STEP 1 Install the back.

Attach D to C, and secure with 4 M screws.

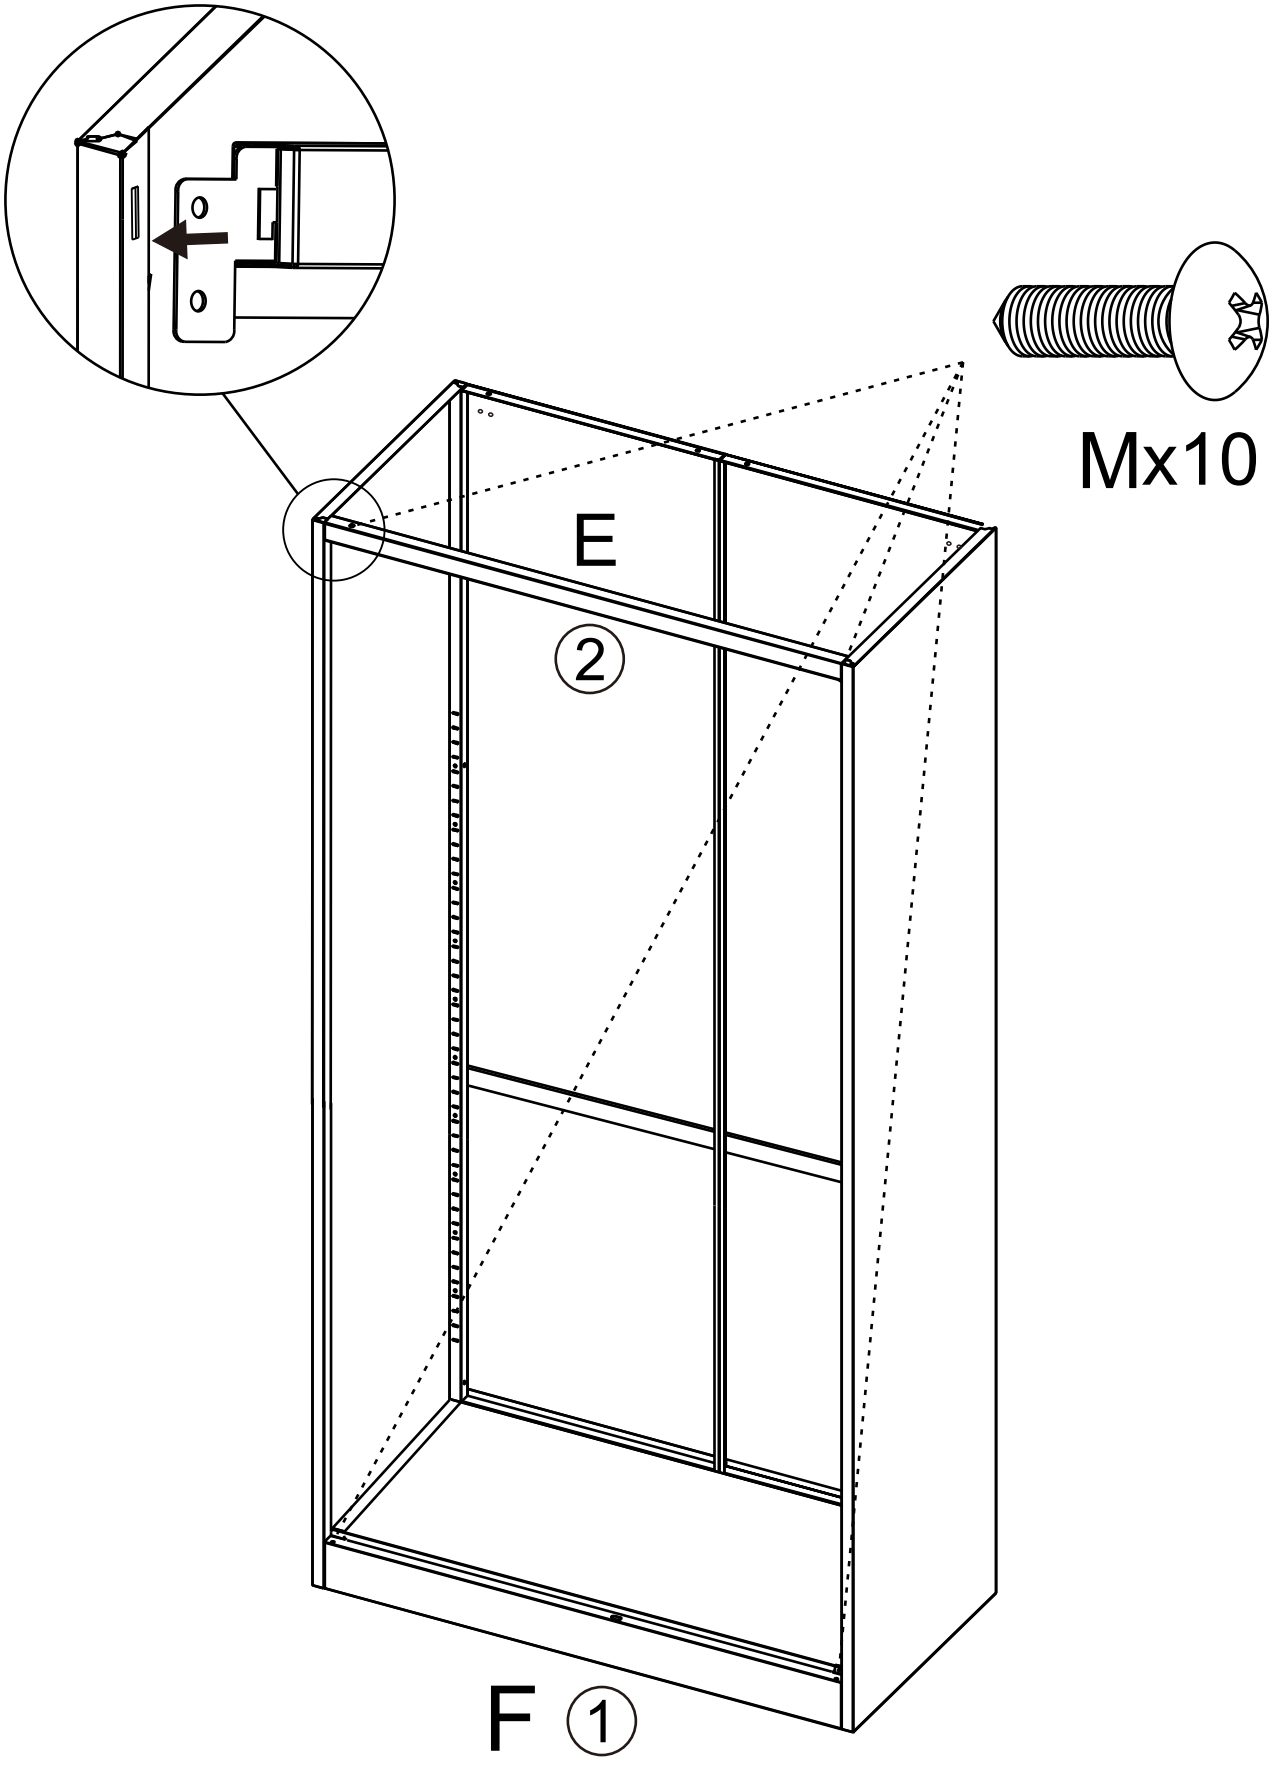

STEP 2 install the sides.

Attach A and B to the back, and secure with 8 M screws.

