

Aura Lift - Up Storage Bed - King

Assembly Sheet

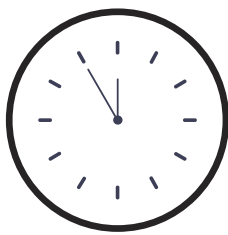

No. of People: 2

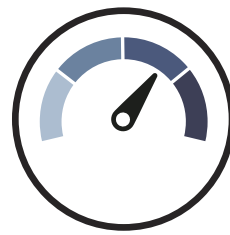

NO power
tools required.

Time: 2 hours

Use a damp cloth to clean.

Level of difficulty: 3/4

ASSEMBLY INSTRUCTIONS

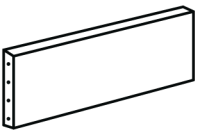

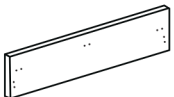

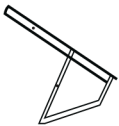

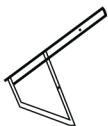

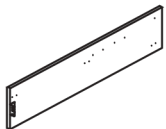

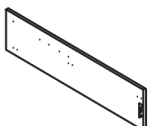

Thank you for making a purchase. The goal of this assembly sheet is to help you assemble the product in a safe and accurate way. Kindly follow all the instructions carefully to ensure a safe and accurate assembly process.

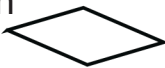

A few important things to note:

- Please do not use a power tool to assemble this product. Using one may hinder and/or damage the item and will invalidate any claims for warranty. Depending on the amount of use this product receives, it may be recommended to tighten up the fixings from time to time. This is completely normal! Do not drag the bed.
- Always lift with at least two people to avoid injury or damage.

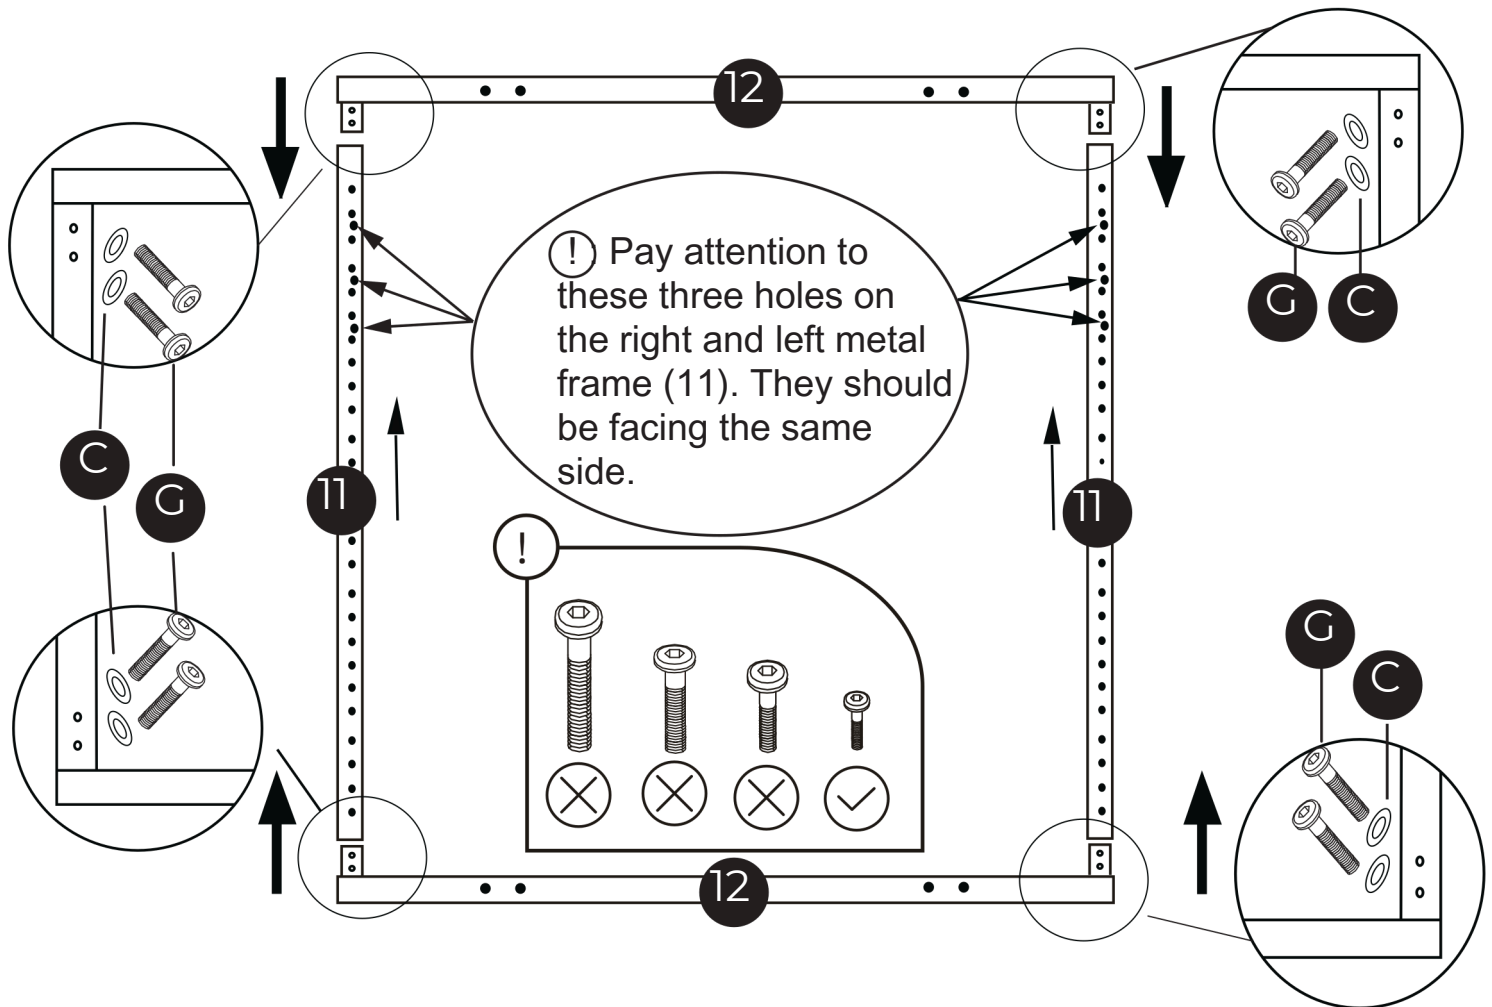

PARTS INVENTORY		
ID	DESCRIPTION	QTY
A	M8*40 BOLT 	46
B	M8*65 BOLT 	6
C	FLAT WASHER M6 	8
D	SPRING WASHER 	4
E	FLAT WASHER M8 	58
F	NUT M8 	26
G	M6*10 BOLT 	8
H	ALLEN KEY 	1
I	OPEN SPANNER 	1
J	PROTECTIVE PAD 	4

PARTS INVENTORY		
ID	DESCRIPTION	QTY
K	MATTRESS STOPPER 	2
L	GAS LIFT RIBBON 	2
M	PROTECTIVE PAD 	3
N	GAP NUT 	8
O	M8*25 BOLT 	14

PARTS INVENTORY		
ID	DESCRIPTION	QTY
1	Headboard 	1
2	Footboard 	1
3	Left Hydraulic 	1
4	Right Hydraulic 	1
5	Gas Lift 	2
6	Left Side Rail 	1
7	Right Side Rail 	1
8	Wood Slat 	45
9	Single Close Ended Clip 	30
10	Double Open-Ended Clip 	30
11	Right and Left Metal Frame 	2

