Phillips Head Screwdriver

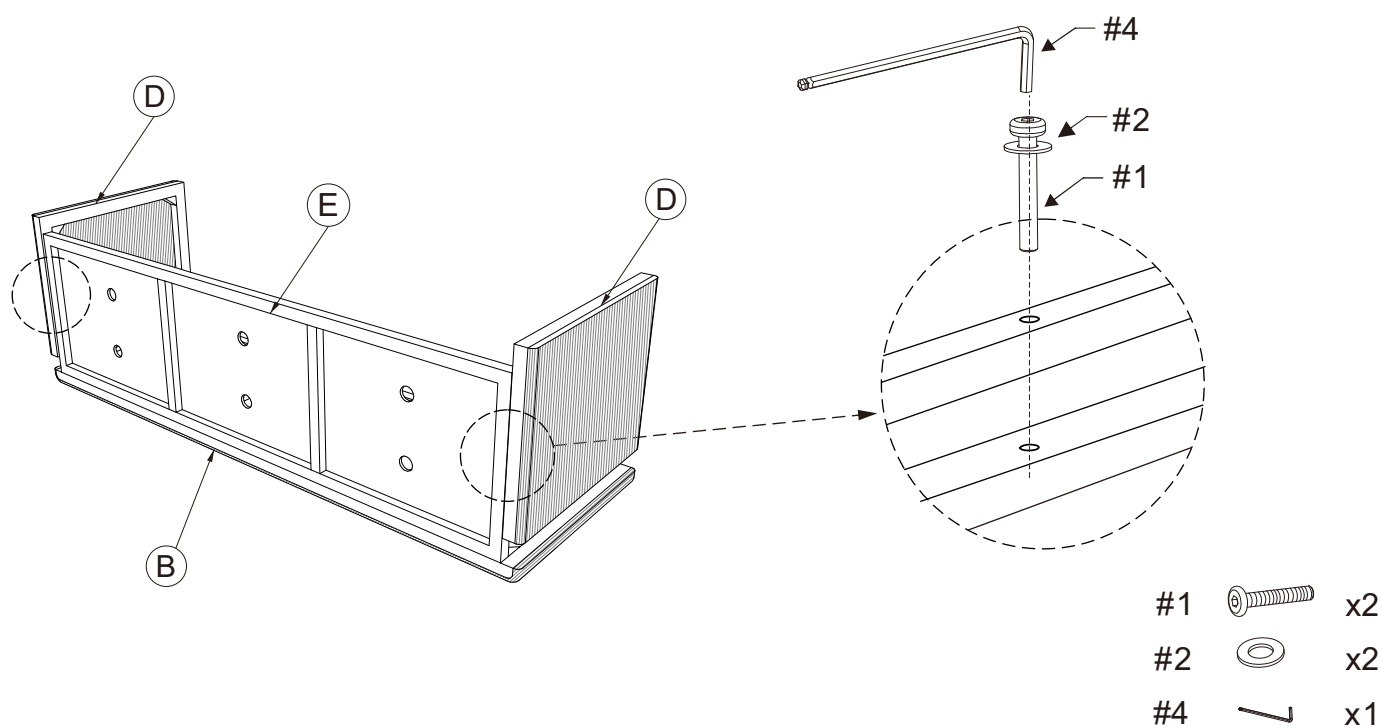

Step 1. Lay front panel (part B) down on a soft flat surface, such as carpet as shown below . Attach bottom panel (part E) to front panel (part B) using bolts (part #1), flat washers (part #2) and allen wrench (part #4).

NOTE: Please do not fully tighten bolts until unit is fully assembled.

