

# BI-HJ813-296US

## Specifications

Color: White  
Material: Iron and Silicon Steel  
Process: Spraying  
Shape: Rectangular  
Model: FY10-3000VA  
Mounting Type: Floor Standing or Hook-mounted  
Plug Type: US Standard  
Power Source: Corded Electric  
Input Voltage: AC100-110V  
Output Voltage: AC220-240V  
Rated Power: 3000VA  
Rated Frequency: 50Hz-60Hz  
Power Cord Length: 1.2m/3.94ft  
Product Size: 16\*9.7\*20cm/6.3\*3.81\*7.87 in  
Package Size: 28\*20\*14cm/11.02\*7.87\*5.51in  
Gross Weight: 7kg/15.43lbs  
Net Weight: 6.6kg/14.55lbs

## Package Included

1\*Voltage Converter

## Application

It can be used in most household appliances with power below 2700W, such as coffee maker, electric kettle, rice cooker, juicer, air purifier, toilet seat, refrigerator, electric toothbrush, massager, yogurt maker, etc.

## Notes

1. We recommend it for appliances up to 2700W to prevent damage from the transformer itself and the appliance being used.
2. If the supply voltage converter transformer fails unexpectedly, then it probably means that the fuse needs to be replaced.
3. Please select the correct input voltage before use and the connected appliance must match the correct voltage on the socket.
4. Please allow the slight color difference caused by the shooting light and 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