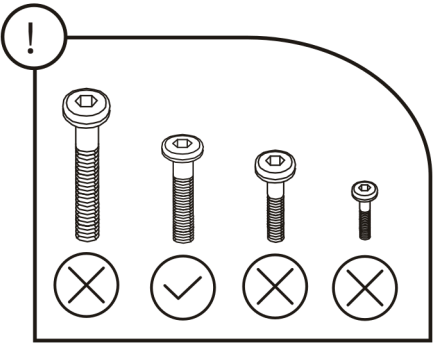

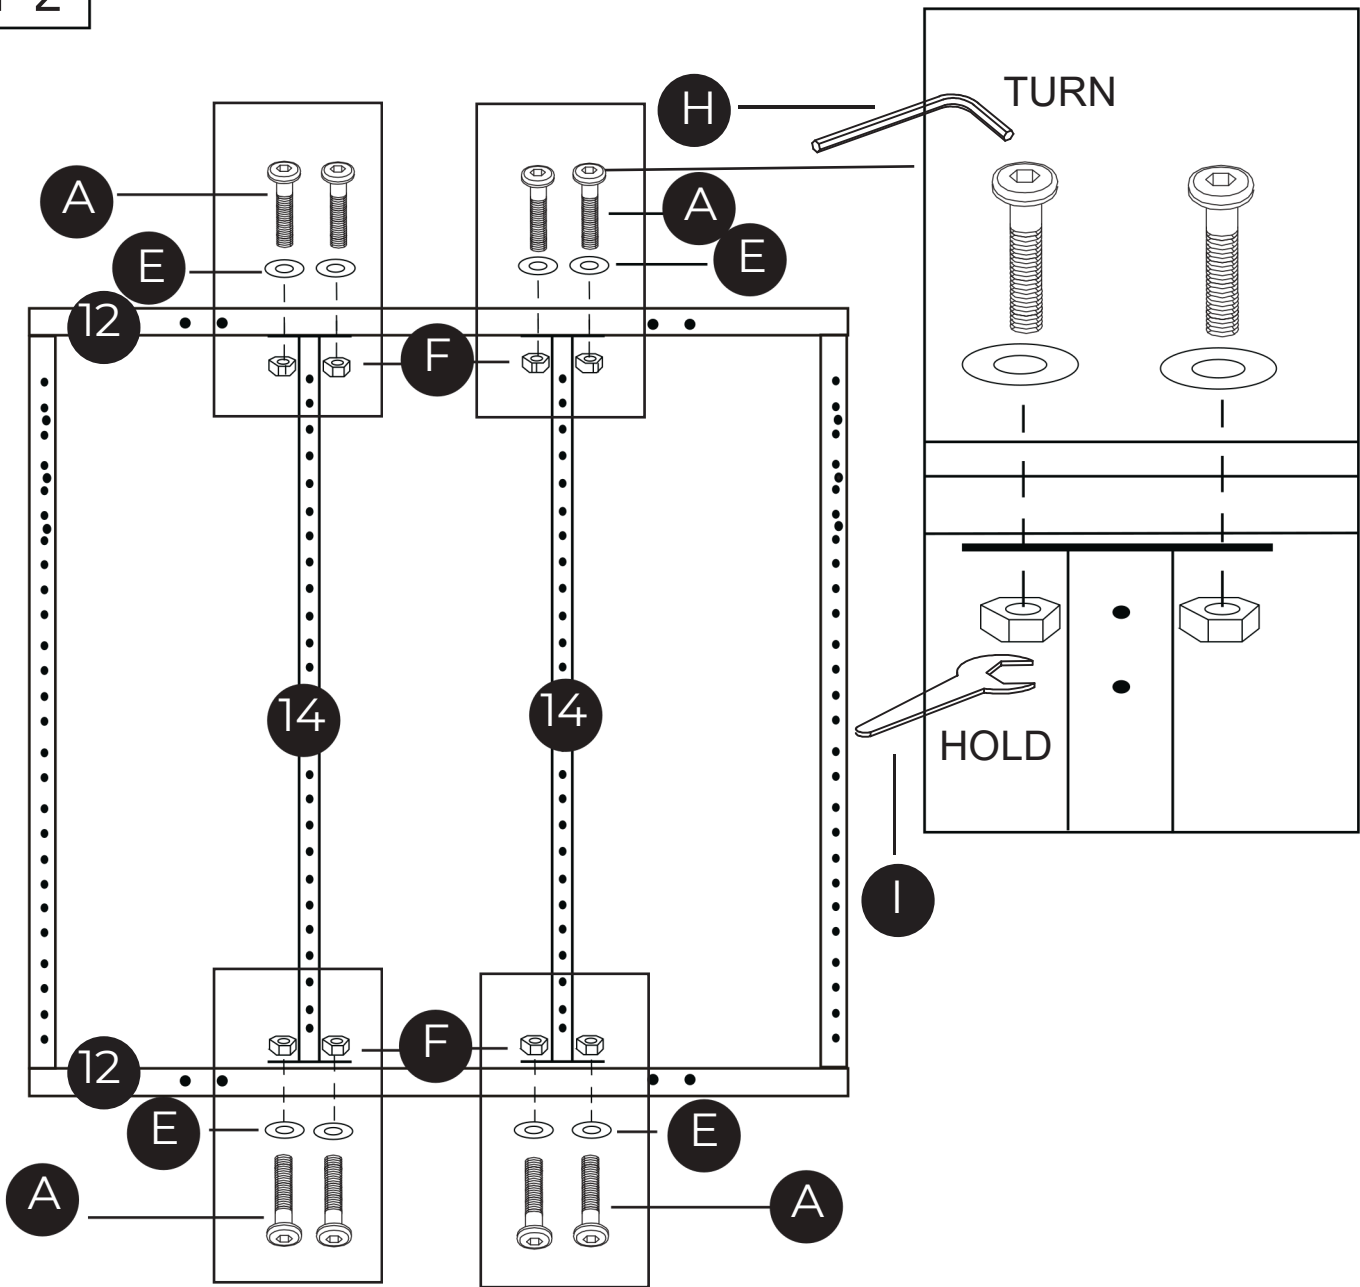

PARTS INVENTORY		
ID	DESCRIPTION	QTY
12	Up and Down Metal Frame 	2
13	Side Rail Connector 	2
14	Center Frame 	2
15	Center Floating Leg 	4
16	Headboard Back Non-woven Cloth 	1
17	Corner Bracket 	2
18	Bottom Non-woven Cloth 	1
19	Footboard Middle Bracket 	1
20	Left Headboard Wing 	1
21	Right Headboard Wing 	1

STEP 1

Step 1 : Attach parts 11 and 12 using hardware C and G.

