

Rolling shutter door assembly instructions

Step1

Fix the guide groove with screws

Step2

Notice the installation direction

Step3

Keep this direction up

Keep this direction up

Step4

There are two ways to install springs, both of which can be done, Tighten the spring in the opposite direction to the upward direction of the roller blind

Step5

Tighten the direction of the spring

Please pay attention to safety during installation!!

The direction in which the door curtain rises

Step6

This type of spring has a fixed screw on the outer side of the disc, which is used to tighten the spring in advance. After the door curtain and disc are installed, loosen this fixed screw to start the spring working.

1. After installation, close the door and use a hole opener to create a locking hole on the side of the guide groove, The aperture is approximately 0.8 to 1 inch.
2. If there is a protective cover, it can be installed after the door is fully installed.