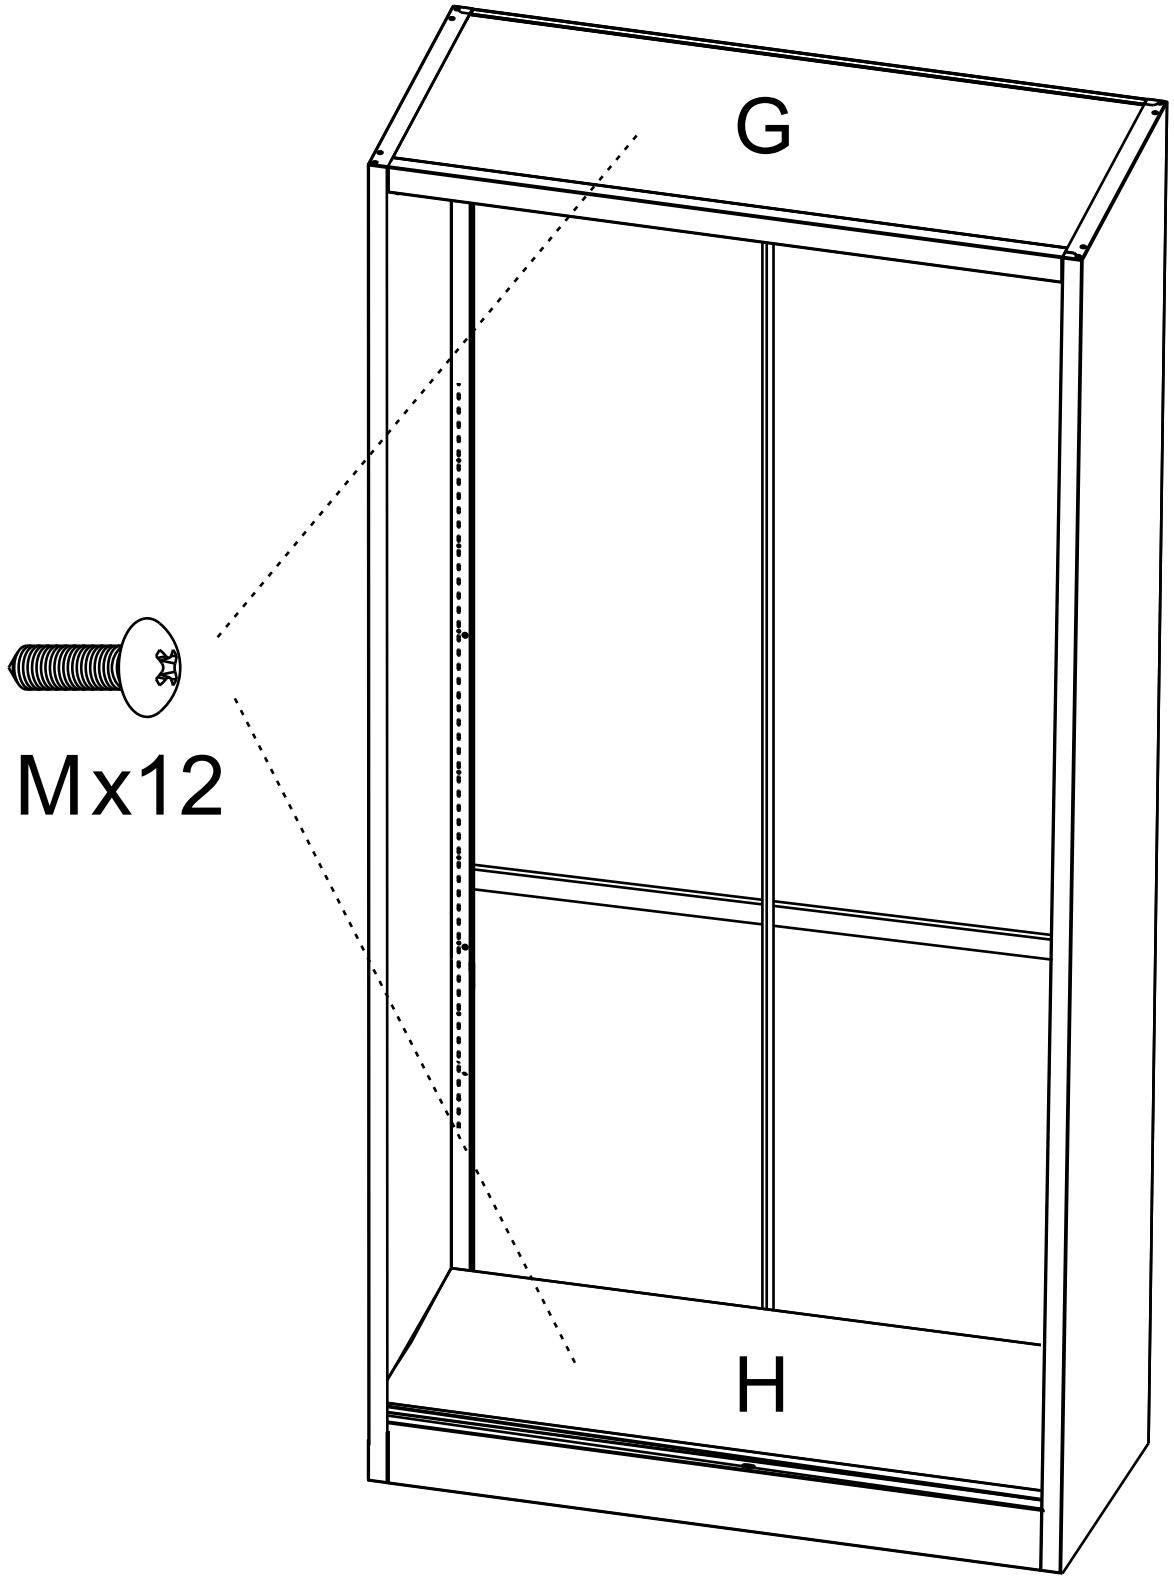

STEP 3 Install the top , middle and bottom frame bar.

Hook in E and F into sides, and secure with M screws.

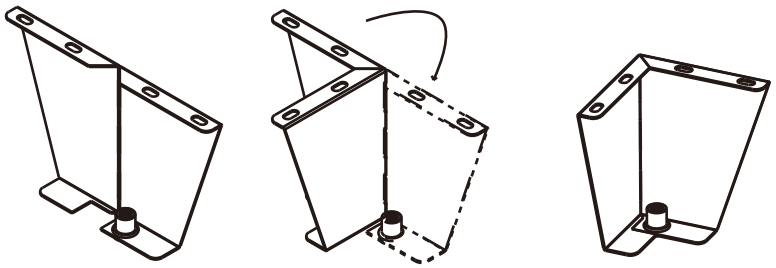