STEP 2

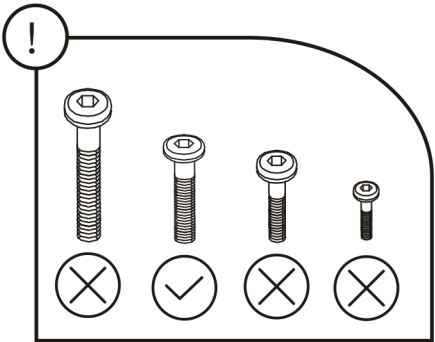

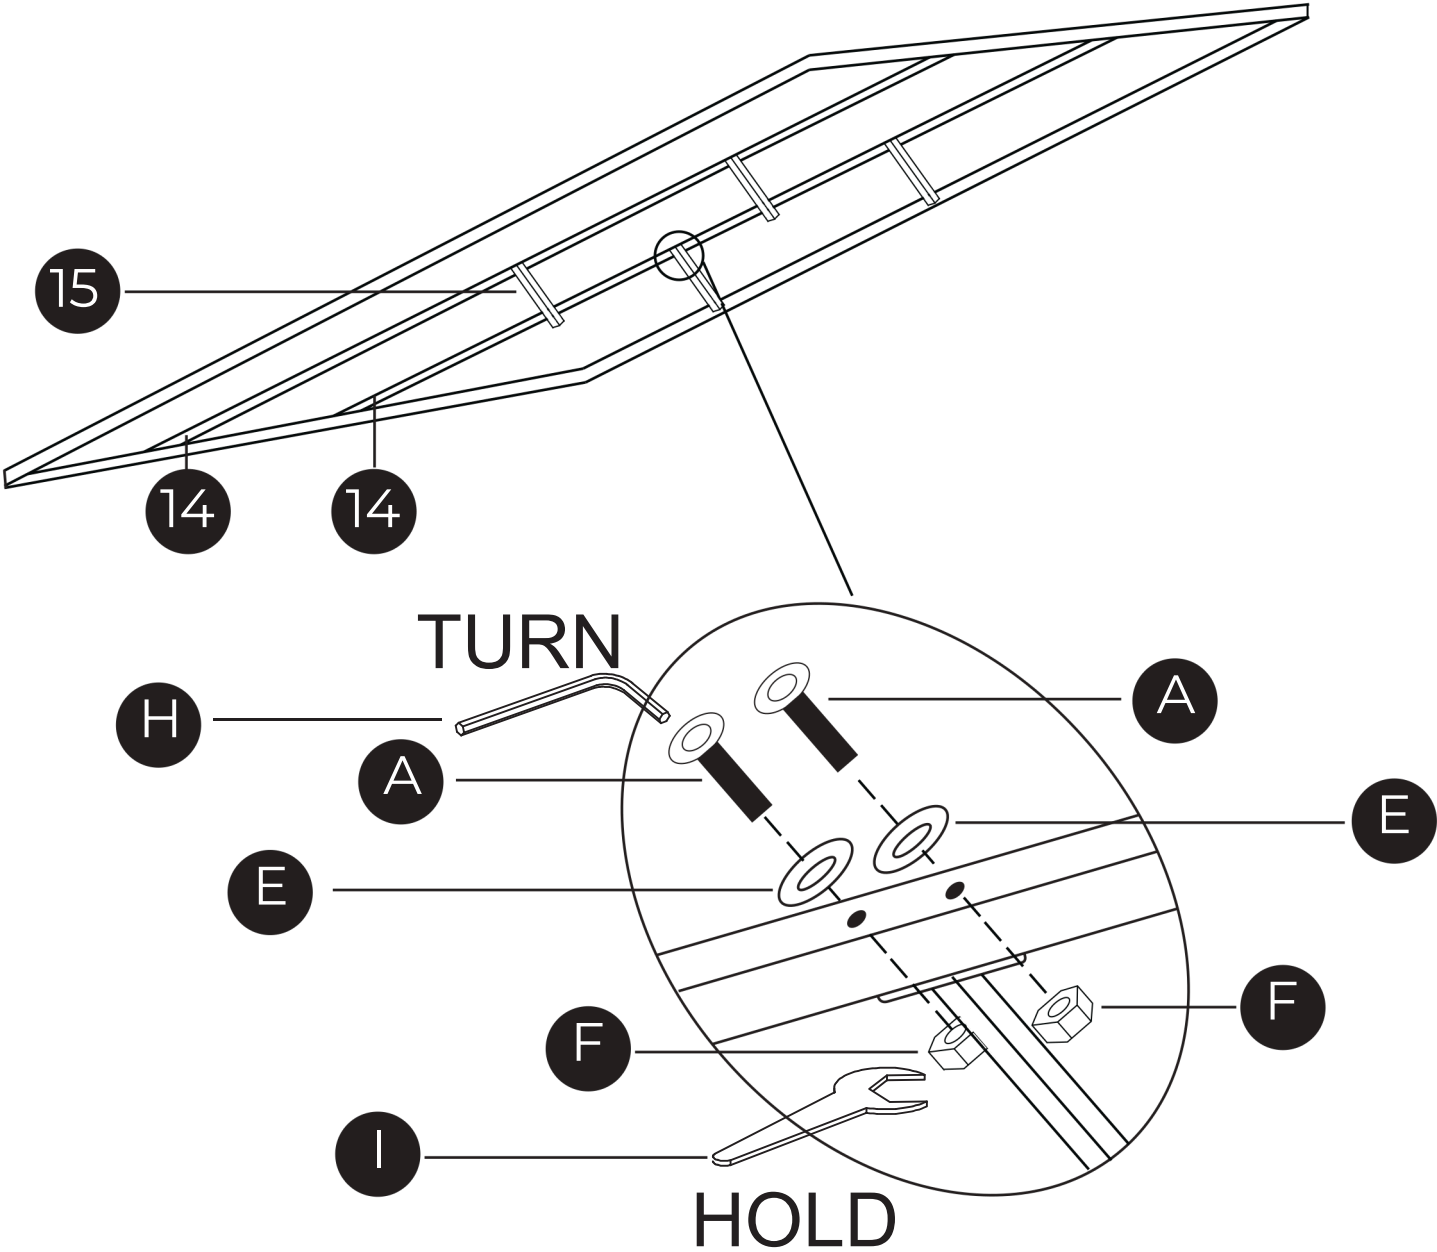

Step 2 : Attach part 14 to both sides of part12, using hardware A, E and F.

STEP 3

Step 3: Attach the support legs (15) to the holes in part 14 as shown in the photo, using hardware A, E and F.

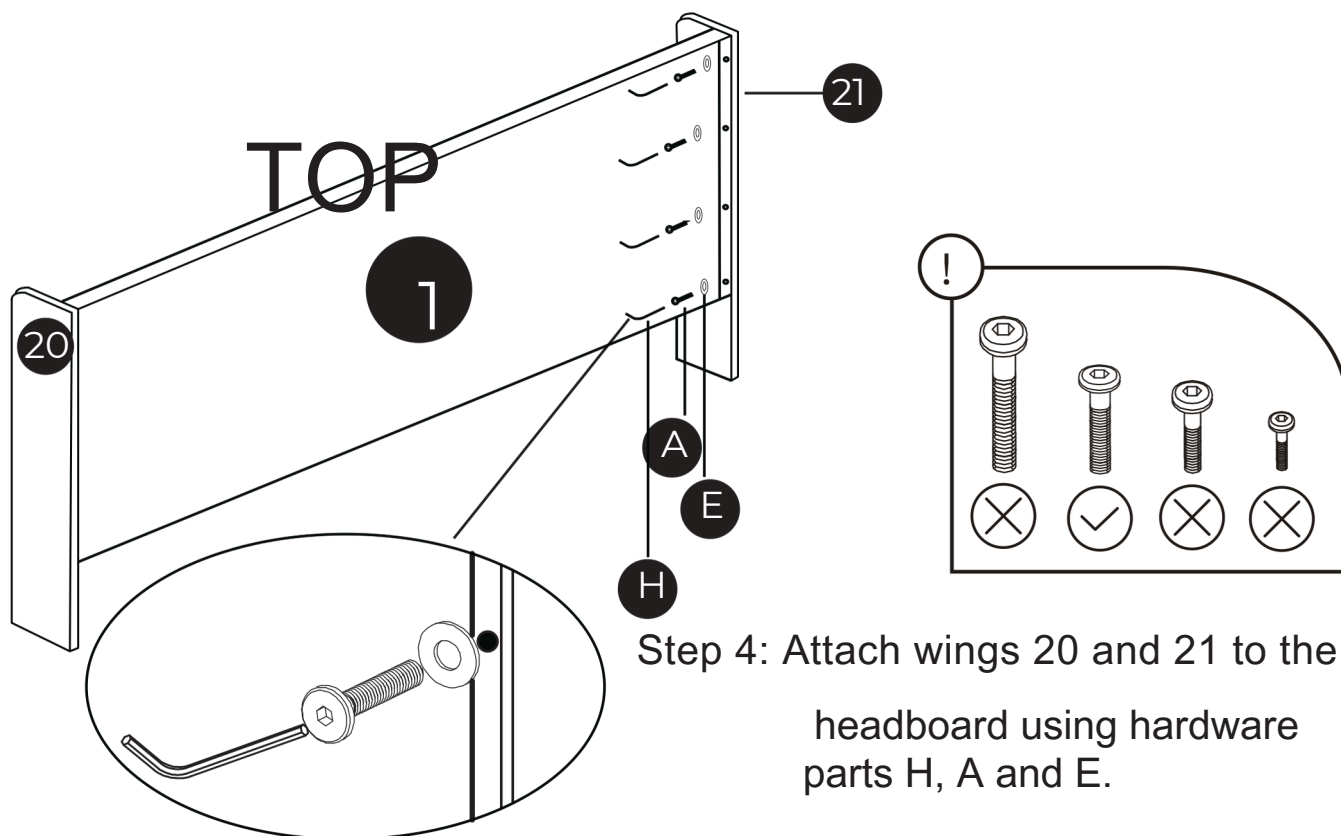

! Do not fully open the adjustable part of the support legs. Please leave at least 1-2cm of space between the legs and the floor.

Once the frame has been assembled keep it aside. We will be using it again in Step 13.

STEP 4

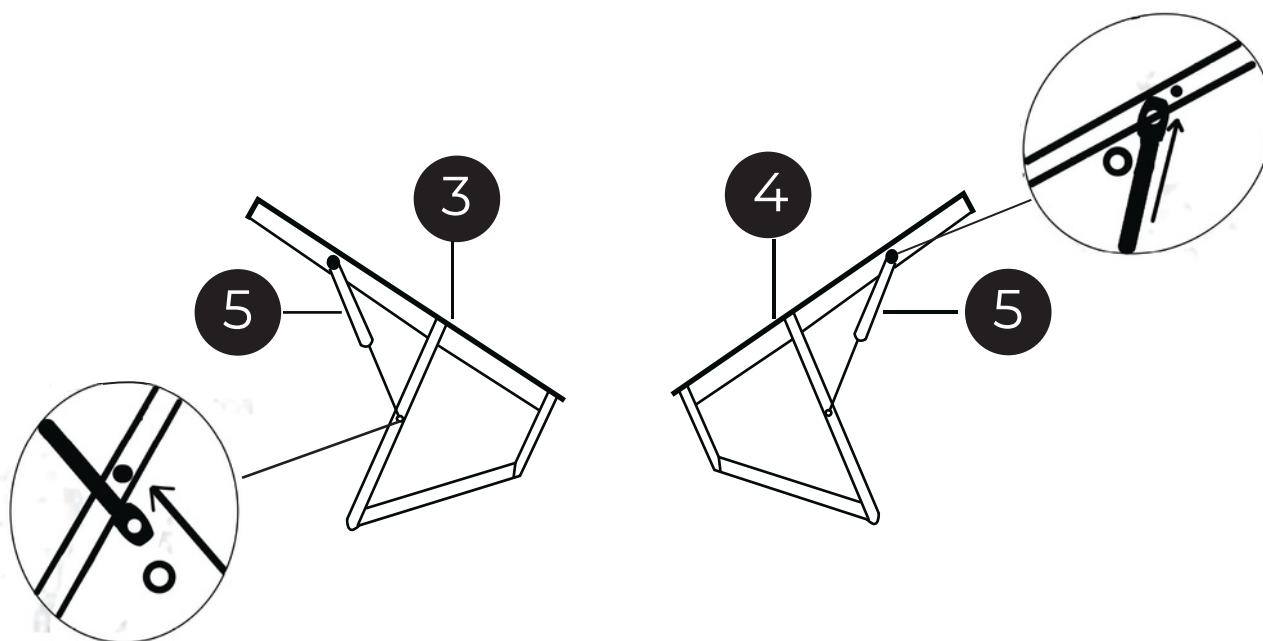

Turn it upside down for more ease.

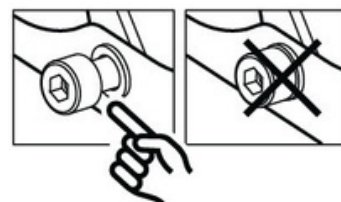

Step 4: Attach wings 20 and 21 to the headboard using hardware parts H, A and E.

