Assembly Instructions

⚠	“Please check all parts and hardware against the list before assembly. If any parts are missing or damaged, please contact us immediately.”

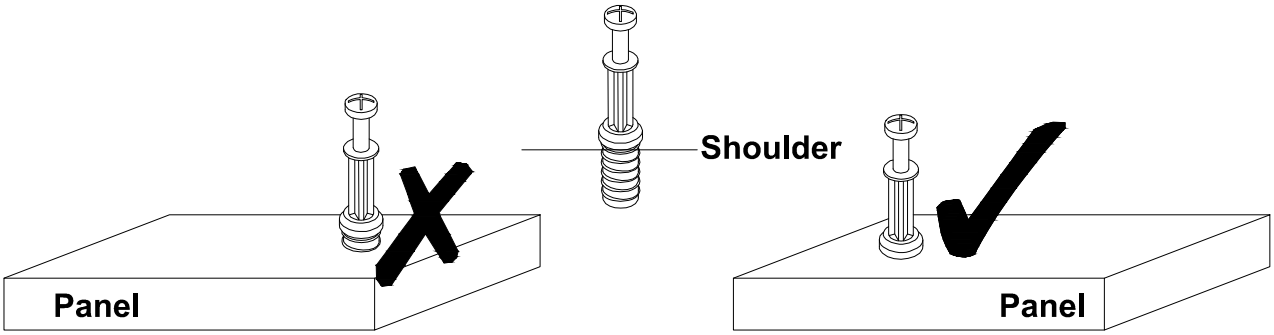

Before Assembly

1. Assembly requires two or more people to complete.
2. Using power tools will make the installation finish faster.

Tips Before Your Start:

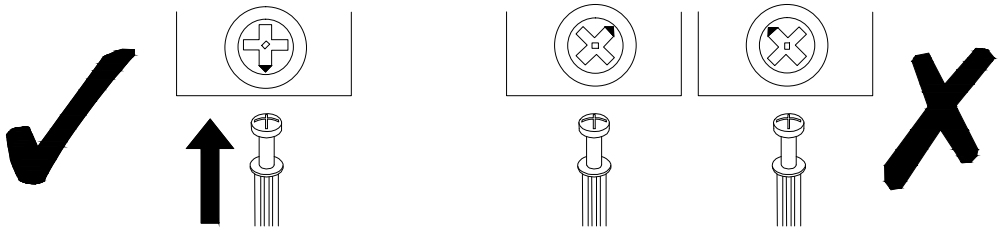

- Remove all wrapping material, including staples & packing straps before you start to assemble.
- DO NOT tighten all screws and bolts until the assembly is completely assembled.
- Keep all hardware parts out of reach of children.

QUICKFIT

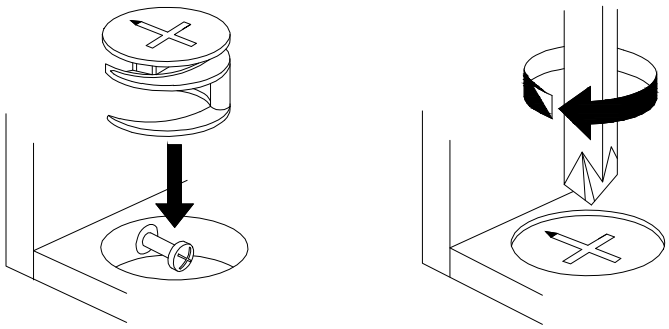

Tighten quickfit until shoulder is flush with panel. Do not overtighten or undertighten.

