IMPORTANT AVANT DE DÉBUTER L'ASSEMBLAGE

• **Limitation de responsabilité:** SUA-V décline toute responsabilité en cas de blessures, de bris de matériel ou de pièces liés à l'assemblage.

• **Lire les instructions:** Veuillez lire ce guide complet avant de commencer l'assemblage.

• **Identifier les pièces:** Chaque pièce est numérotée. Référez-vous à la page de vue d'ensemble (page 5) pour identifier chaque élément.

• **Préparer les pièces:** Étalez toutes les pièces afin qu'elles soient facilement accessibles et prêtes pour l'assemblage.

• **Inspection des pièces:** Vérifiez chaque pièce pour vous assurer que les trous sont propres et libres de poussière.

• **Vérifier la quincaillerie:** Assurez-vous que toutes les vis et autres éléments nécessaires sont présents (page 3). Utilisez des contenants pour éviter de les perdre.

• **Outils nécessaires:** Avant de commencer, assurez-vous de disposer de tous les outils nécessaires pour l'assemblage.

• **Protection des pièces et du sol:** Utilisez la boîte en carton d'emballage ou un tapis pour protéger les pièces et le sol durant l'assemblage.

• **Lieu d'assemblage:** Ce lit est très pesant. Effectuez l'assemblage le plus près possible de l'endroit et l'orientation où vous souhaitez installer votre lit.

• **Précautions de sécurité:** Les bords des pièces peuvent être coupants. Prenez les précautions nécessaires pour éviter les blessures.

• **Manipulation des pièces:** Manipulez les pièces avec soin et prenez votre temps. Ne forcez pas les éléments afin d'éviter d'endommager les pièces.

IMPORTANT BEFORE STARTING THE ASSEMBLY

• **Limitation of Liability:** SUA-V disclaims all liability for injuries, material damage or parts breakage related to the assembly.

• **Read the Instructions:** Please read this entire guide before starting the assembly.

• **Identify the Parts:** Each part is numbered. Refer to the overview page (page 5) to identify each piece.

• **Prepare the Parts:** Lay out all parts so they are easily accessible and ready for assembly.

• **Inspect the Parts:** Check each part to ensure that the holes are clean and free of dust.

• **Check the Hardware:** Ensure all screws and other necessary hardware are present (page 3). Use containers to keep the parts from being lost.

• **Required Tools:** Before beginning, make sure you have all the necessary tools for the assembly.

• **Protect the Parts and Floor:** Use the packaging box or a mat to protect the parts and the floor during assembly.

• **Assembly Location:** This bed is very heavy. Assemble the bed as close as possible to the final location and orientation.

• **Safety Precautions:** The edges of the parts may be sharp. Take necessary precautions to avoid injury.

• **Handle Parts Carefully:** Handle the parts gently and take your time. Do not force any pieces to avoid damage.