STEP 5

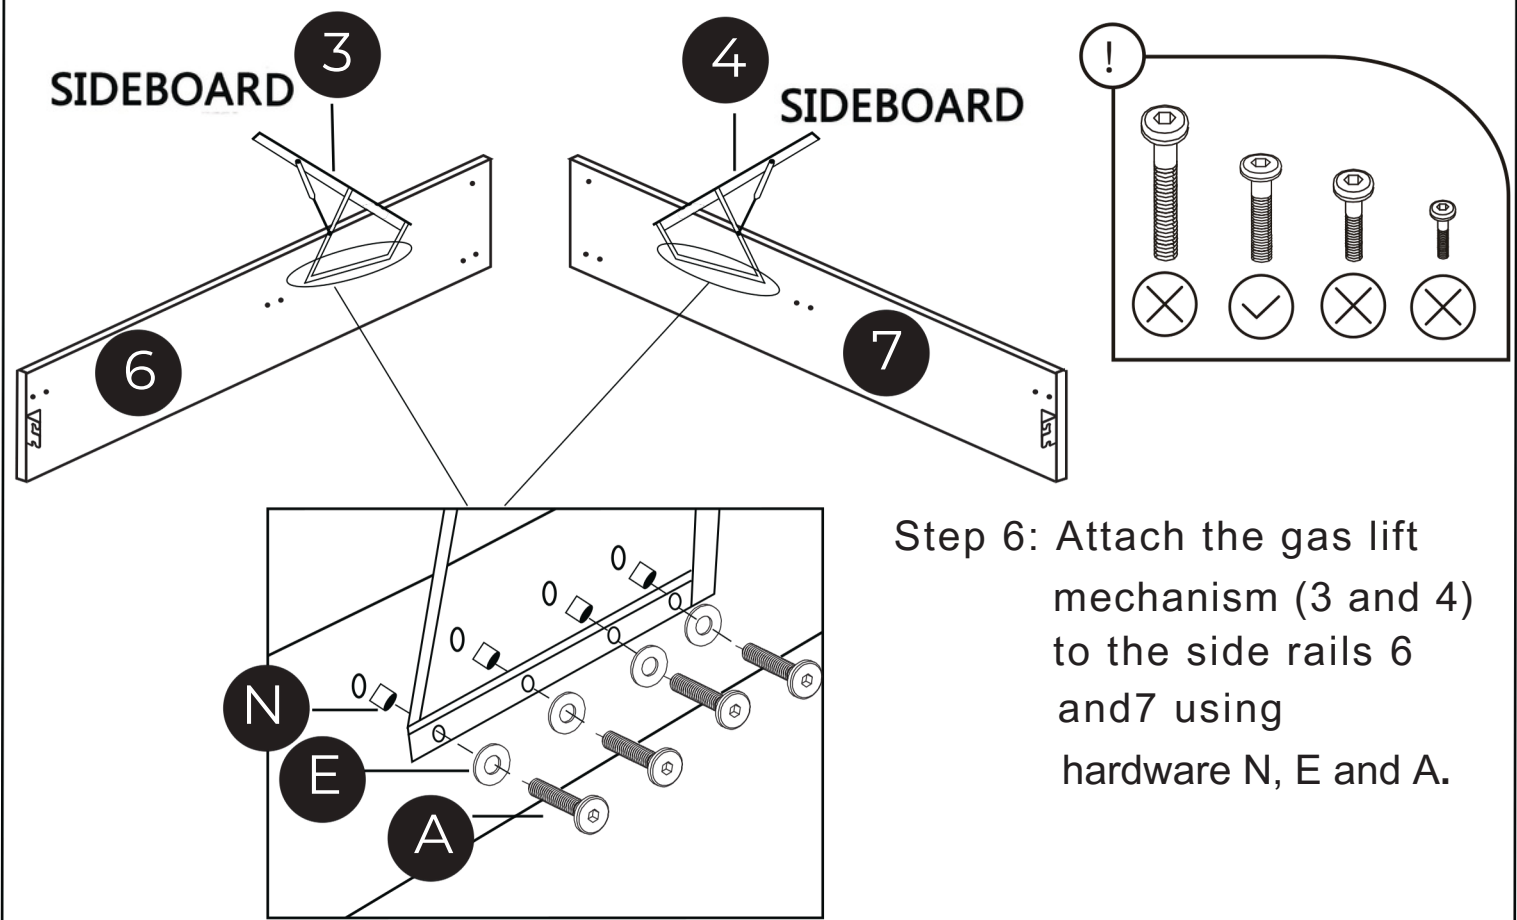

Step 5: Unscrew the nut on the left and right hydraulics (3 and 4) and attach the gas lifts (5). Screw the nut back on. We will now refer to this as the "gas lift mechanism".

The nut should only be tightened by hand and will not go all the way in. No tools needed.

