Style: Traditional

Bed Size: California King

Finish: Medium Wood

Brand: Hooker Furniture

Product Description: A chevron veneer pattern inspired by a French antique gives a striking appearance to the Castella California King panel bed. Adding to the drama is the elaborately carved headboard, adorned with a grand interpretation of the recurring scroll motif. The final exquisite touch to this focal point piece is the rustic yet refined sun-bathed Antique Slate finish with a beautiful patina over Quartered Walnut, Maple and Ash Veneers. The mix of veneers creates character through variations of color tones in the wood, knots and striate. Includes headboard, footboard and rails.

Collection Features: Commanding attention in any space, the impressive scaling of the Castella Collection combines with classic design elements including scrolls, serpentine shapes, rope twist molding, acanthus leaf details and fleur-de-lis accents to create old world charm. Infused with emotion, the collection's exuberant scale and timeless motifs define its casually opulent style. Presented in an updated mid-tone brown finish with a beautiful patina, Castella offers Classic European design with an updated twist.

Status: New

Finish: Antique Slate: a mid-tone brown finish with a beautiful patina. Distressing includes sandblasting, drawknife, wormholes and stone.

Features: Includes headboard, footboard and rails
California King size
Traditional/Formal styling

Material: Pecan, Quartered Walnut, Quartered Black Walnut, Maple and Ash Veneers

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
