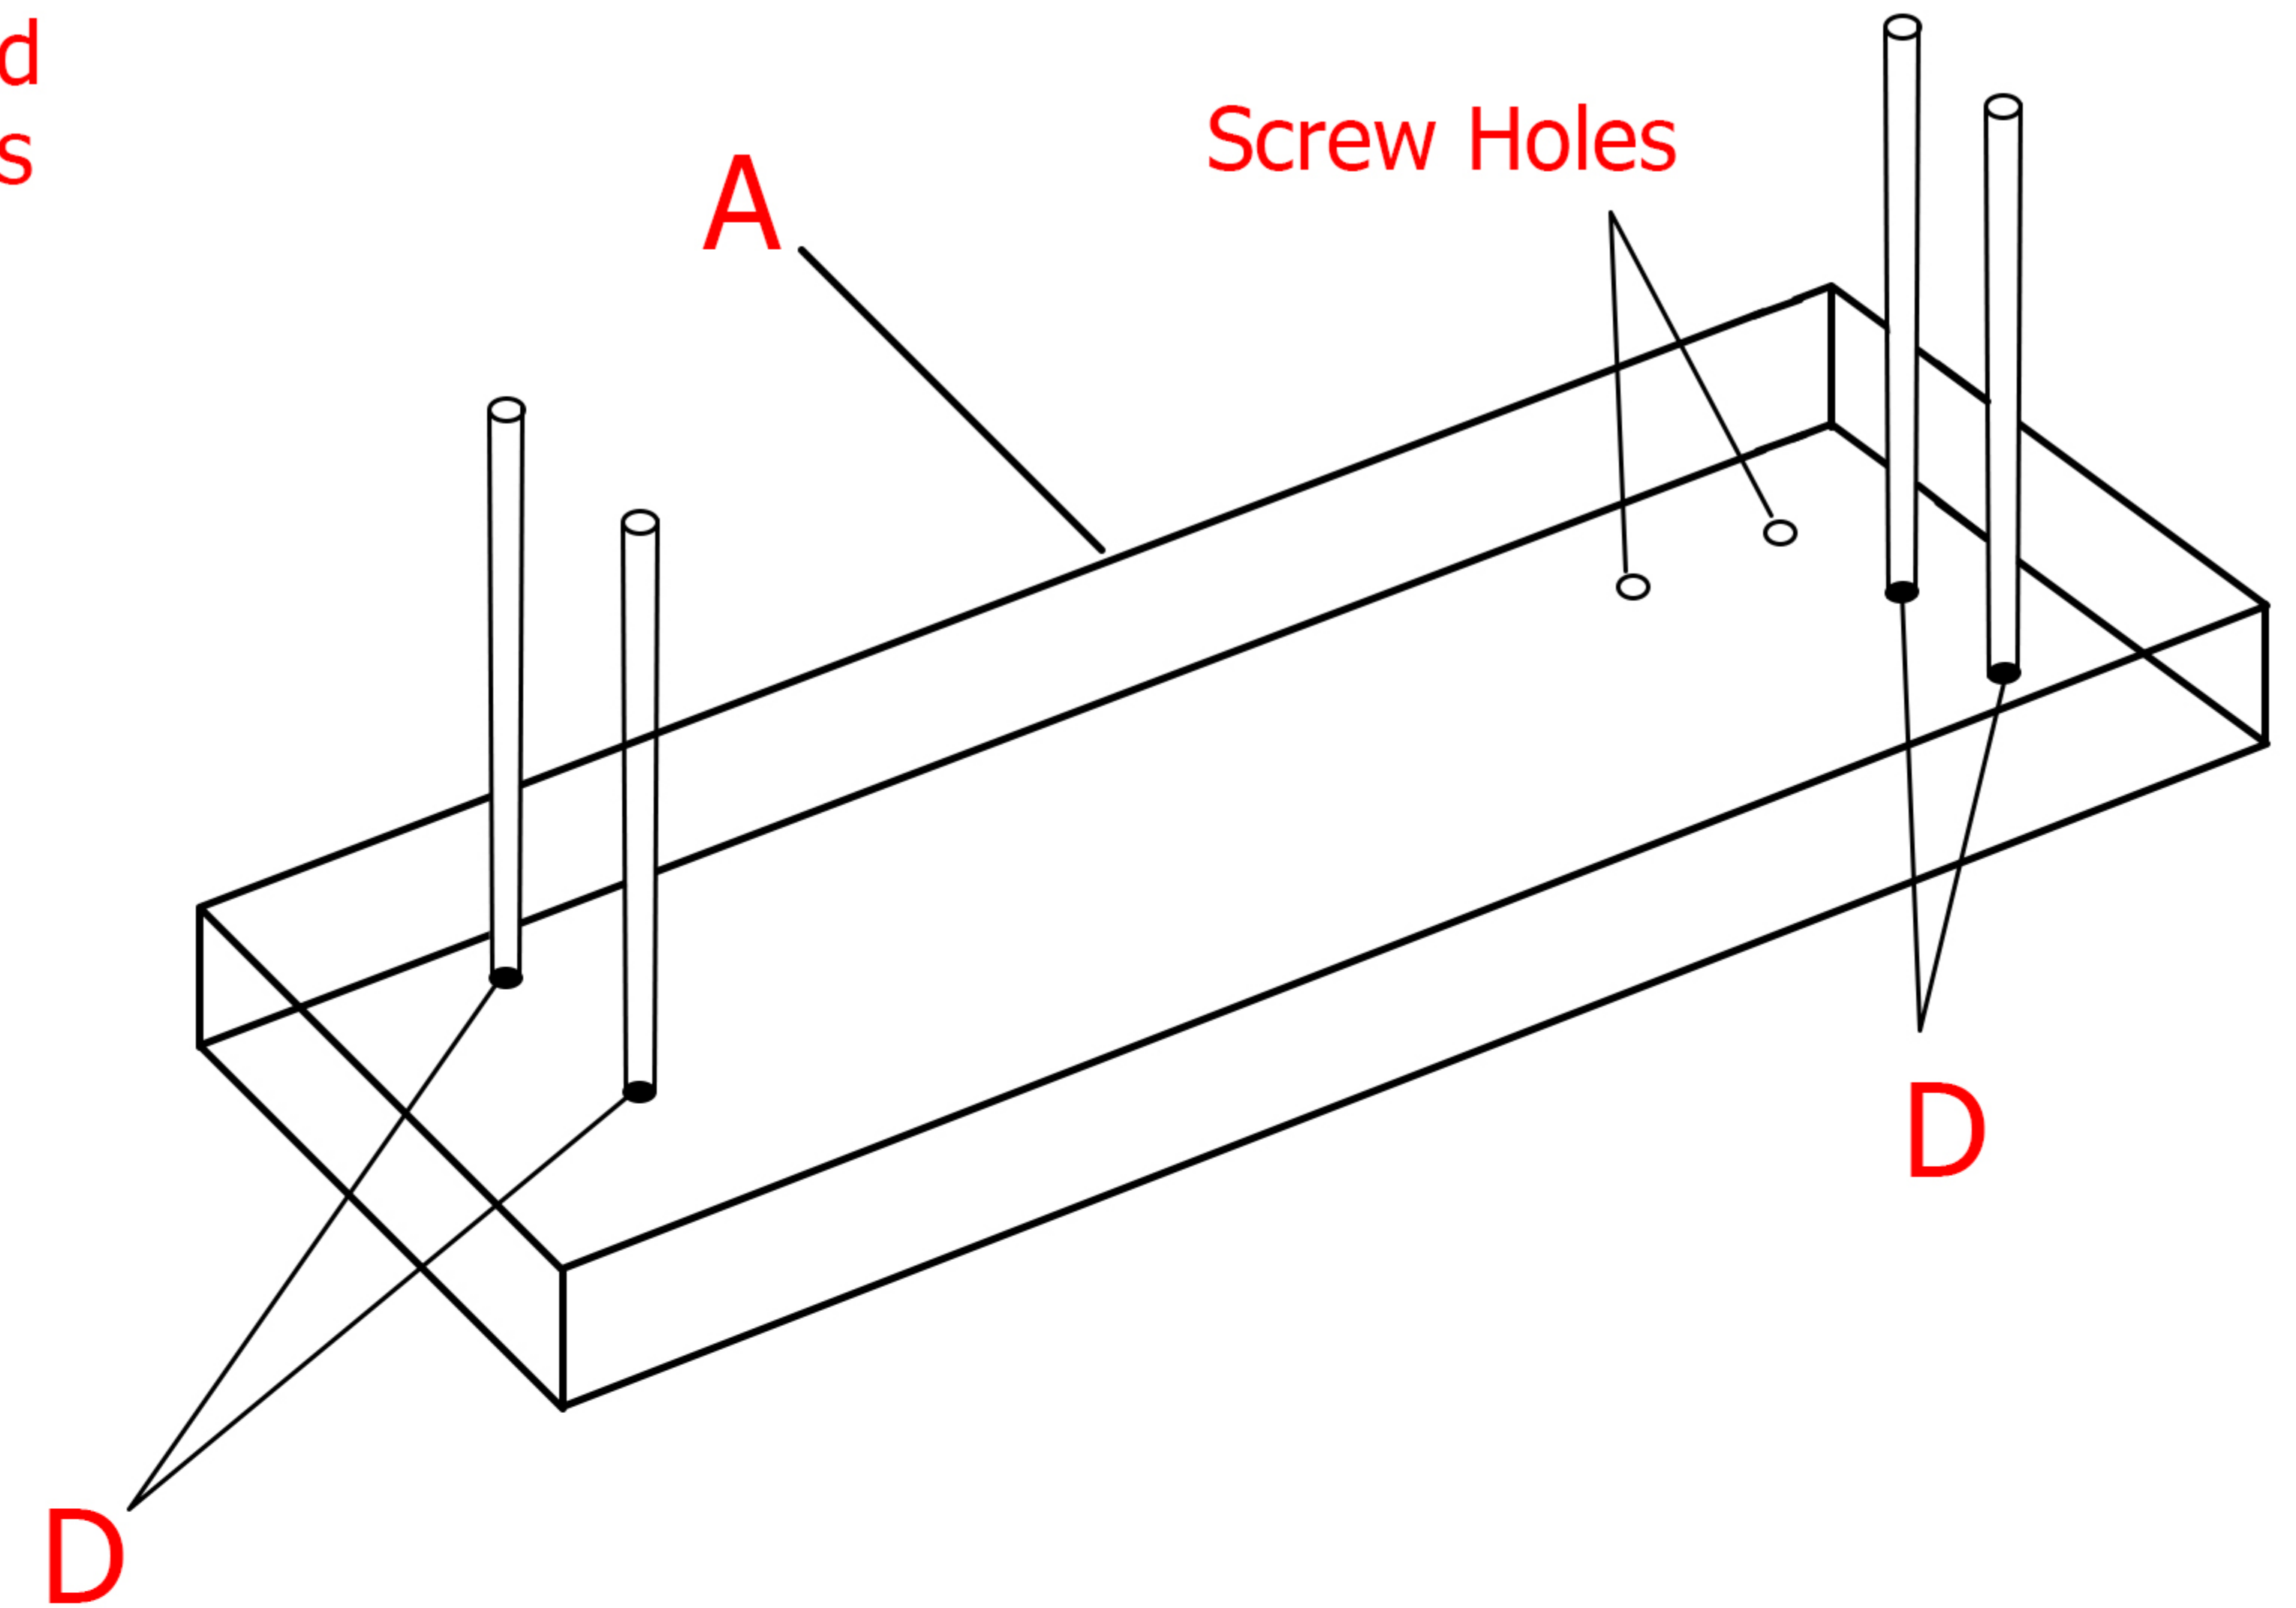