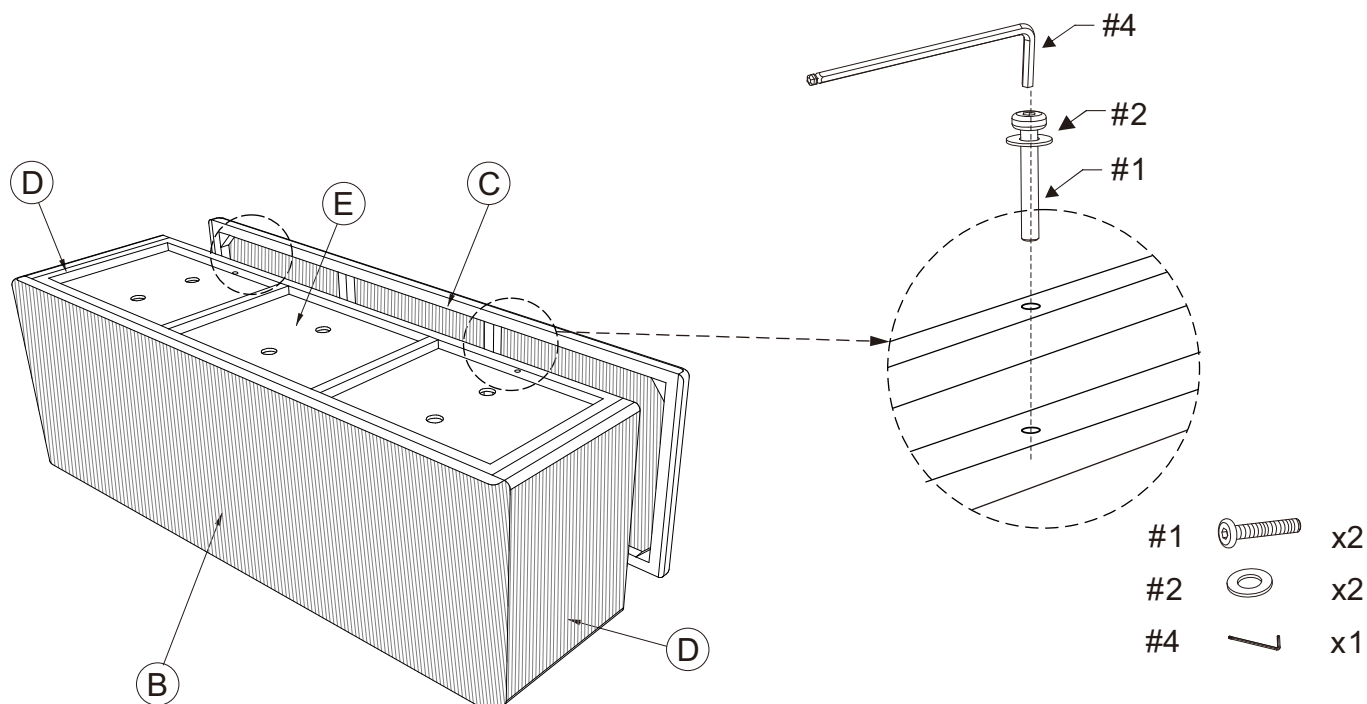

Step 2. Attach side panels (part D) to bottom panel (part E) using bolts (part #1), flat washers (part #2) and allen wrench (part #4).

NOTE: Please do not fully tighten bolts until unit is fully assembled.

