

PILLAR AND WALL FLOATING SHELVES

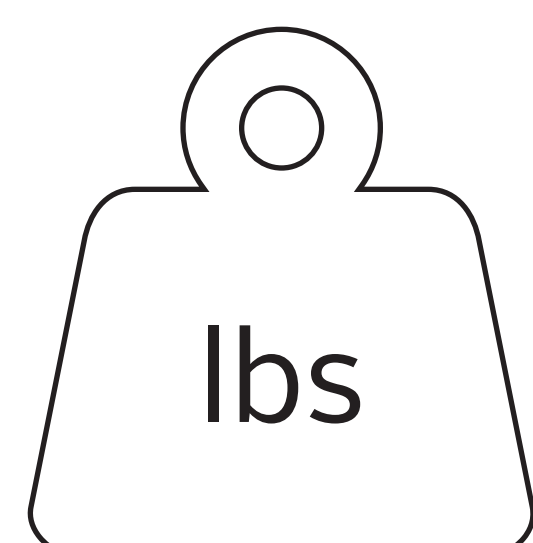

The Double Layer Shelf Pillar Mount is a revolutionary storage solution designed with innovative features for convenience and versatility. With its SLOTGRIP TECHNOLOGY, this mount provides a hassle-free, no-drill installation. The rubber and polymer padding ensure a secure grip without leaving any marks, making it ideal for all types of pillars and posts.

This multiuse mount does not compromise the structural integrity of columns and it is crafted with a heavy-duty polymer strap boasting a remarkable break strength of 4500lbs. With its sleek black finish, this monitor mount combines style with strength. Equip your upscale home or contemporary workspace with the most straightforward, drill-free shelf mounting solution on the market.