CAM LOCK

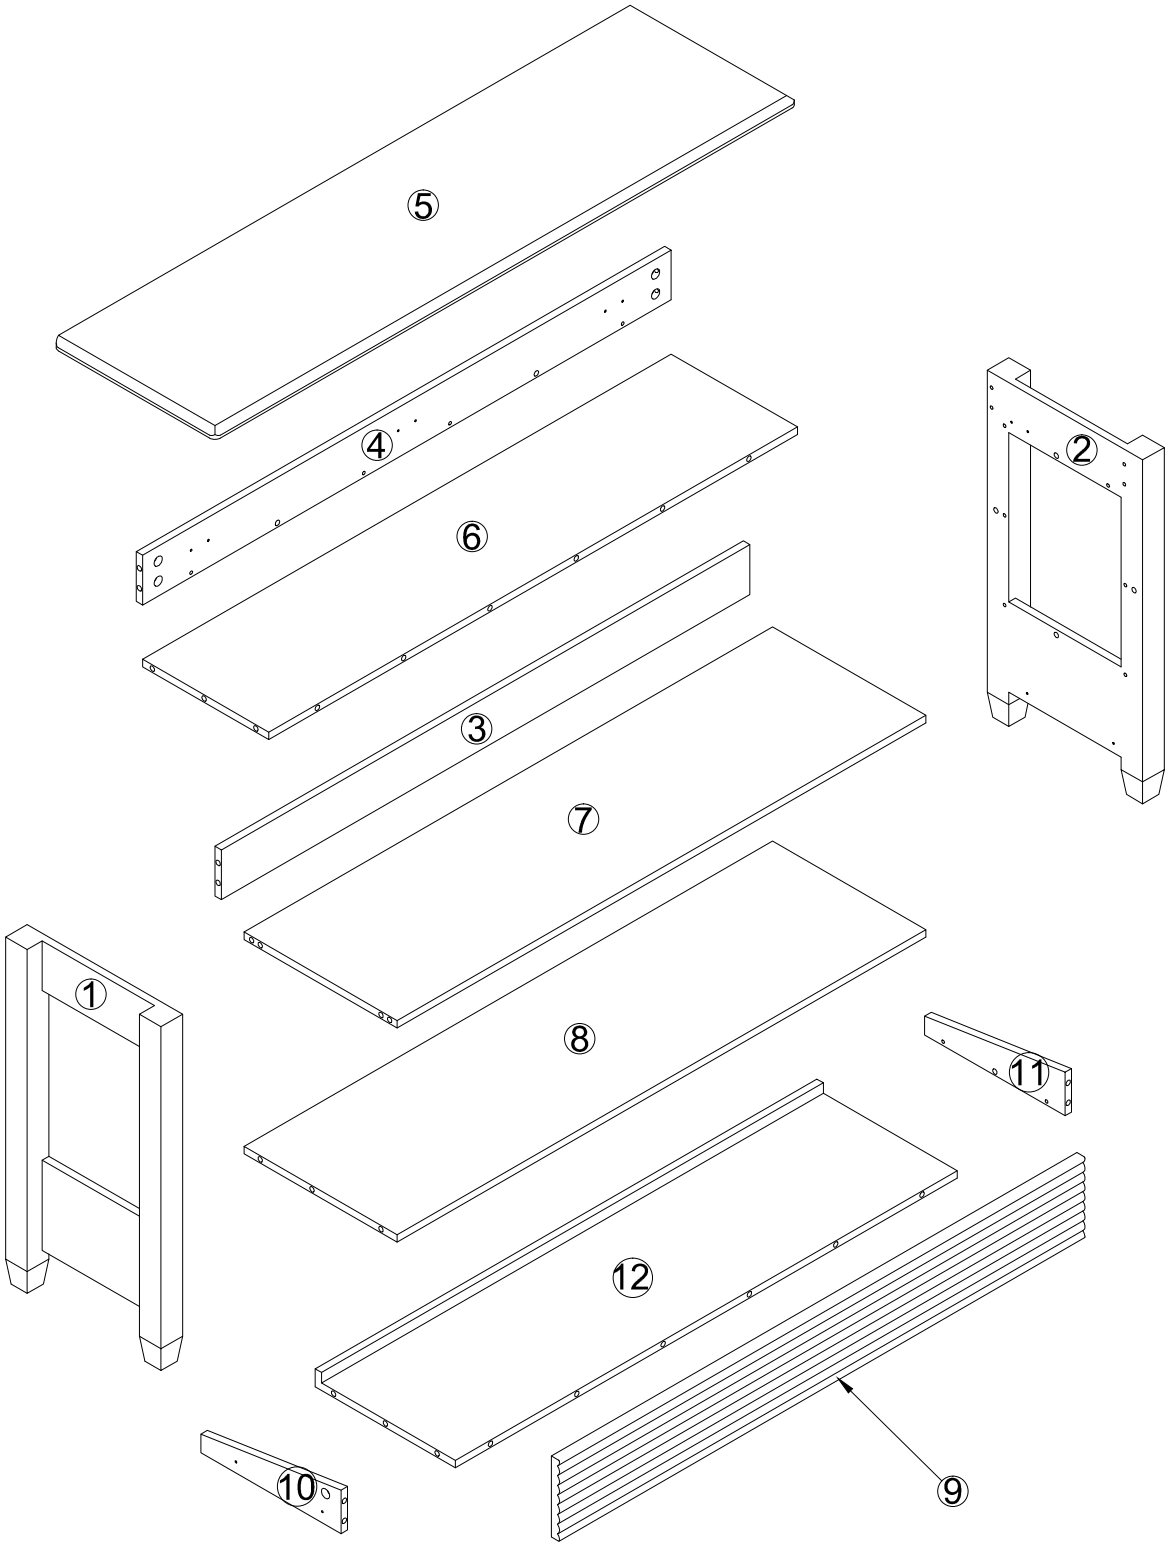

When fitting a cam lock, ensure the starting position is correct before inserting the connecting QUI CKFIT

"Ensure the arrow on the Cam Lock (B) is pointing towards the hole for the Cam Lock Dowel (A) before inserting."