STEP 4 Install the top, middle and bottom panels .

Put H in, lift G up and secure with M screws.

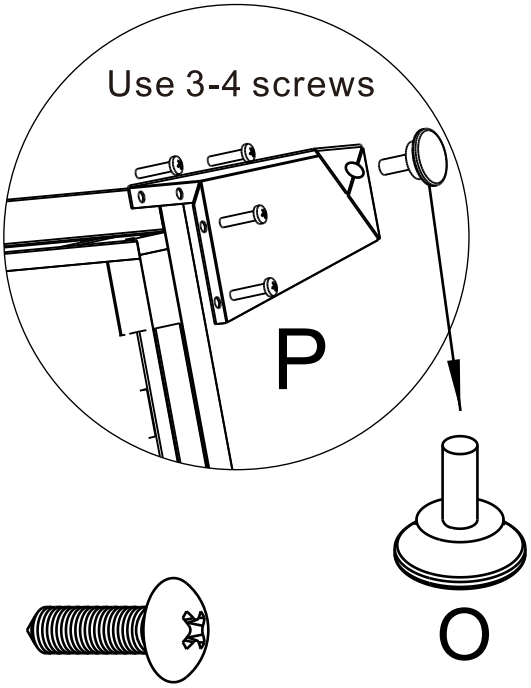

STEP 5 Install the foot stand and adjustable foot.