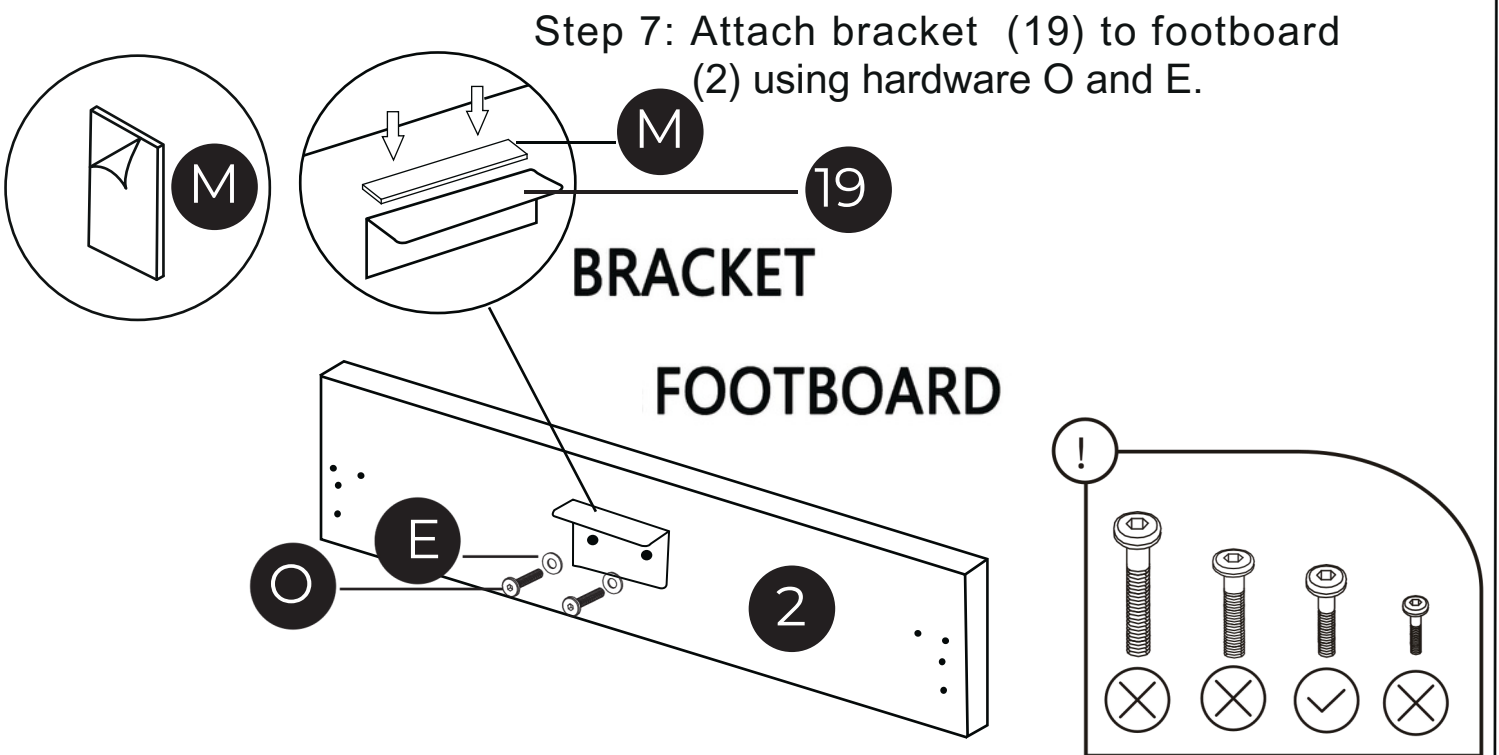

STEP 6

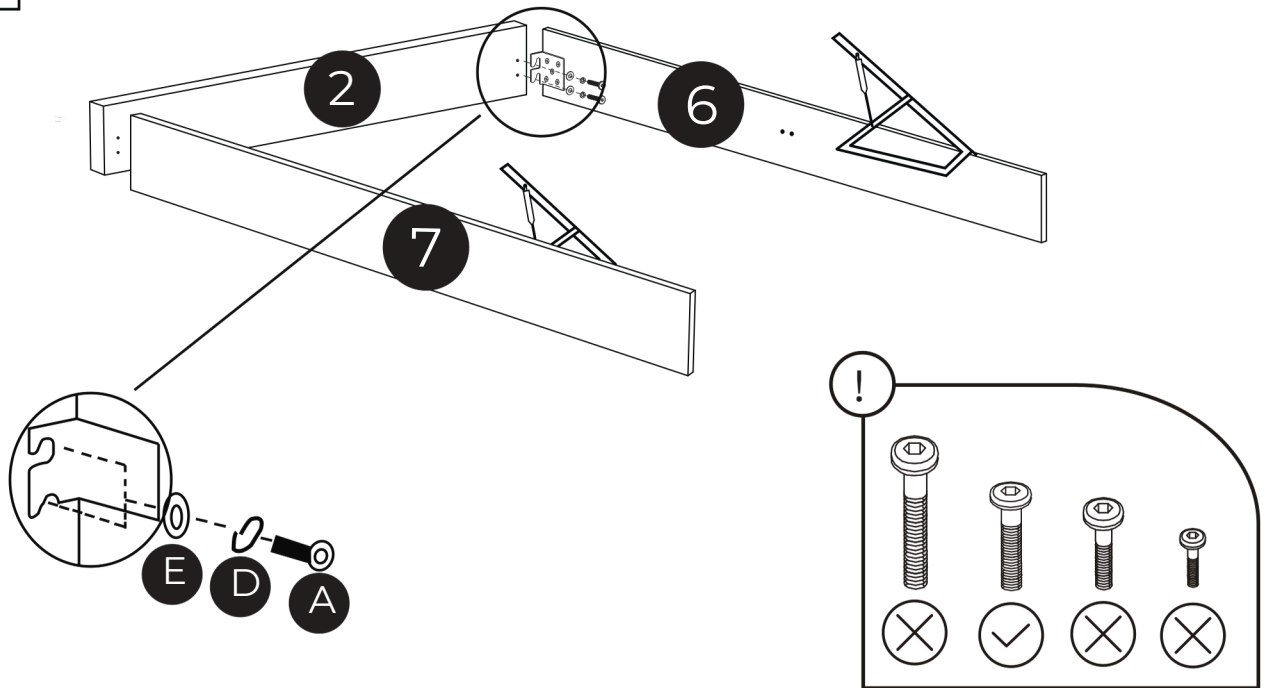

STEP 7

! stick the felt(M) on top of the bracket

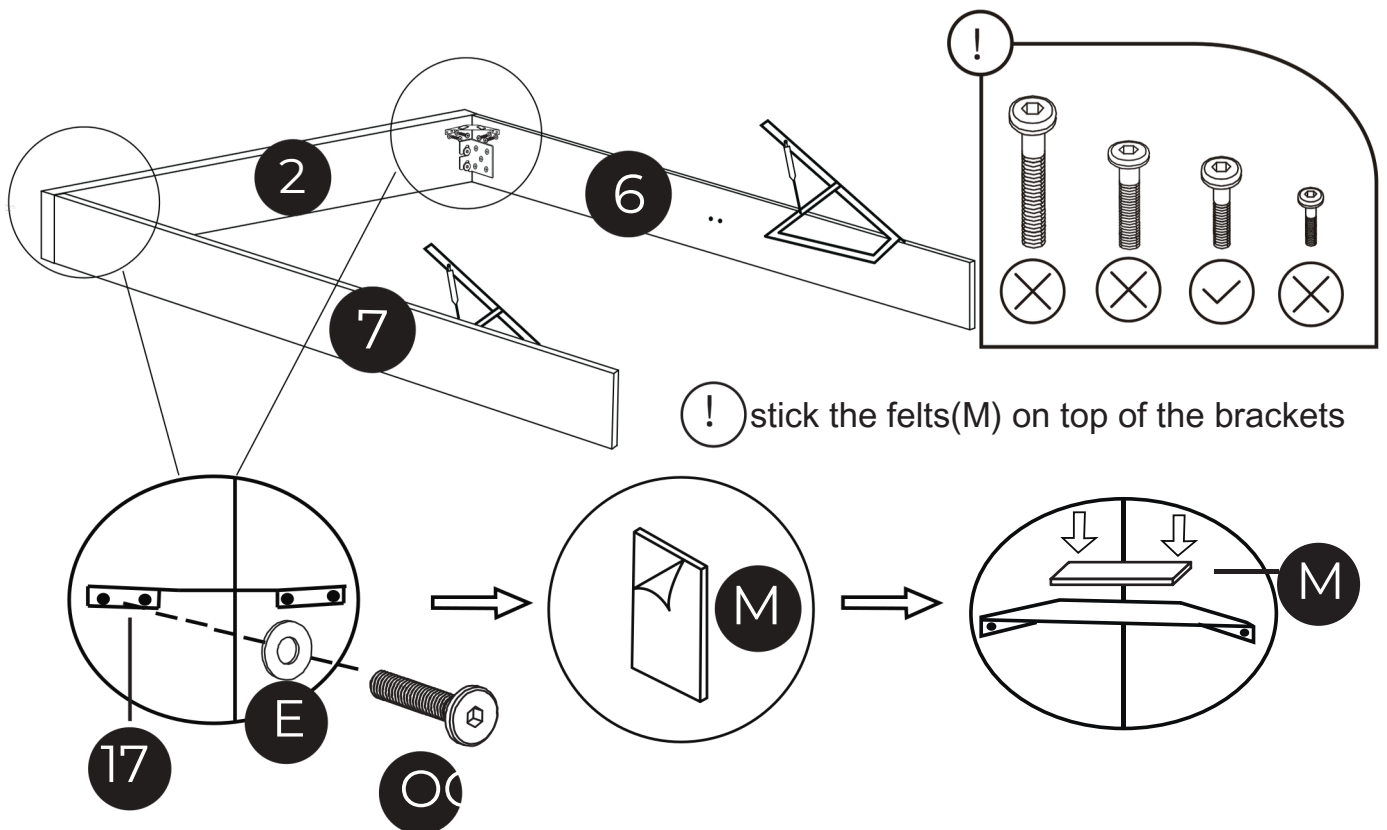

STEP 8

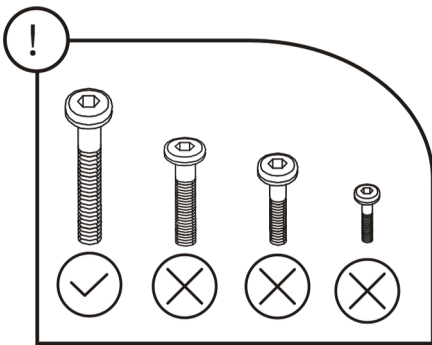

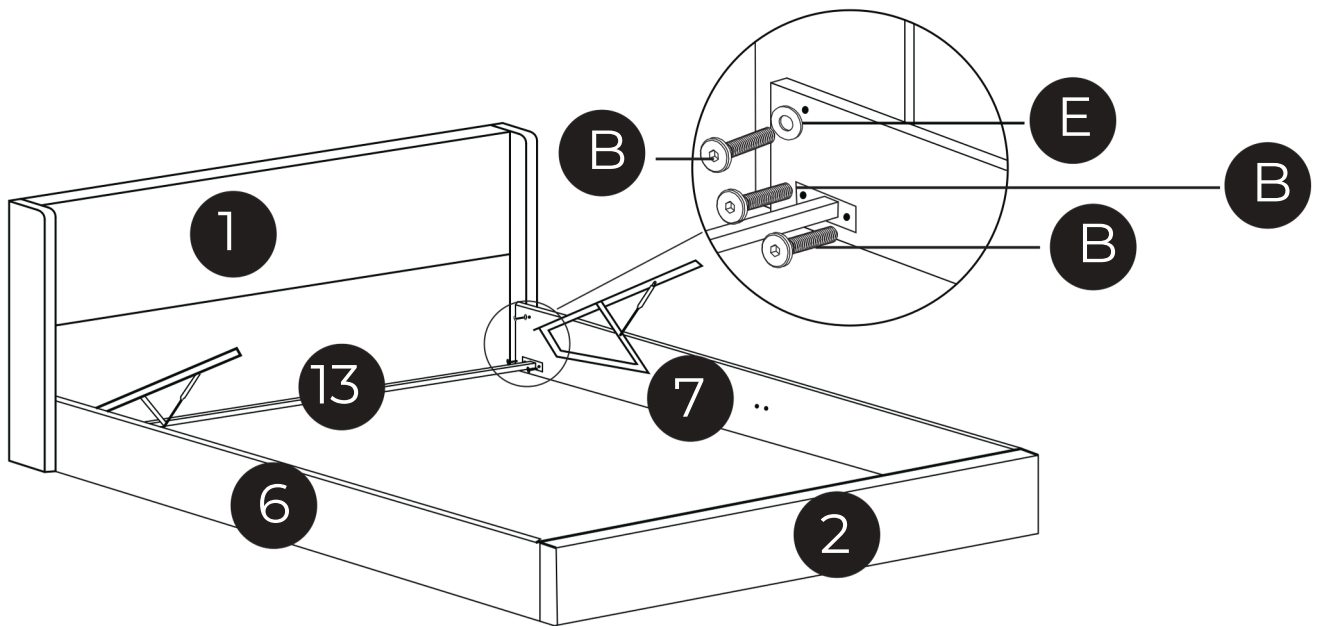

Step 8: Attach the side rails (6 and 7) to the footboard (2), using hardware E, D and A.

