

Description

Crafted from high-quality materials, the foldable wall-mounted seat is both sturdy and durable, capable of supporting up to 440.92 lbs. Its sleek and modern design features a comfortable seat, making it a great addition to any room where extra seating is needed. Upgrade your living space with our foldable wall-mounted seat today and enjoy the convenience and functionality it brings.

Key Features

Space Saving: This 90° foldable wall-mounted seat is great for tight spaces, as it can be easily stored away when not in use and the folded thickness is only 4.95cm/1.95inch, allowing it to be hidden behind the door.

Ergonomic Design: Adopting an ergonomic arched surface design that follows the natural curves of the body, reducing pressure points and providing maximum comfort and support.

Solid Structure: It features a sturdy nylon-reinforced base, providing extra support for users, making it a safe and reliable option.

High-quality Material: This foldable wall-mounted seat made with urea-formaldehyde materials is known for its high surface hardness and its resistance to moisture, heat, and chemicals, making it an ideal choice for furniture intended for long-term use. It can withstand daily wear and tear and is not easily deformable.

Strong Load Capacity: This foldable wall-mounted seat with a strong weight-bearing capacity of 440 lbs can accommodate multiple body shapes. It's a unique advantage for customers looking for stability and sustainability.

Comfortable Design: The folding seat features a large panel design that maximizes stress distribution, resulting in a more comfortable sitting experience.

Easy to Clean: The chair's surface is made of a high-quality, **water-resistant** material, making it perfect for use in wet environments. In addition, the chair's surface is smooth and **non-porous**, making it easy to wipe down and sanitize, ensuring maximum hygiene and cleanliness. You can simply use a damp cloth or mild cleaning solution to clean the chair, and it will look as good as new.

Fresh and Elegant Fashion: The seat's minimalist aesthetic adds a touch of modern sophistication to any space and the black color options also allow it to adapt to various color schemes and interior design themes. The smooth edges also make the seat more visually appealing, giving it a sleek and modern look that complements any decor.

Easy Installation: Its structure is easy to assemble and comes with clear English instructions and all necessary accessories, making installation a breeze.

Details

Mounting Hole Sticker: The mounting hole distance sticker can assist in the installation and minimize unnecessary wall damage.

Rounded Corners: Round edges and corners provide a comfortable touch to avoid sharp corners bump injury.

Application

The 440-pound load-bearing capacity of this folding shower seat is very important for the elderly, pregnant women, children and people with limited mobility. In addition to being used as a shower seat and footrest in the shower room, you can also rest in places where there is insufficient space such as corridors, delivery rooms, dressing rooms, entrances and exits. It's also a very high-level gift.

All Accessories for Assembly

Notes:

1. Lightweight concrete, solid bricks, and naturally dense stone are installable walls. Porous bricks, lime sand bricks, thin hollow walls, single board walls, and other medium to low load-bearing walls should be reinforced before installation. And the gypsum wall cannot be installed.
2. When drilling solid walls: If it is found that the wall material is loose and the bearing capacity is not strong, or if the screws are easily tightened during installation, please confirm the strength of the wall again. If there are any problems, please change the installation position or reinforce it. You can pour cement into the wall and wait for it to solidify before drilling for installation.
3. The installation height of products above the ground shall be based on the actual use of the user.
4. It is normal that the expansion screw will blow up after the force is applied.
5. Please read the English manual completely before installing. And pay particular attention to the safety instructions included.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement and make sure you do not mind before ordering.