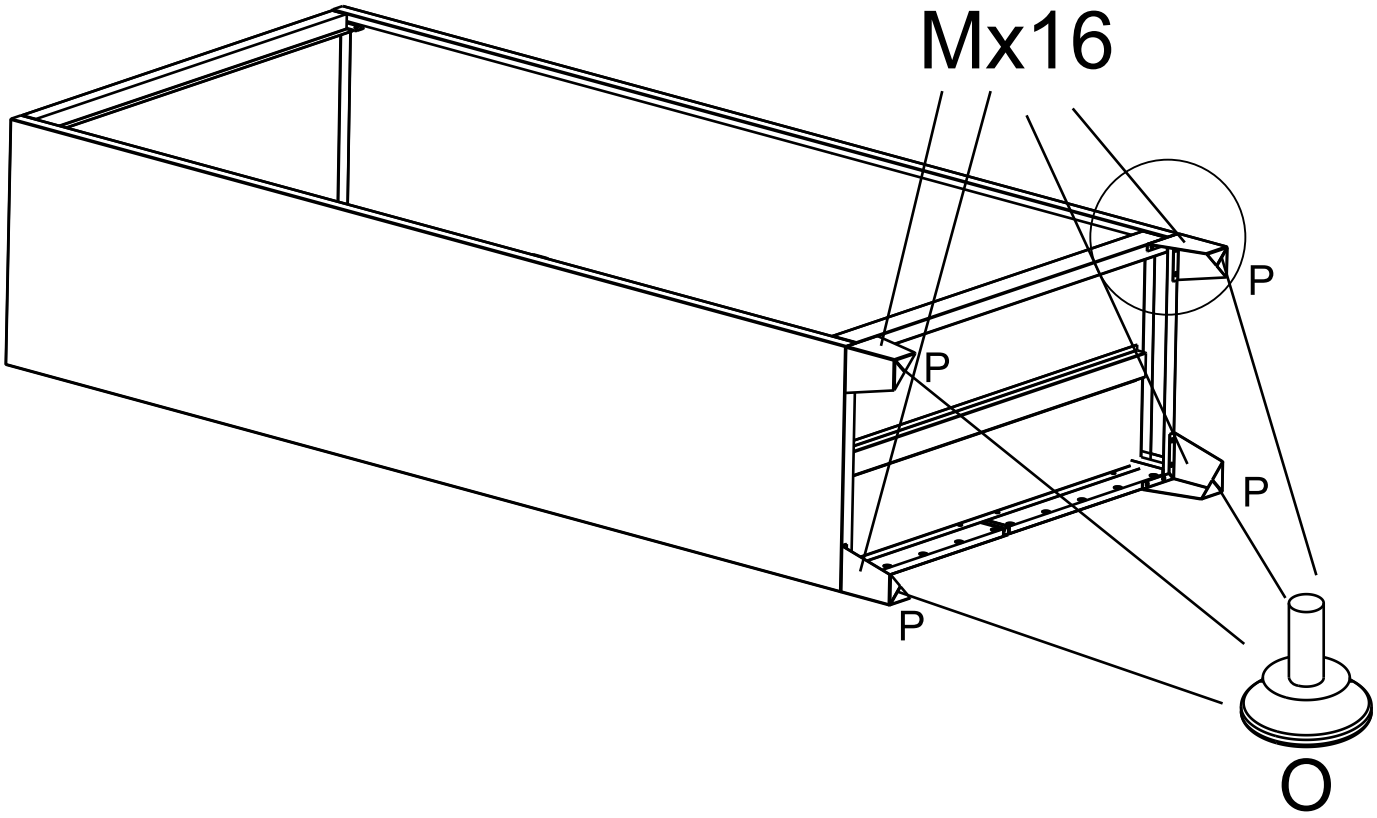

If the height is perfect for you, then no need to install the feet, you can skip this step.

Manually bend the standing foot into shape and twist the adjustable foot in.

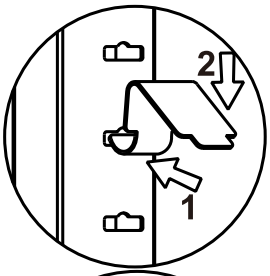

Mx16

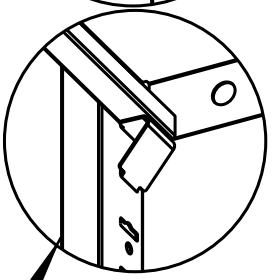

STEP 6 Install the shelf.

