**Brand:** Hooker Furniture

**Product Description:** The stylized quatrefoil shape of the Beaumont End Table, combined with the unique galvanized metal Pecos finish, will be a conversation starter when you entertain guests. Eclectic, chic and original.

**Collection Features:** Beaumont is a curated group of one-of-a-kind pieces, inspired by American antiques and the concept of upcycling - the process of giving new life to vintage items with updates such as refinishing or repurposing them for new and unique uses. With roots in traditional design, the collection offers an exquisite and eclectic remix of old and new, combining the look of seasoned antiques and refurbished treasures with the conveniences of newly constructed furniture.

**Additional Information:** Beaumont End Table

**Status:** Active

**Finish:** Pecos: a galvanized, weathered metal finish.

**Features:** Levelers  
Quatrefoil shape  
Pecos finish

**Material:** Hardwoods and Aluminum Sheet

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood

products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
