

## Installation steps:

1. Determine the wanted height or look of the fixture with the provided stems, and assemble them by screwing them together.
2. Screw the canopy to the fixture body.
3. Attach the mounting bracket to the outlet box using two mounting screws.
4. Connect the light source cable to the driver
5. Pull out the source wires from the outlet box. Make wire connections using wire nuts as follows:
  - Connect the white wire from the fixture to the white wire from the power source.
  - Connect the black wire from the fixture to the black wire from the power source.
  - Attach the fixture grounding wire to the mounting strap with the green grounding screw, and then connect it to the house grounding wire with a wire nut.
 Carefully tuck the wires back into the outlet box.
6. Attach the canopy to the outlet and tighten it with two ball nuts.
- 7-8. Adjust the angle of the light pole, and then tighten the screws to fix the pole.

## Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