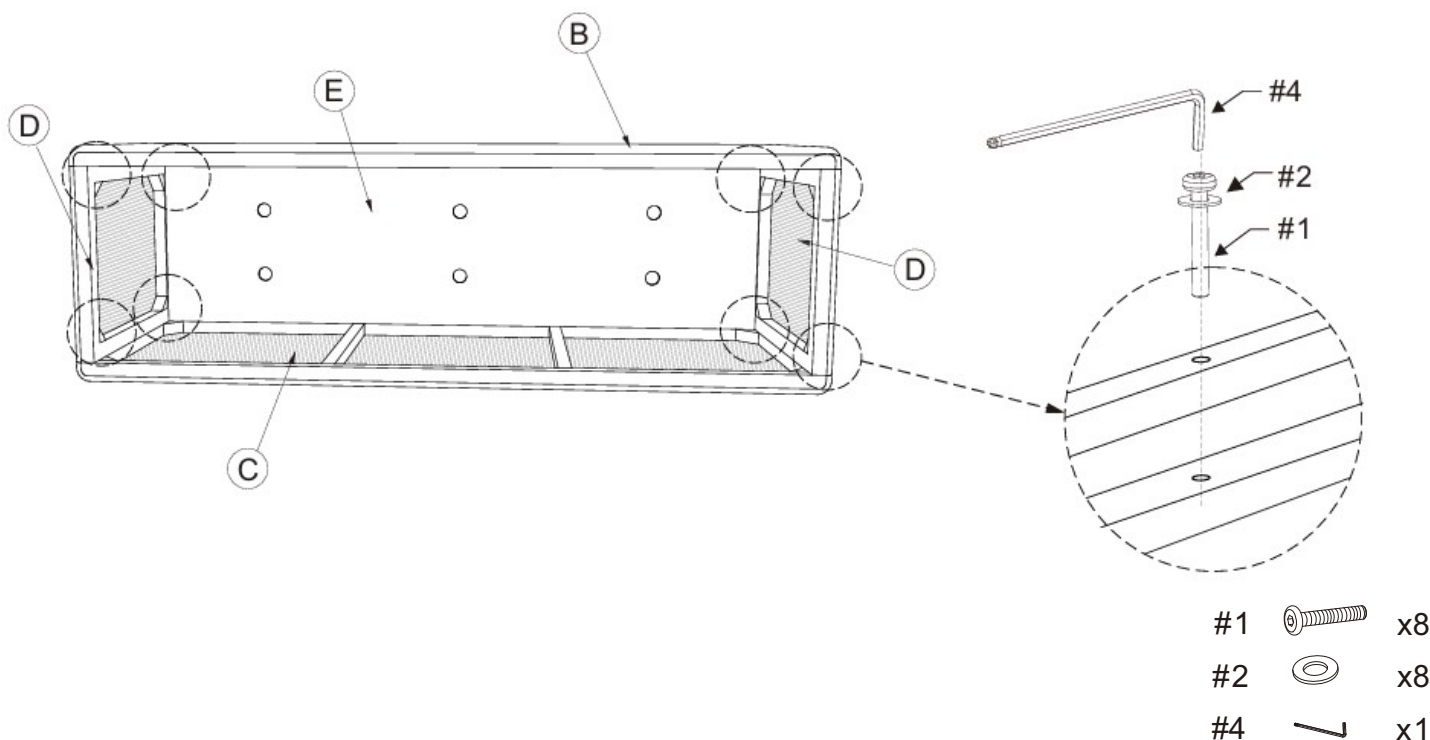

Step 3. Carefully turn the unit with the bottom panel facing upward. Attach back panel (part C) to bottom panel (part E) using bolts (part #1), flat washers (part #2) and allen wrench (part #4).

NOTE: Please do not fully tighten bolts until unit is fully assembled.