STEP 9

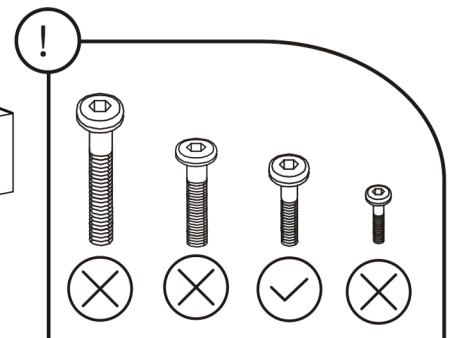

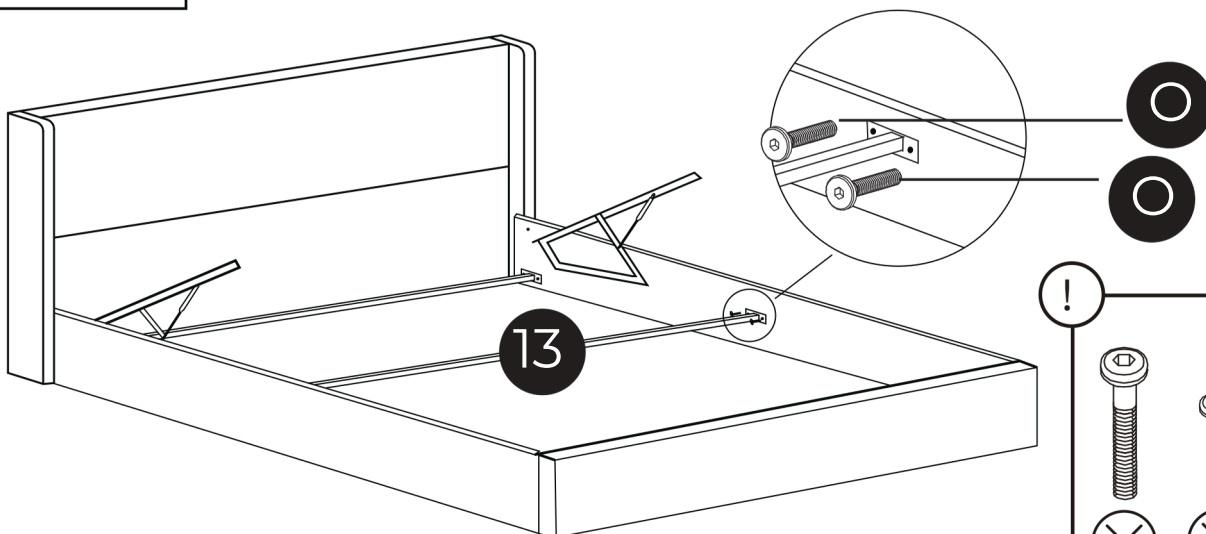

Step 9: Attach the corner brackets (17) to connect the side rails (6 and 7) to the footboard (2), using hardware E and O .

STEP 10

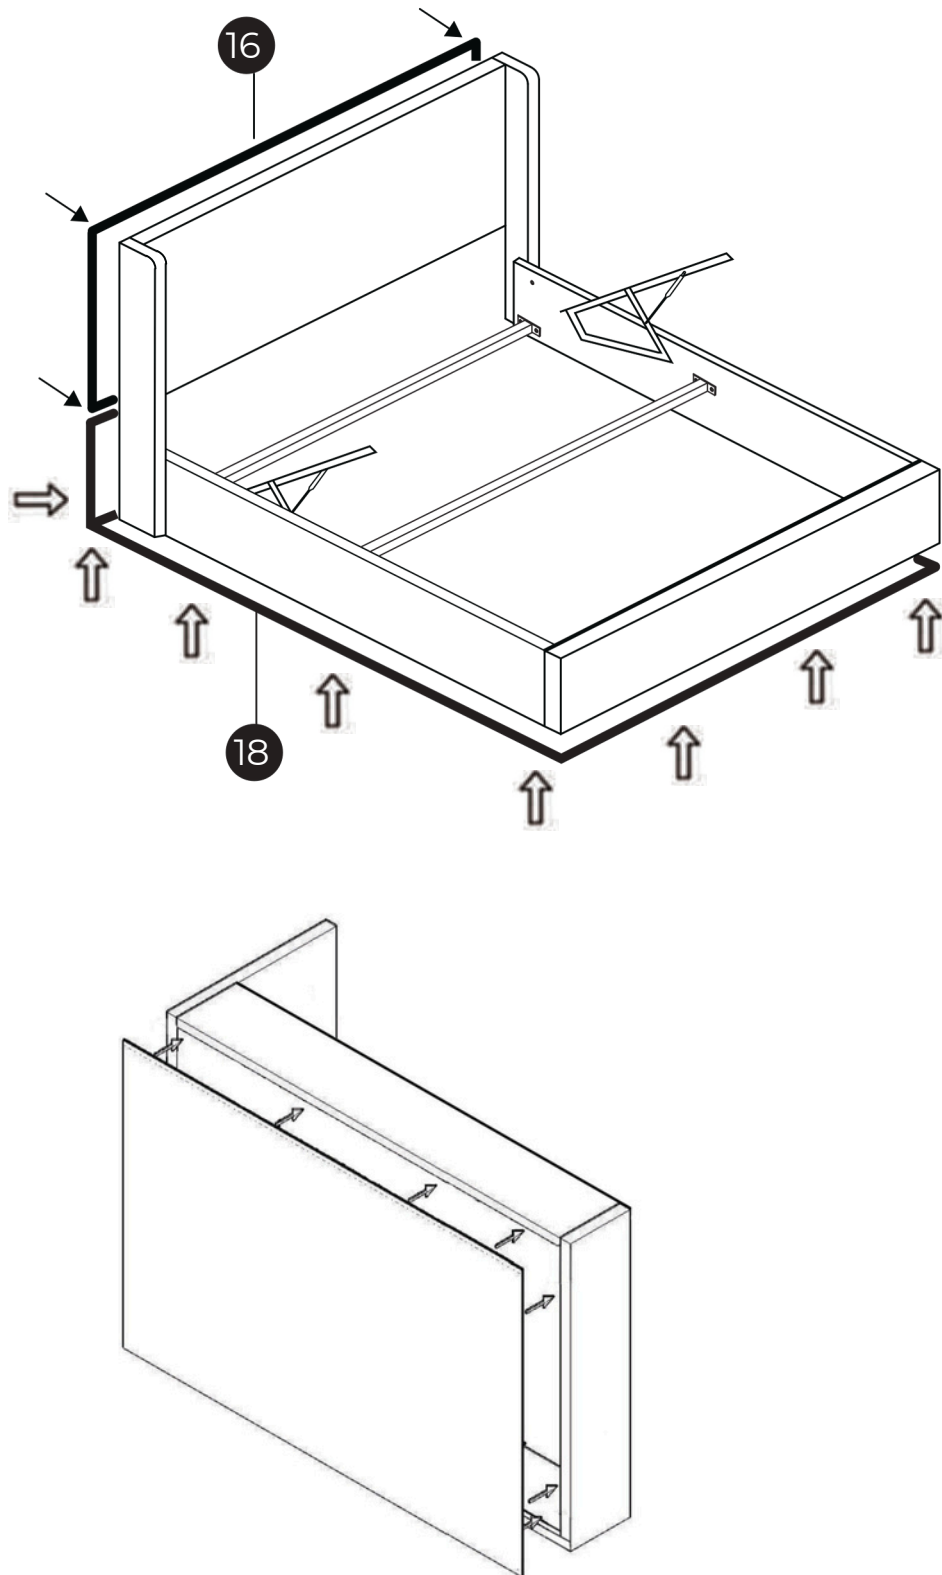

Step 10: Attach side rail connector (13) to the side rails (6 and 7) and headboard (1) using parts B and E.

STEP 11

Step 11: Attach the second side rail connector (13) to the centre of both side rails (6 and 7) using hardware O.