Turn cam lock clockwise to tighten.

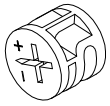

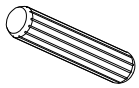

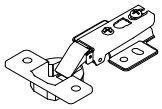

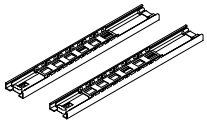

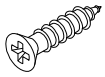

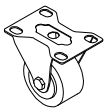

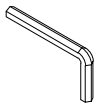

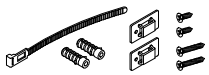

Product structure

⚠	“Assemble on a soft surface, such as a carpet or the original packaging box, to avoid scratches to the panels.”

The way to adjust the door by hinge.

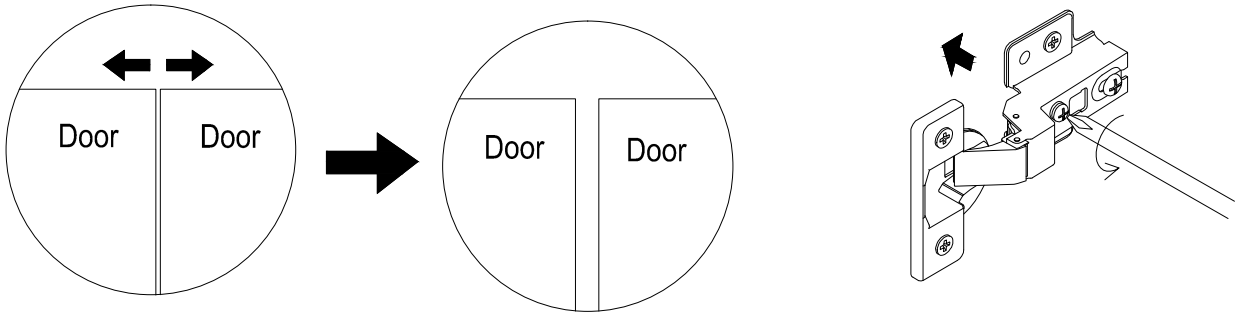

If the gap is too big between side panel and door or the door is over the edge of side panel, loose the back screw as shown, then move in the door with hinge and tighten the back screw as shown when the gap is just well.

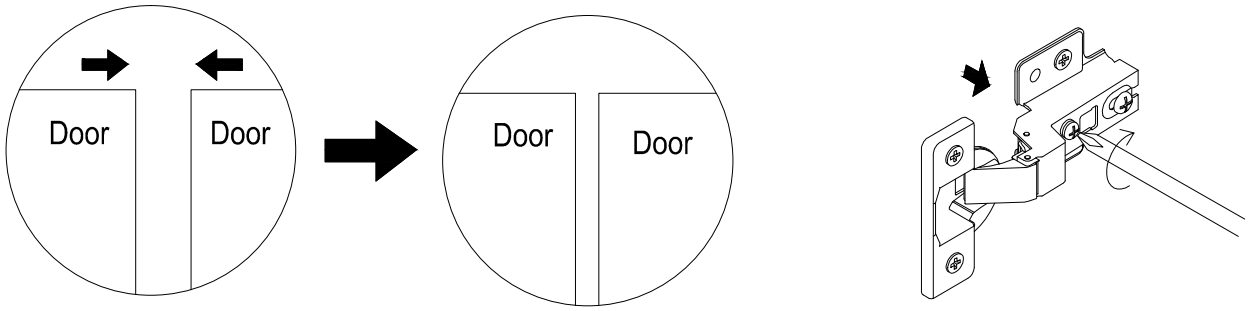

If the gap is too small between side panel and door or the door sank in side panel, loose the back screw as shown, then move out the door with hinge and tighten the back screw as shown when the gap is just well.

