6. Ne couvrez jamais l'éclairage lorsque l'alimentation est connectée.

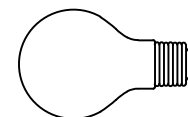

The wiring connection of luminaire and outlet box

There are two main wires. One is in black and the other is in white. Be sure to connect, the black wire (positive electrode) to the outlet box wire (positive electrode), the white wire (negative electrode) to the outlet box wire (negative electrode) and the copper fixture ground wire to the supply ground wire with wire connectors.

Ten (10) 13-watt (E26) LED bulbs (not included)

One 3-watt (G9) LED bulb (not included)

# INSTRUCTION

3/17/2022

- 4A. Lock the crossbar on the junction box of the ceiling by using 2 pcs of 5/32 screws in the accessories bag.  
 4B. Connect the wires. The black wire is the hot /positive ( + ) wire.  
 The white wire is the negative ( - ) wire.  
 4C. Cover the ceiling canopy and attach the screws to the canopy.

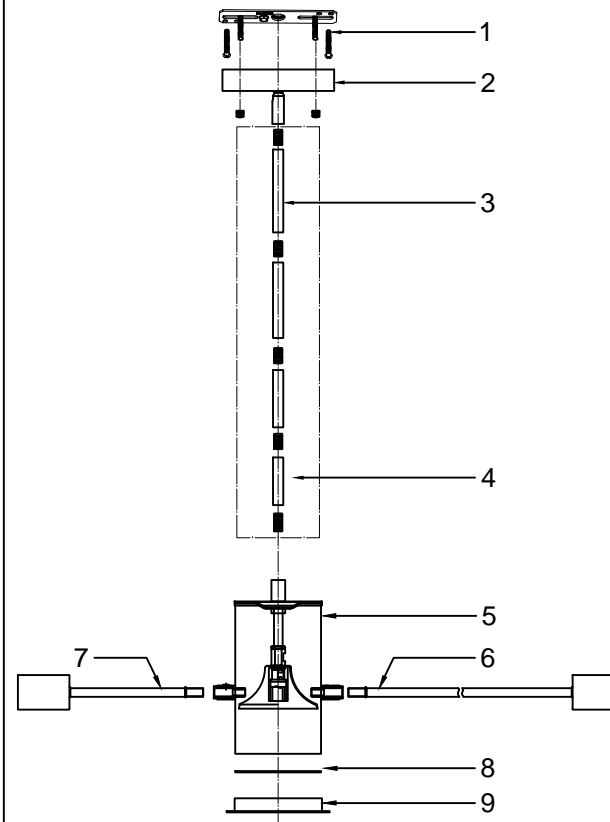

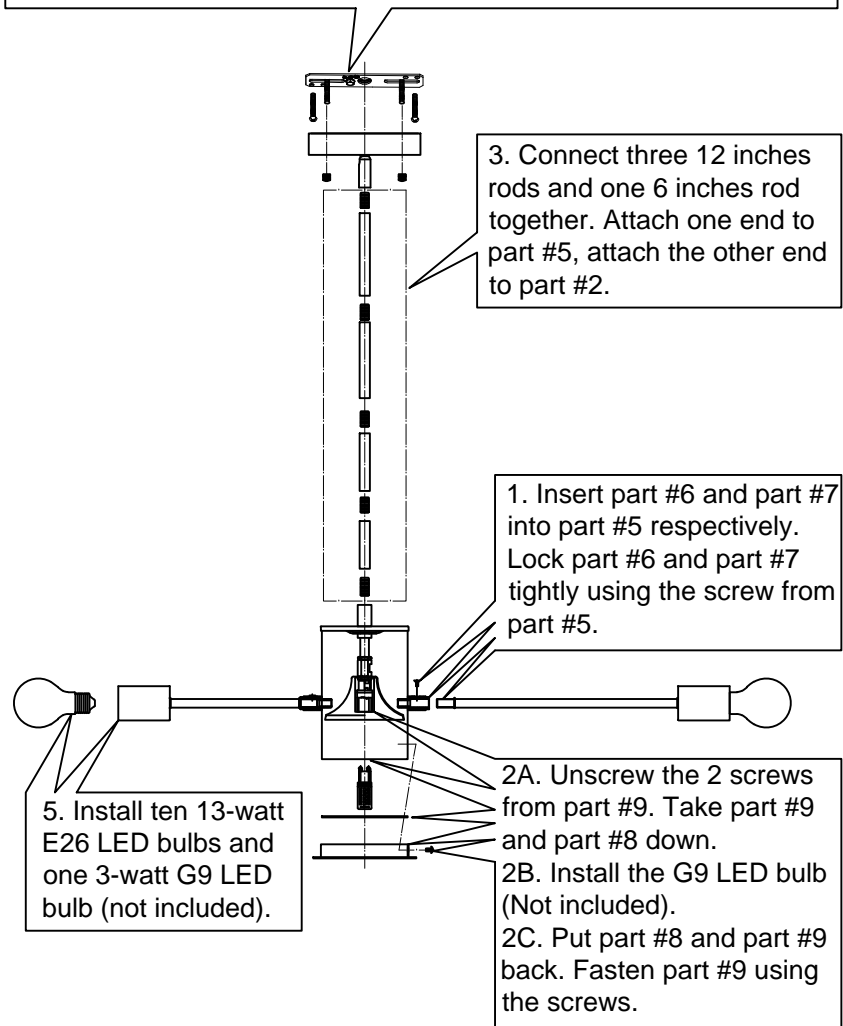

3. Connect three 12 inches rods and one 6 inches rod together. Attach one end to part #5, attach the other end to part #2.

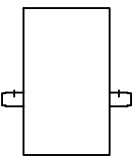

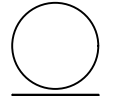

1. Insert part #6 and part #7 into part #5 respectively. Lock part #6 and part #7 tightly using the screw from part #5.

5. Install ten 13-watt E26 LED bulbs and one 3-watt G9 LED bulb (not included).

- 2A. Unscrew the 2 screws from part #9. Take part #9 and part #8 down.  
 2B. Install the G9 LED bulb (Not included).  
 2C. Put part #8 and part #9 back. Fasten part #9 using the screws.

Please note: The parts in this table are completely unassembled, for illustrative purpose. In the actual product that you receive, some parts are assembled and attached together.