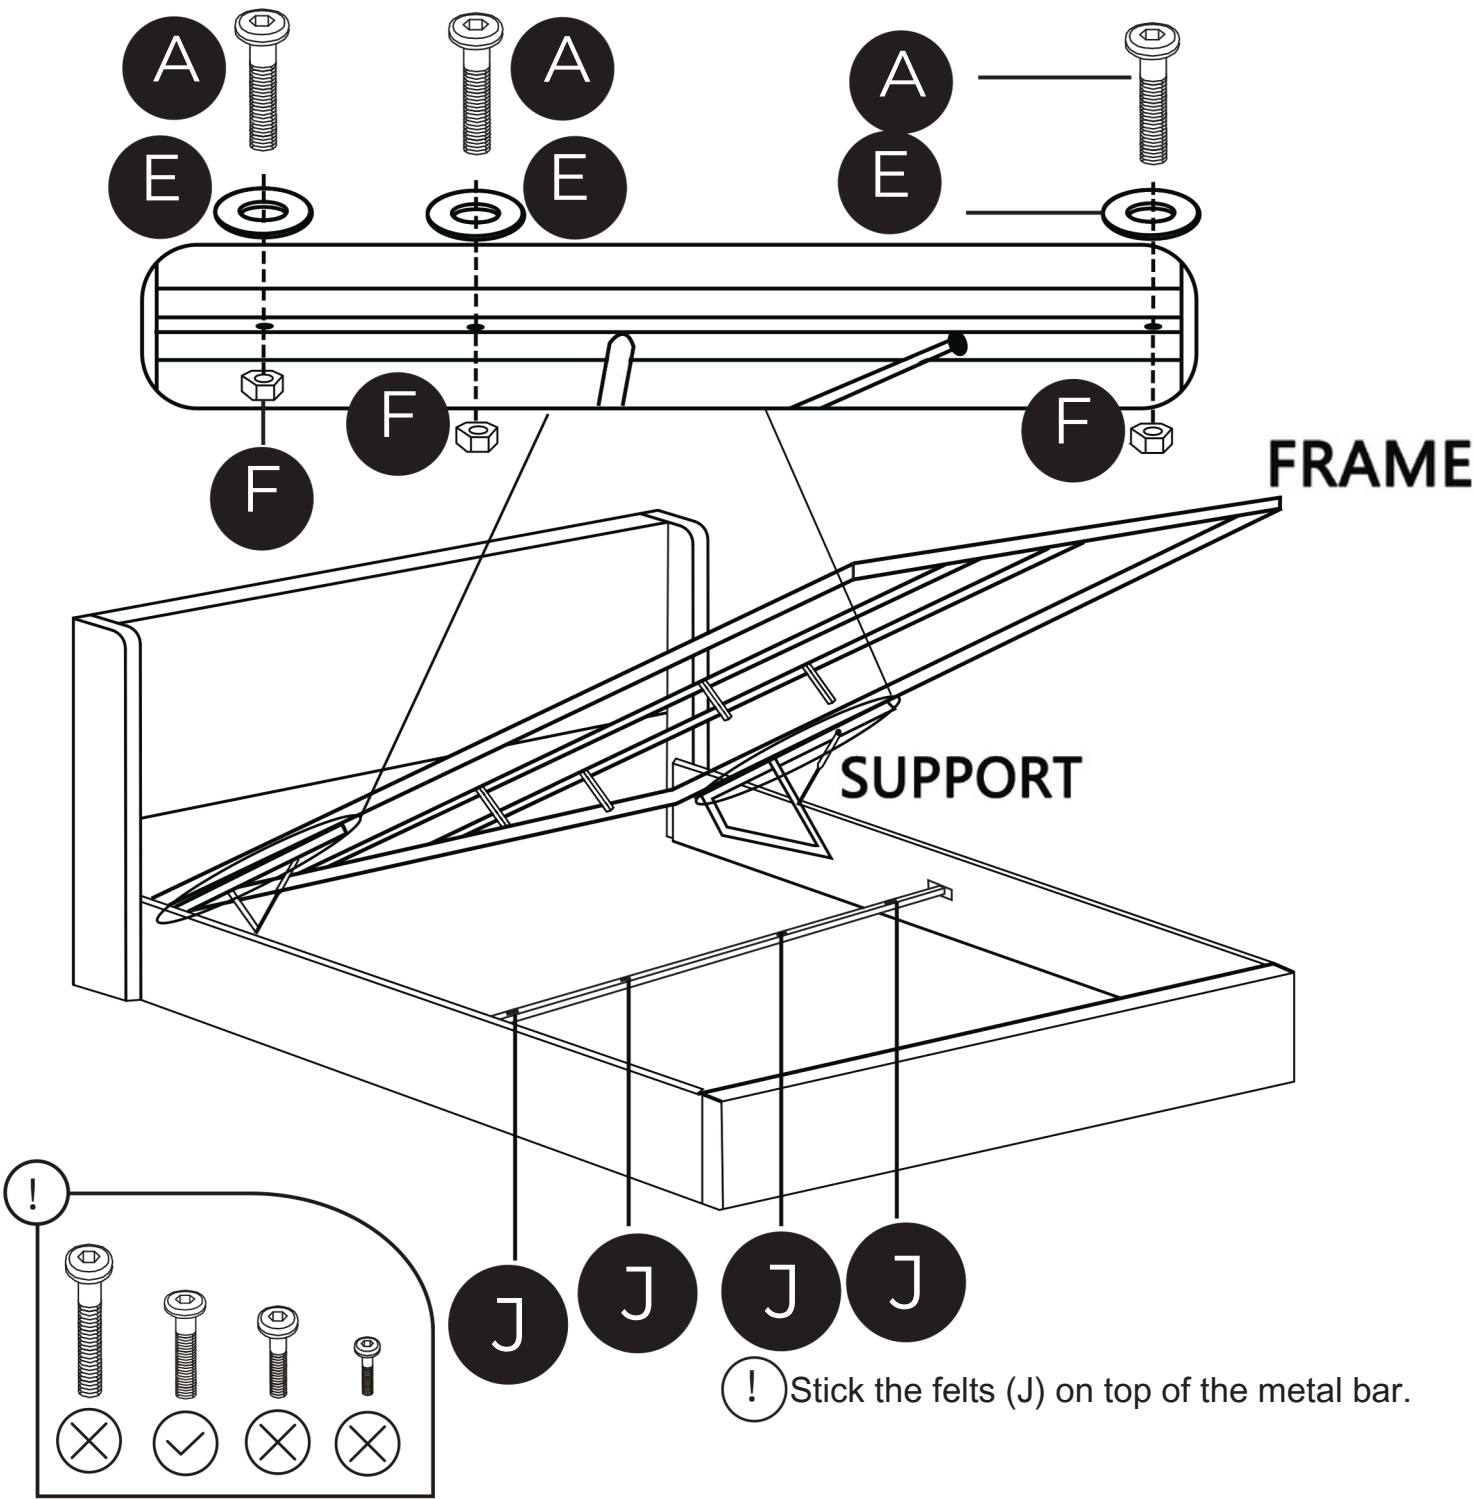

STEP 12

Step 12a : Attach the non-woven fabric (18) to the bed. Start from the bottom of the bed and go halfway behind the headboard.

Step 12b : Attach the non-woven fabric (16) to the back of the headboard.

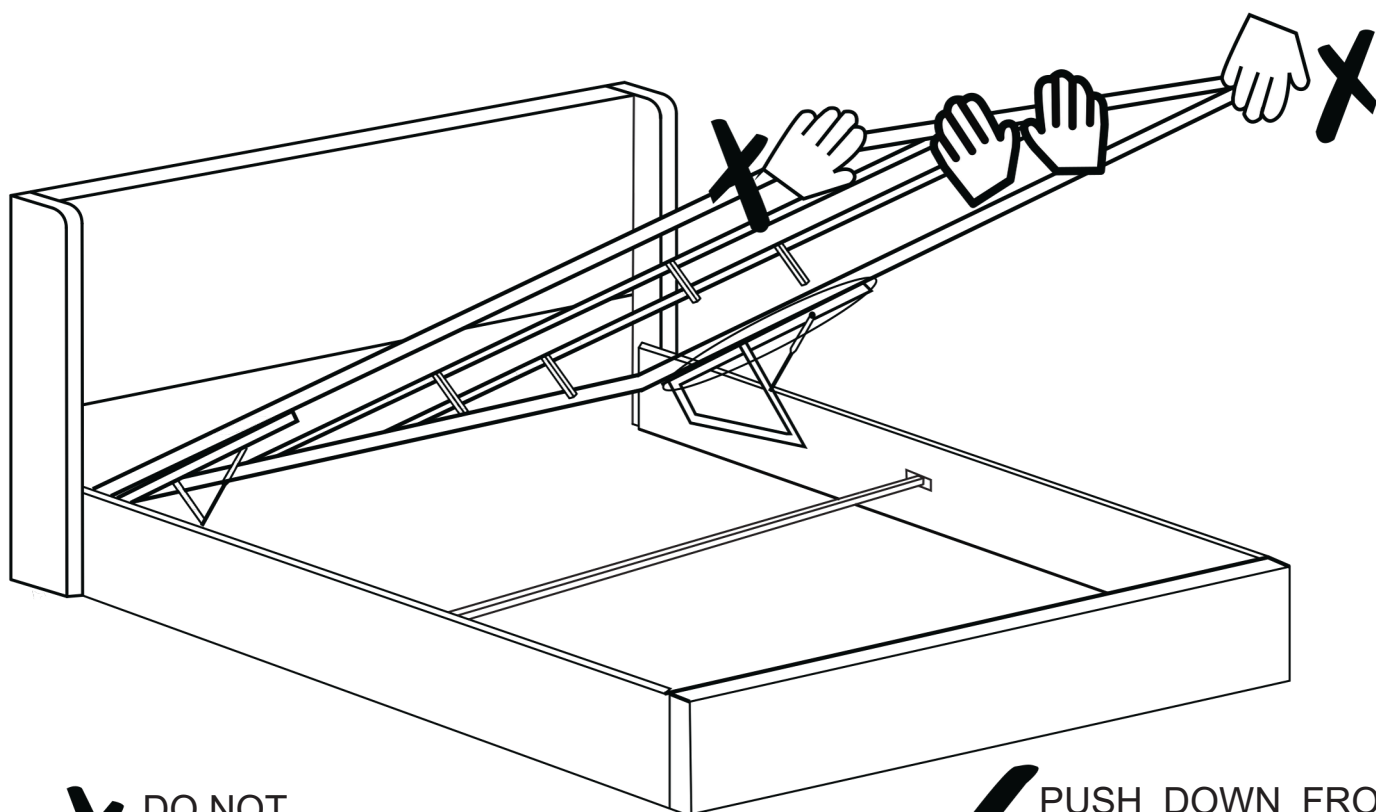

STEP 13

Step 13: Attach the frame that you built in the previous steps to the gas lift mechanism at a 45° angle (meaning it should be slanted as shown in the picture) using hardware A, E and F.

STEP14

ONCE THE MATTRESS IS ON TOP, YOU CAN
OPEN & CLOSE THE BED SAFELY

X DO NOT
PUSH DOWN ON ONE
OR EITHER SIDE

✓ PUSH DOWN FROM
THE MIDDLE USING
BOTH HANDS

Step 14:

Once all the nuts and bolts are tightened firmly, the first time you close the lifting mechanism, push down with extra pressure to force open the seals on the pistons.

This will feel like a lot of pressure, so be firm and it will close!

NOTE: The gaslift function works when you have a mattress on it. If you don't have a mattress on it, there is a possibility it will not stay down.

