

ASSEMBLY INSTRUCTIONS

ECLIPSE PENDANT LIGHT

1. Carefully remove all parts from the packaging and check the included parts list before installation.

2. Attach the mounting bracket (A) to the ceiling junction box using the provided bracket screws (B).

3. Press and hold the cable adjustment button while sliding the cable to adjust the height. Release the button to lock the cable in place.

The height can be adjusted before or after installation.

4. Connect the electrical wires according to the wiring instructions. Secure the LED light module (D) to the mounting bracket (A) using the fixture screws (C).

5. Install the glass shade (E) onto the LED light module (D). Secure it with the shade retainer (F) before use.

6. Restore power and enjoy your new pendant light!

IMPORTANT SAFETY INSTRUCTIONS

This lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.

INSTRUCCIONES DE SEGURIDAD IMPORTANTES

Esta lámpara tiene un enchufe polarizado (una de las clavijas es más ancha que la otra) como medida de seguridad para reducir el riesgo de descarga eléctrica. Este enchufe solo encaja en una toma de corriente polarizada de una sola manera. Si el enchufe no entra completamente en la toma, gírelo. Si aun así no encaja, contacte con un electricista cualificado. No lo utilice nunca con un cable de extensión a menos que el enchufe pueda insertarse completamente. No modifique el enchufe.