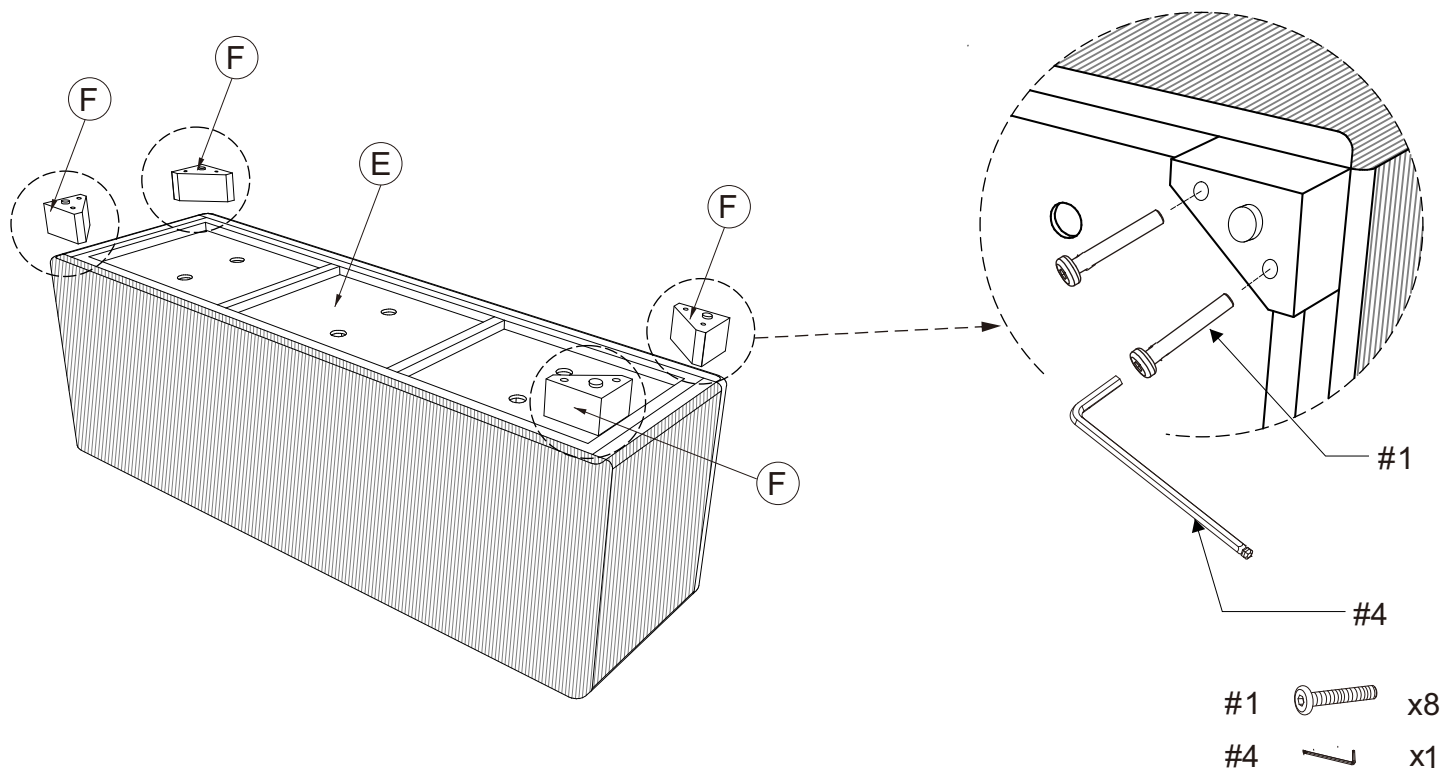

Step 4. Secure side panels (part D) to front panel (part B) and back panel (part C) using bolts (part #1), flat washers (part #2) and allen wrench (part #4).

NOTE: Please do not fully tighten bolts until unit is fully assembled.