STEP15

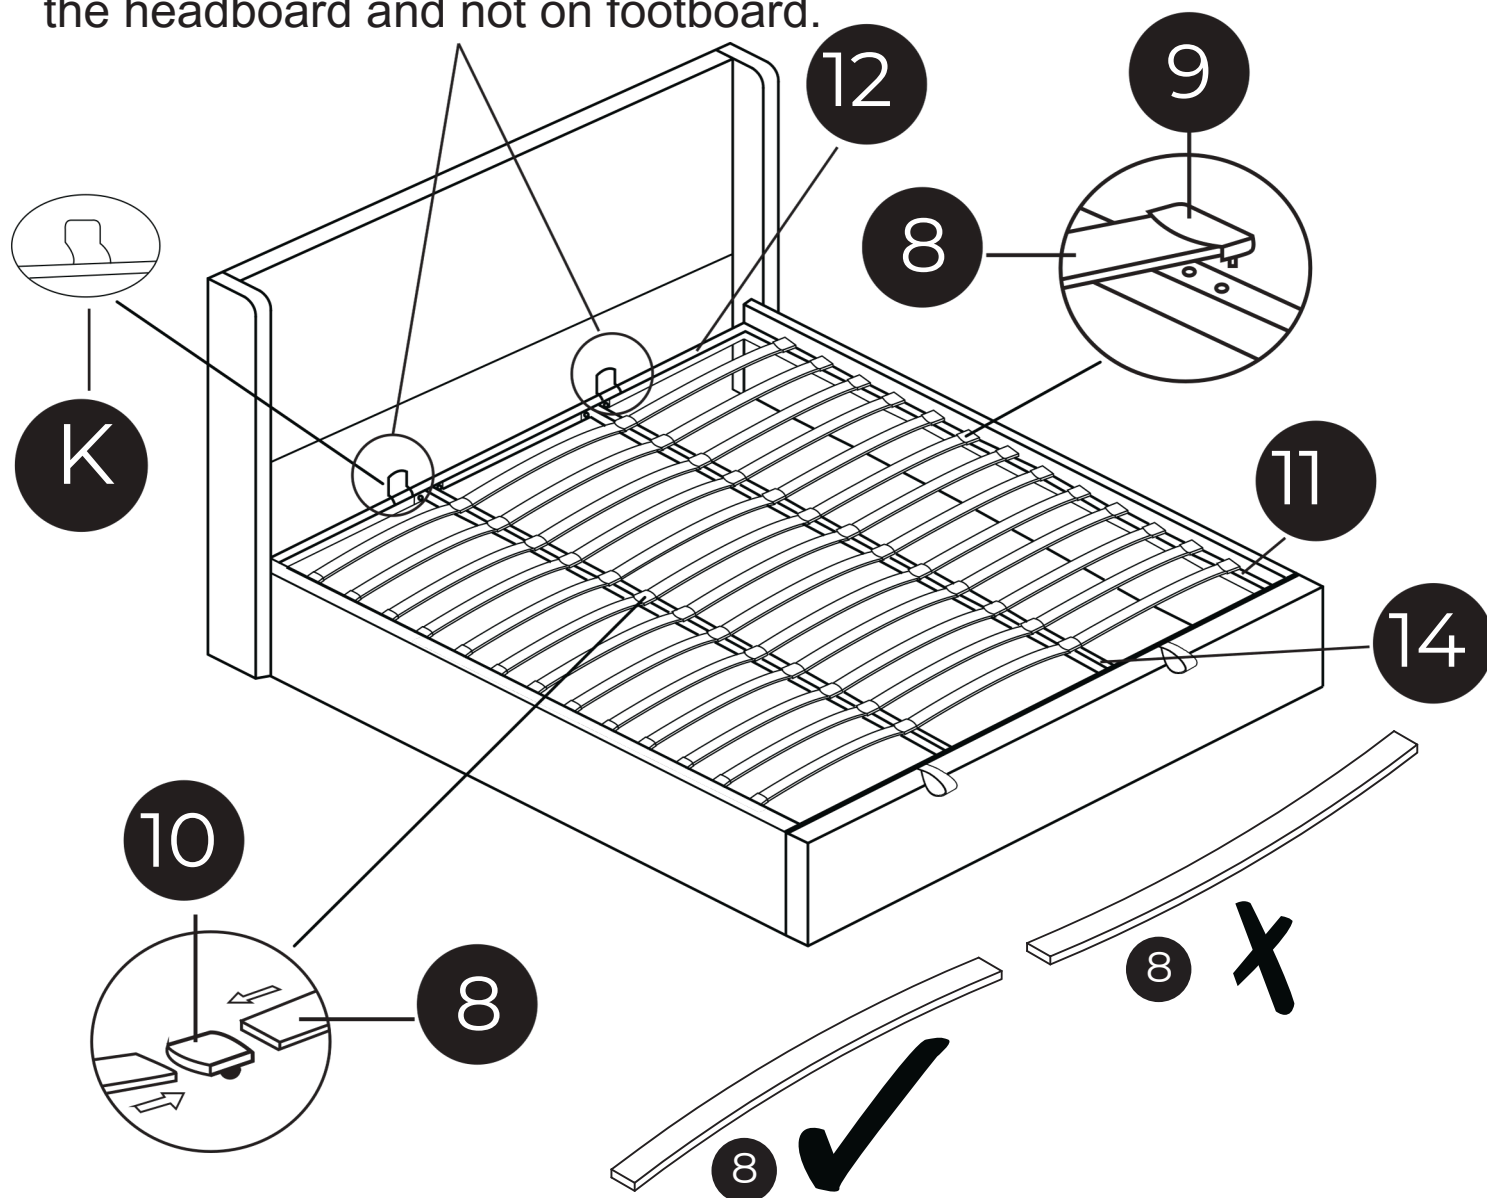

TURN

×2 HOLD

Step 15: Attach the gas lift ribbons (L) to the metal frame (12) using parts A,E and F. Use part I to hold bolts F in place and use part H(allen key) to tighten the screws.

STEP16

Make sure the stoppers are on the side of the headboard and not on footboard.

Step 16(a): Attach the slats (8) to the plastic clips and insert them into the holes of the metal bars (11 and 14). Clips open from both sides (10) will be attached to the middle bar (14), and clips open from one side (9) will be attached to the side bars (11).

Step 16(b): Attach the mattress stoppers part K to part 12.

NOTE: Ensure the slats are curved upwards when attaching them to the clips. Incorrect attachment may lead to breakage.

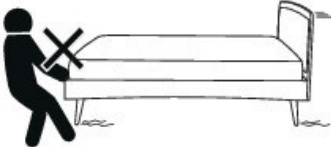

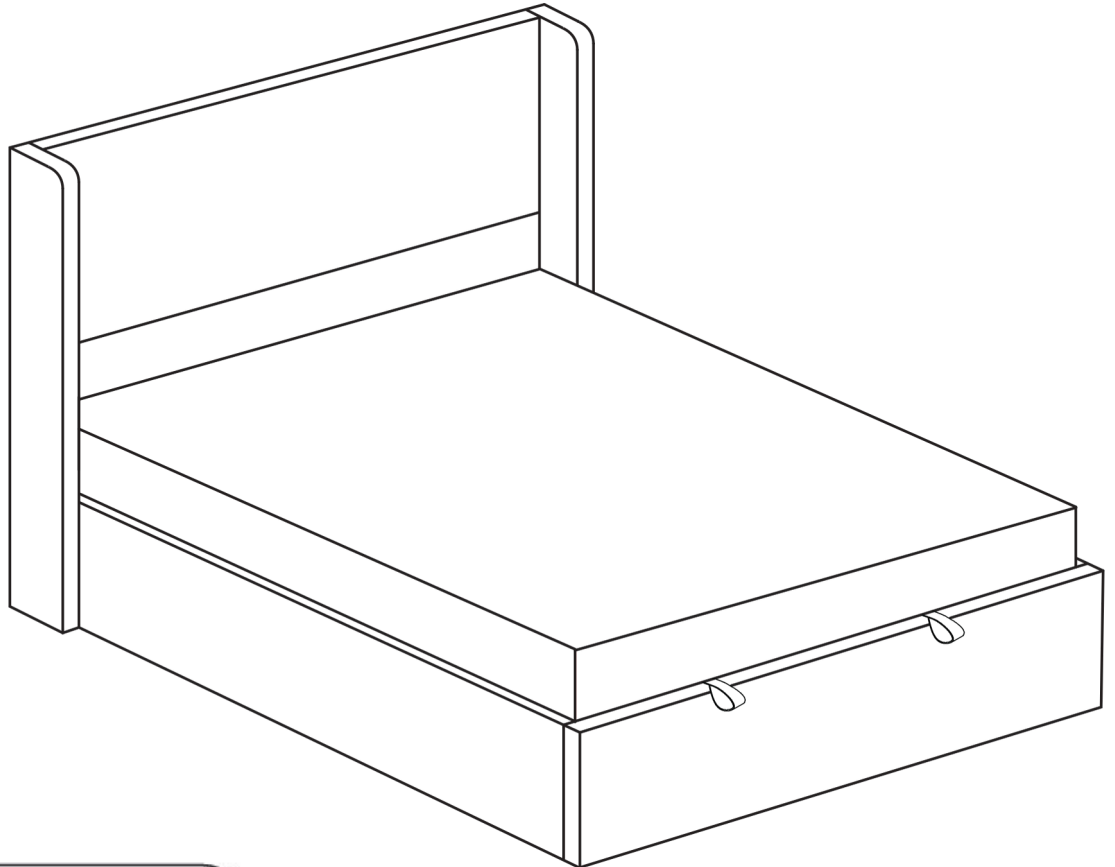

STEP17

SAFETY WARNING: Please do not allow children or pets inside the storage area.

SAFETY WARNING: Please be careful when lifting the bed frame. Only lift with the mattress on top. To be operated by adults only.

DO NOT DRAG BED, ALWAYS LIFT WITH AT LEAST TWO PEOPLE BEFORE MOVING

SAFETY WARNING: Please do not press down on the mattress when the bed frame is in the lift up position. The bed frame top must only be closed by using both center handles.