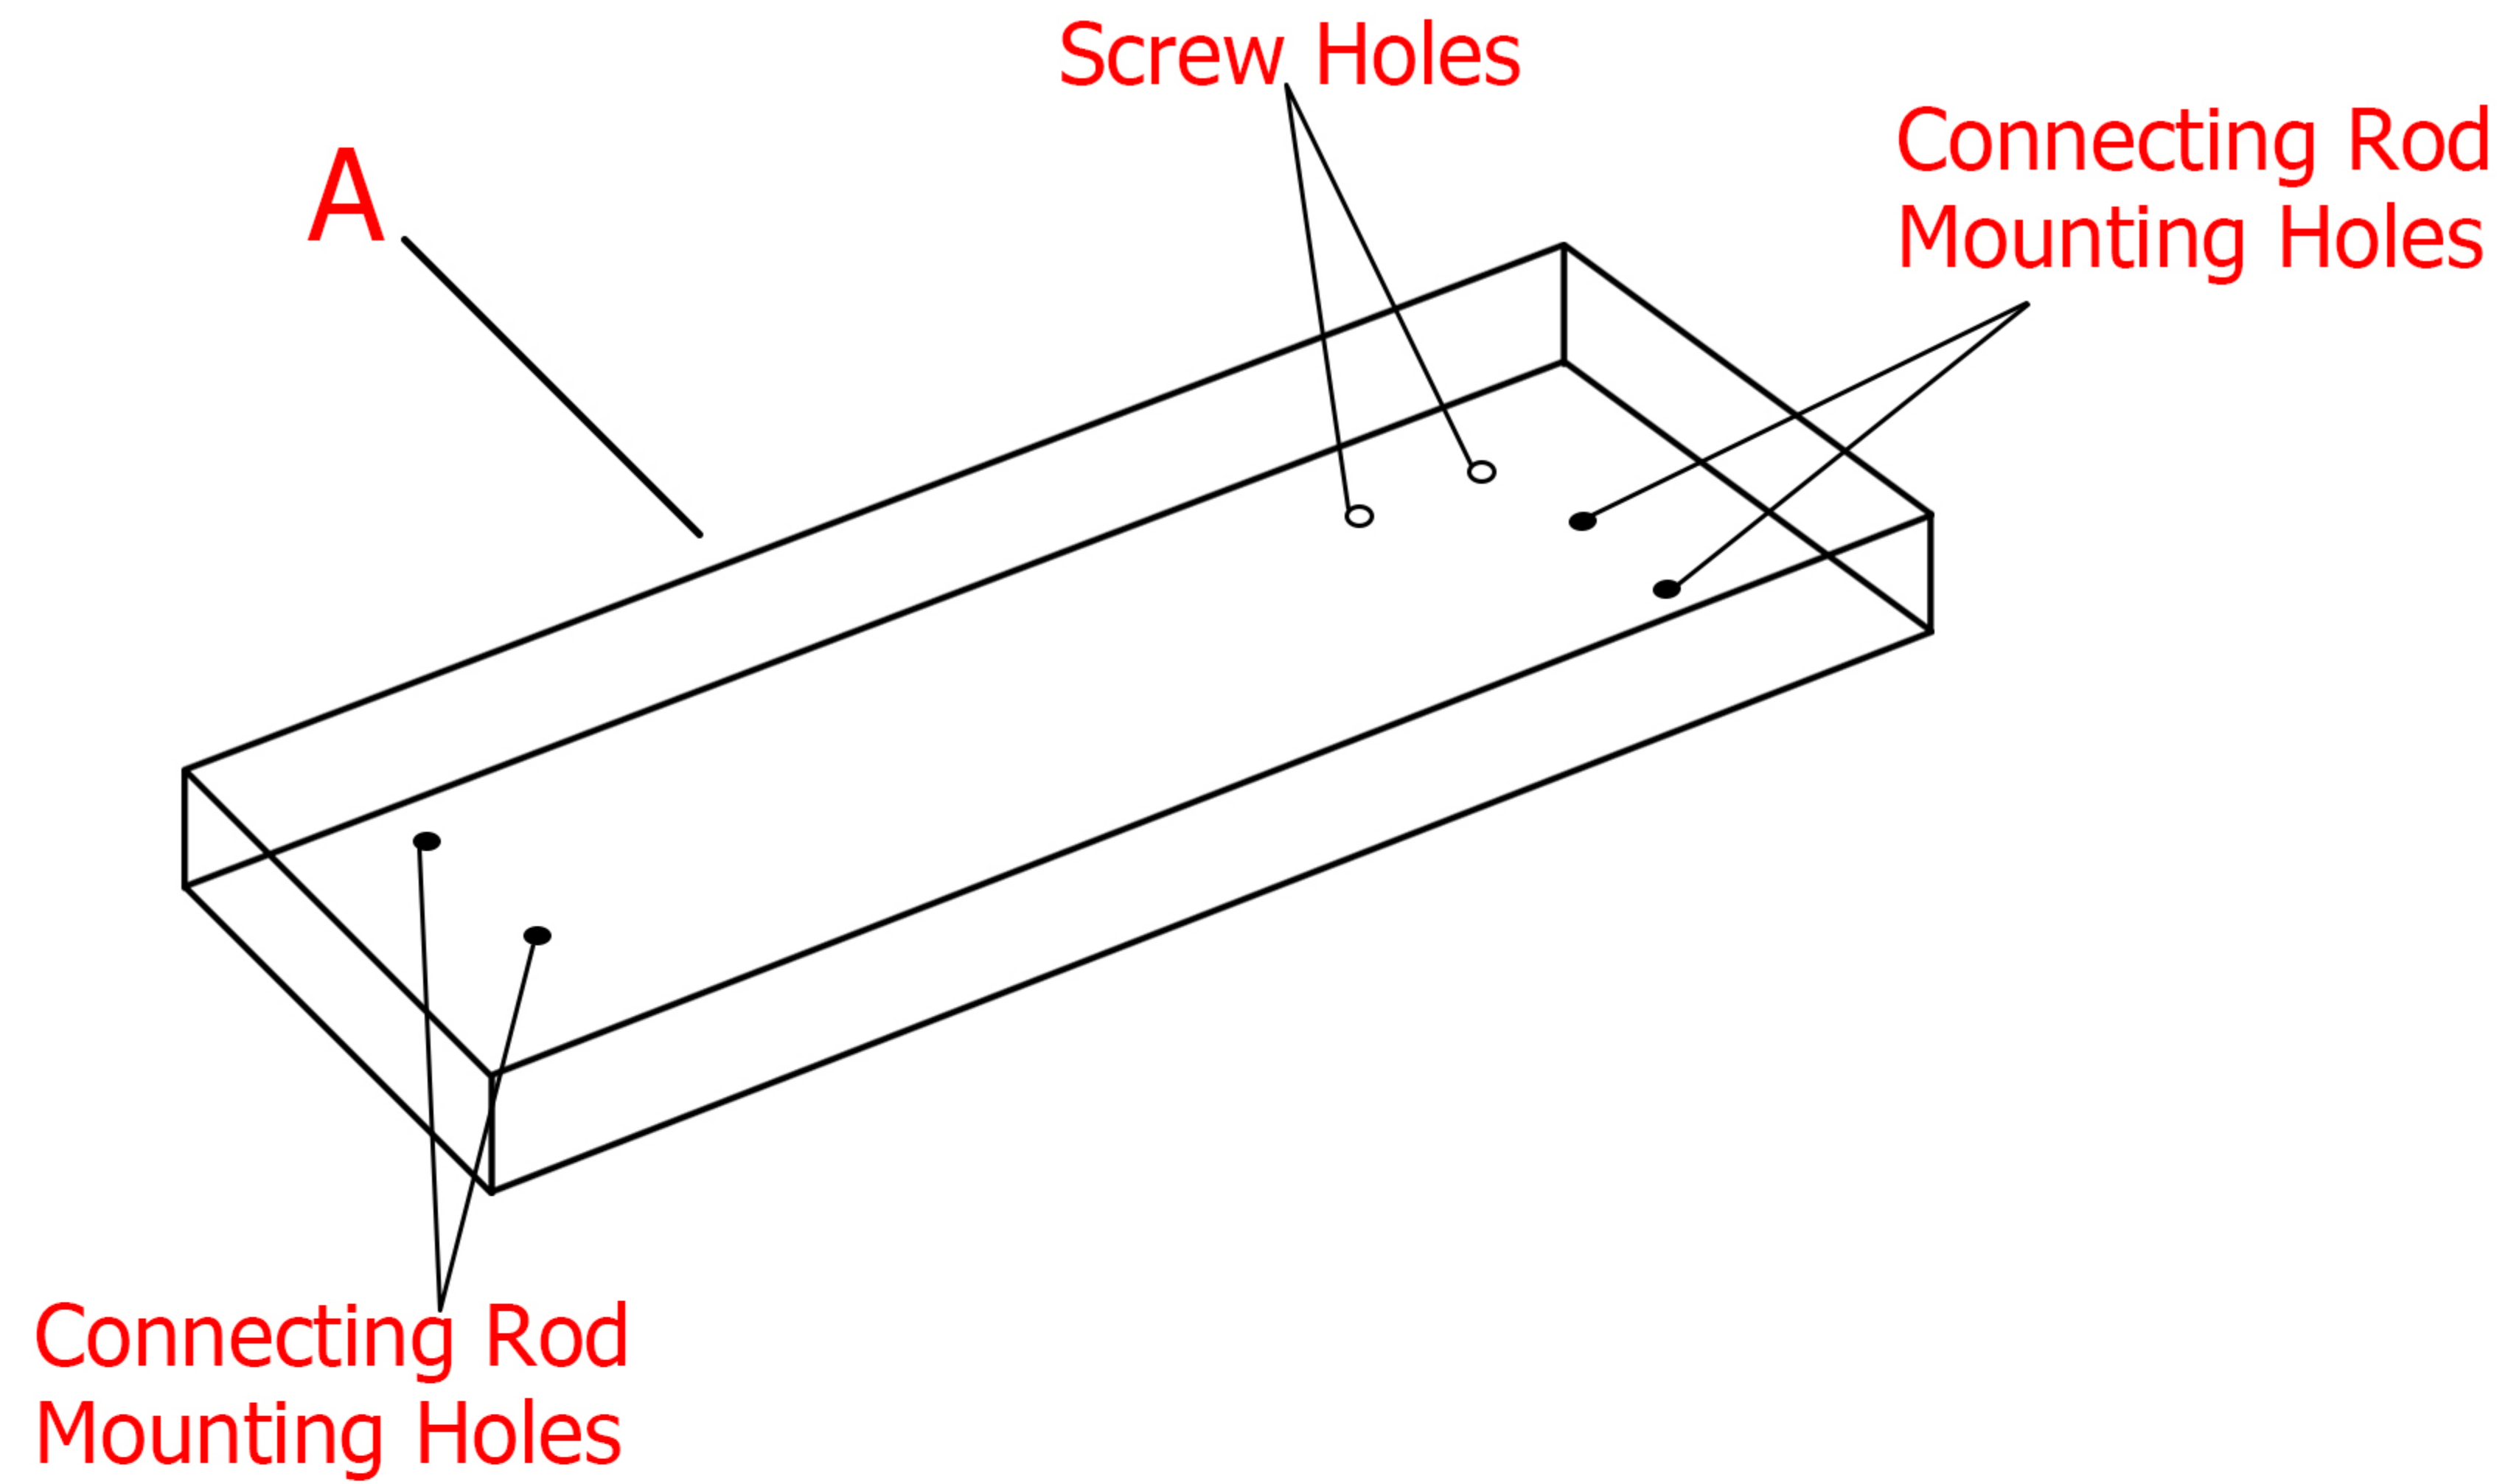

Install the desk legs

1. Install the Connecting Bar, fit the diamond-shaped desk legs onto it, and secure the legs with nuts and washers.

Secure Connecting Bar

Install the Table Legs

Place the nuts and fasten with a socket wrench.
