How to Use

Step 1: Open the package and take out all the accessories.

Step 2: Connect the controller and power adapter before you connect the power.

Step 3: Spread out the product.

Step 4: When everything is ready, connect the power.

Step 5: After several minutes, you will get a wonderful inflatable camera-shaped tent.

Application

It is suitable for promotions, advertisements, shopping malls, events, trade shows, exhibitions, weddings, birthday parties, Halloween programs, Christmas, photographic videos, and more!

Notes

1. Please note that the blower should be kept on at all times when using the product.
2. For cleaning, please wipe with a clean damp cloth and soapy water (not included).
3. Please keep the floor clean and dry before use, keep it away from sharp objects, and do not use it outdoors on rainy days.

4. For outdoor use, it is best to place it on a floor mat to avoid getting dirty.
5. Please allow the slight color difference caused by the shooting light and 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
