

Installation Steps

Please put together square sticks No. 5 and No. 6.

Put 3 round columns at the edge of the tent.

The groove on the square wooden stick at the bottom shall be aligned with the cylinder and tightened with the tightening screws.

The groove on the square wooden stick at the bottom shall be aligned with the cylinder and tightened with the tightening screws.

Connect the buttons behind the strong tent to fasten the tent.

After all the assembly is completed, put the two side cushions in the shape of the tent!

Installation instructions

Tent components

01. Double sided cushion

02. Tent

03. Screw*4

04. Round column (65cm X * 1, 55cm * 2)

05. Square wooden stick (69.5 cm * 2 pieces)

06. Square wooden stick (69.5 cm * 2 pieces)

* The direction of the groove at the lower end of the square wooden stick is different. Please pay attention to it during assembly.

* **MATTERS NEEDING ATTENTION**

The material characteristics of log columns may have rough ending parts, so it is safer to polish the surface with sandpaper before assembly to make it smooth.
