- Cleans vehicle dust, dirt and debris
 - Vacuums hard to reach areas such as underneath and in between car seats

- INCLUDES
- Integrated 4 feet flexible hose
 - 2-IN-1 Flip-up Brush / Wide Nozzle Tool
 - Long Crevice Tool

Overview

Features + Benefits

- Unique integrated hose which allows you to reach all areas of your car where other handheld vacs cannot
- Patented 'motor in the filter' technology allows the handheld vacuum to be ultra compact
- Long crevice tool for tight areas such as underneath and in between car seats
- Combined crevice and soft brush in one tool for ease of use
- Dual functionality - can be used as a traditional handheld vacuum or the handle can be removed for hard to reach areas
- Cyclonic action spins dirt away from the filter maintaining optimum suction power
- Filter cleaning wheel for easy and hands free cleaning of the filter
- Transparent dust bowl allows you to know when to empty the handheld vacuum
- The side empty door is an easy to empty system which means all the dirt goes straight in the bin and your hands don't touch the dirt
- The cable can be easily wrapped around the car vacuum before storing it away
- 16 feet cable allows you to reach all areas of your car including the boot
- 12V adapter, fits into a cigarette lighter socket