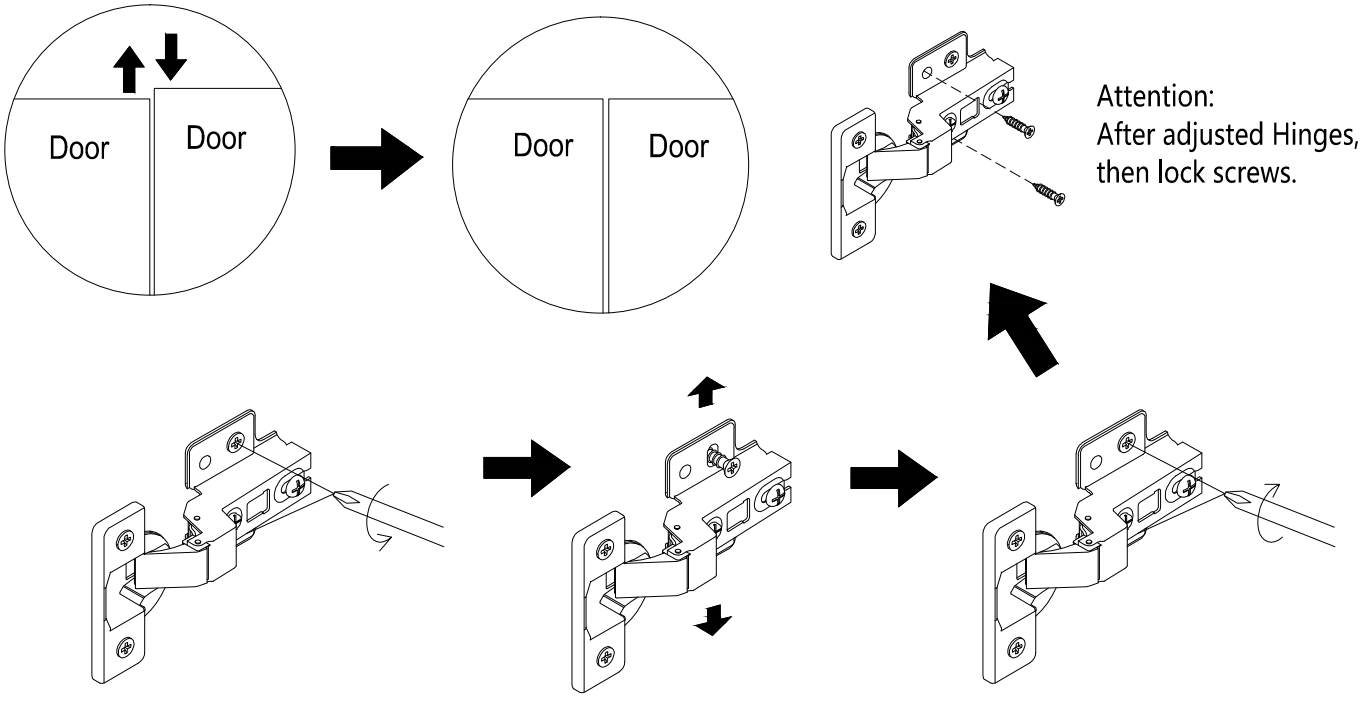

IMPORTANT: When making height or depth adjustments, please ensure you adjust **BOTH** the top and bottom hinges of the door simultaneously. Adjusting only one hinge will be ineffective and may cause stress on the hardware.

If the gap is too small between two doors, loose the front screw as shown.

