

ABOUT CHOOSE SIZE

Curtain Width

- We suggest that you choose the width 1.5-2 times wider than the length of curtain rod to purchase a folding effect.
- $\text{Curtain Width} = \text{Rod Length} \times 1.5\text{-}2$ times.
- For example, if your curtain rod is 40 inches long, we suggest 60-80 inches width curtains to fit your rod.

Curtain Length

H1

Curtains that hang near the floor.
Please choose 84"-90" Length

H2

Curtains that just touch the floor.
Please choose 96" Length

H3

Curtains that pool slightly on the floor for a luxurious puddle.
Please choose 100"-120" Length