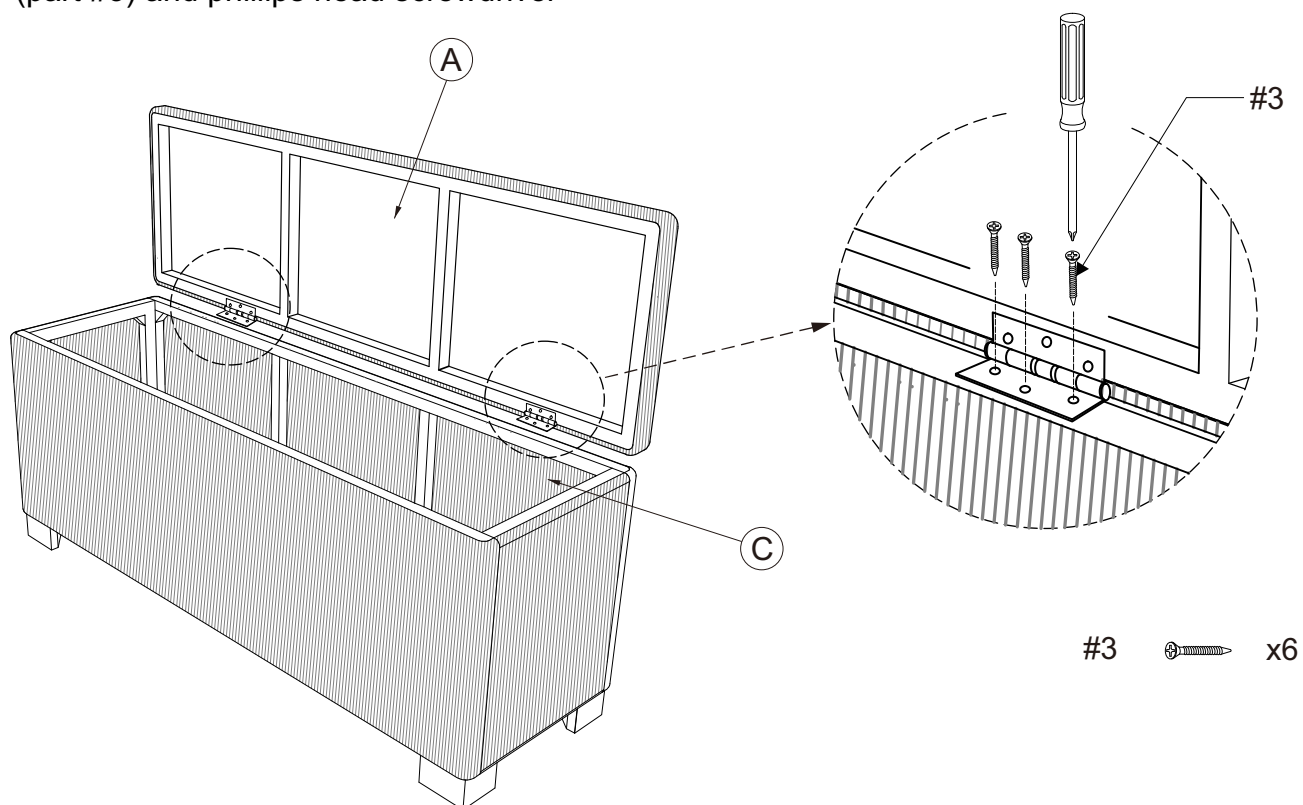

Step 5. Attach legs (part F) to bottom panel (part E) using bolts (part #1) and allen wrench (part #4).

