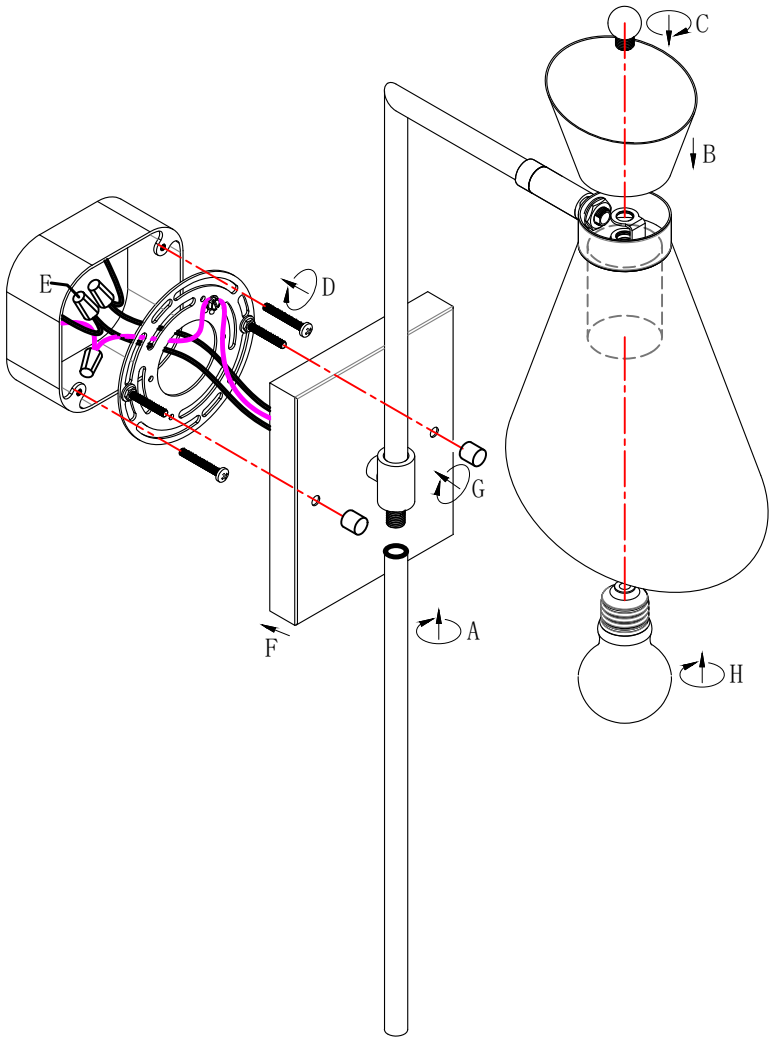
ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.



Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Tighten the metal tube (A) onto the threaded nipple.
2.Secure the beveled horn-shape cover (B) to the fixture body using the decorative finial (C). (Note: Align the high beveled edge of the cover with the low beveled edge of the lampshade.)
3.Mount the mounting plate to the junction box using the screws (D).
4.Wiring Connections
·Use wire connectors (E) to connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
5.Secure the fixture body (F) to the mounting plate using the decorative nuts (G).
6.Install the light bulb (H) into the socket.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