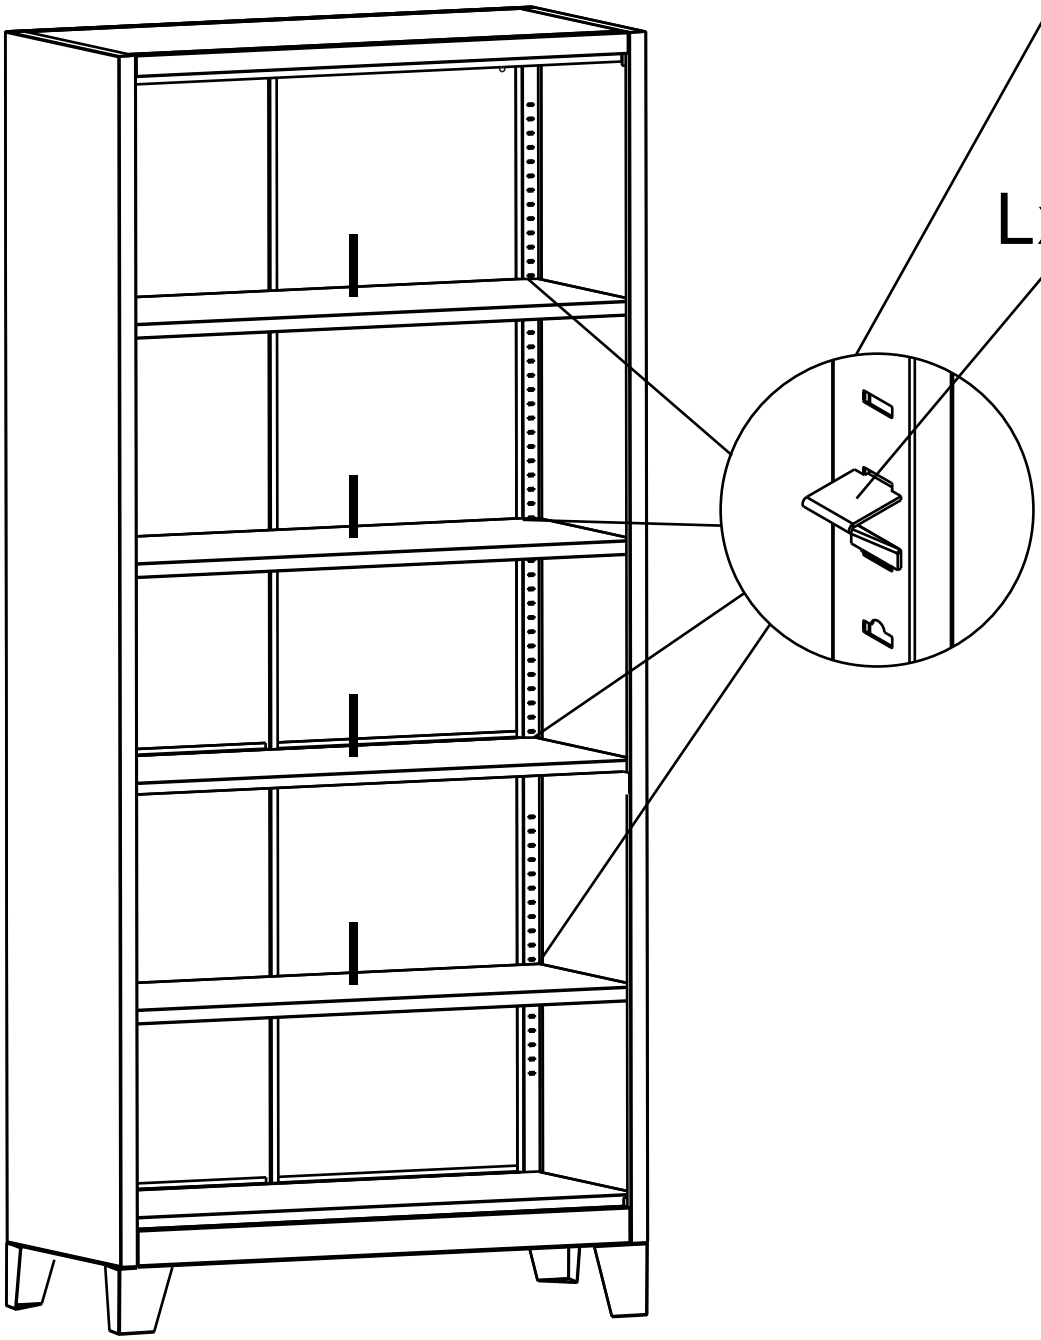

First to clip in L and then put I on it.