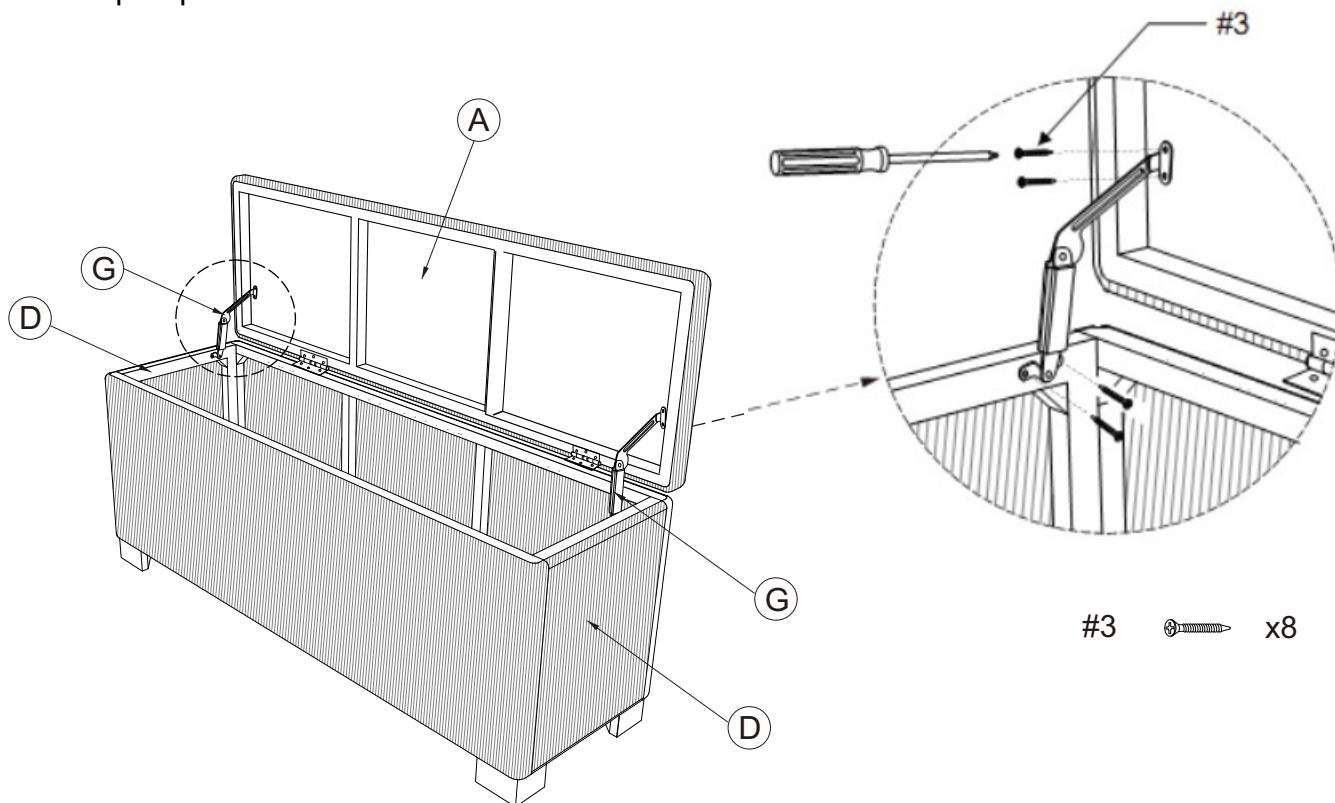

NOTE: Please fully tighten all bolts at this time.

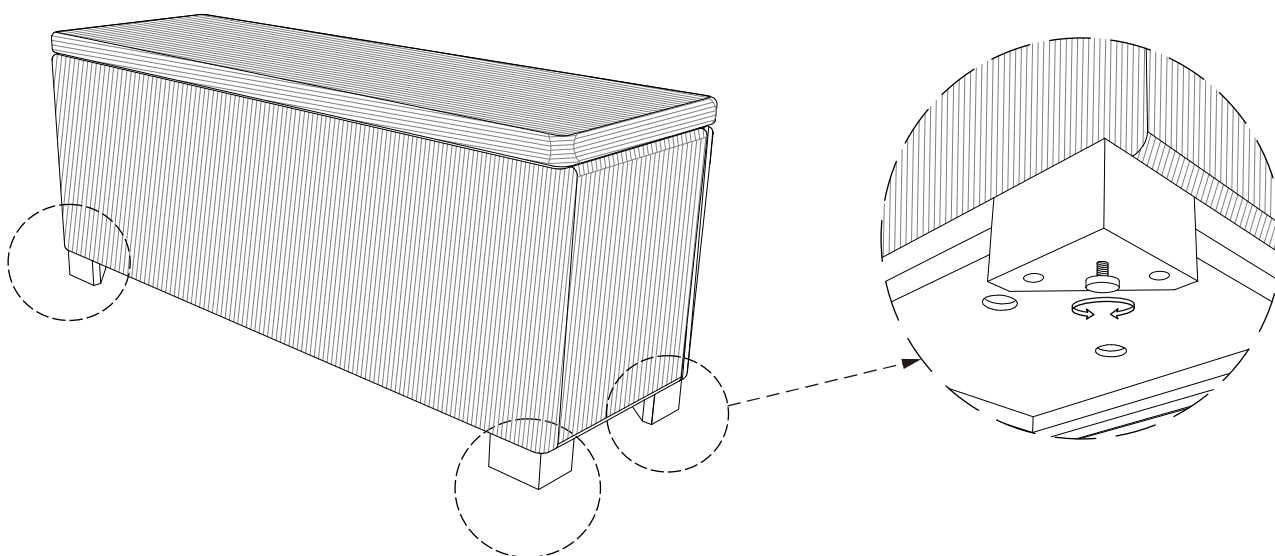

Step 6. Carefully turn unit upright. Attach top panel (part A) to back panel (part C) using screws (part #3) and phillips head screwdriver

Step 7. Attach hinges (part G) to top panel (part A) and side panels (part D) using screws (part #3) and phillips head screwdriver.

Step 8. Adjust the levelers until the bench stands evenly on the floor.

NOTE: It is important to adjust levelers once fully assembled and upright. Extend adjustable leveler until it's firmly in contact with the floor if relocating adjust leveler as needed until it's firmly in contact with the floor in new location.