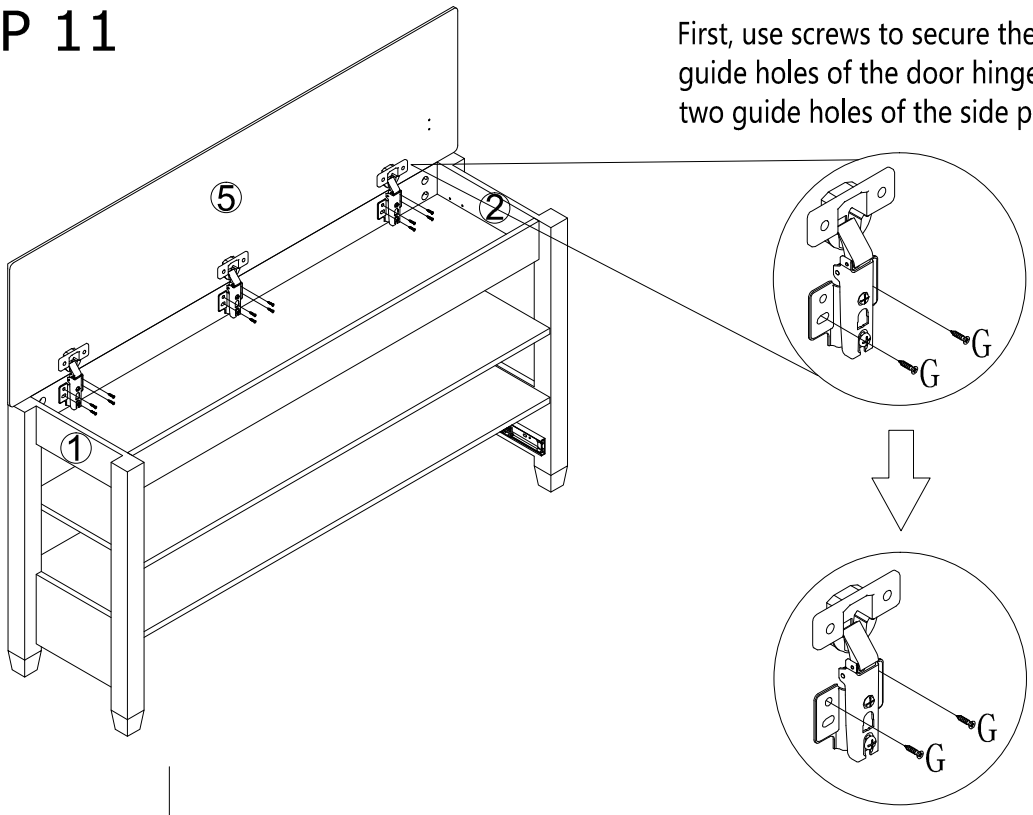

If the gap is too small between two doors, loose the front screw as shown.

If the doors are not in same level, losse the back screws on wing, then adjust the door up and down, tighten the screws when both doors are in same level.Screw front two screws on wing when all are in place.

STEP 11

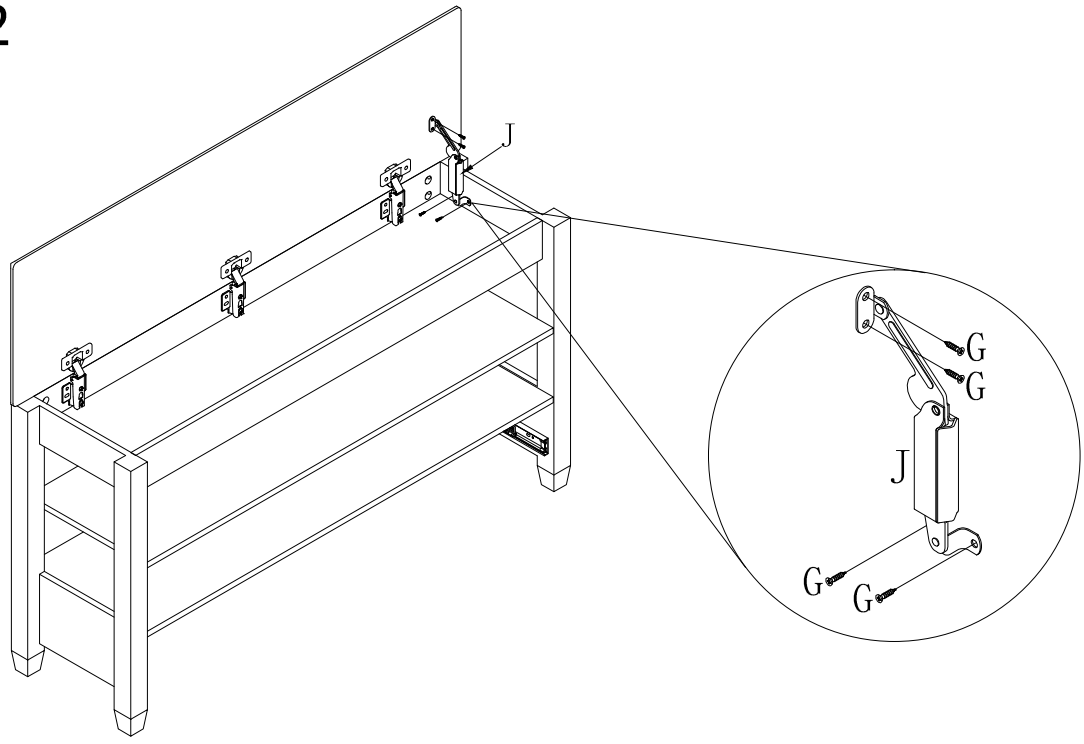

First, use screws to secure the two rear guide holes of the door hinge into the two guide holes of the side panel.