1. Insert bending side first
2. Fall down the flat side to secure

Now shelf can safely sits on it
Make sure the clips at 4 corners are at the same height.

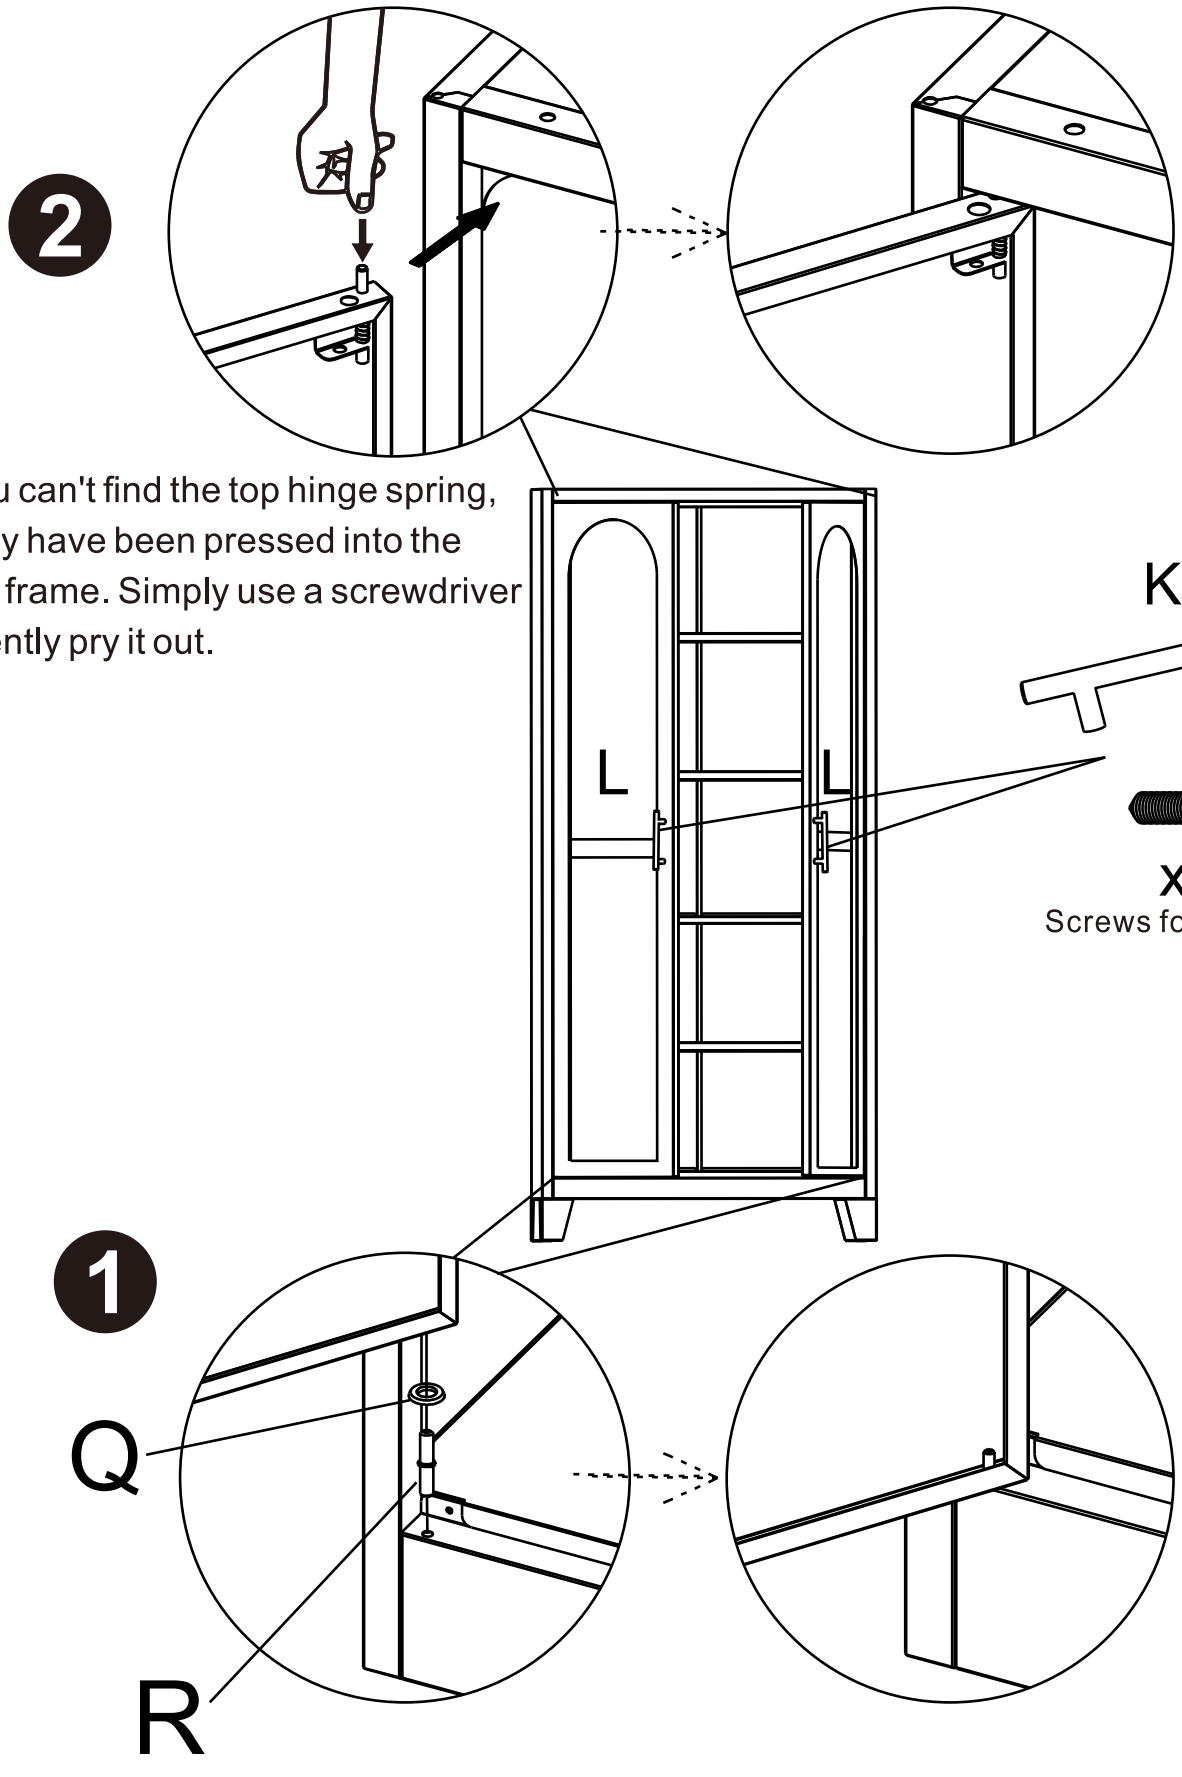

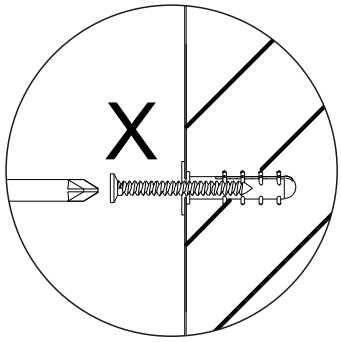

Lx16

STEP 7 Install the doors.

1. First to insert R (you may need to add 1-2 Qs) into the holes on bottom frame bar, put L in.
2. Then press down the top hinge spring to insert the L.

The cabinet can be fixed to the wall as needed.

Install the expansion screw to the wall.
