(EN) Duramax Vinyl Garden Shed
Limited tenYear Warranty

U.S. Polymer Inc. will send a replacement part free of charge, in the event of material defects and or workmanship for a period of ten years from the date of purchase.

This warranty is extended only to the original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty service is rendered. In no event shall we pay the cost of flooring, labor, installation or any other costs related thereto.

This warranty only covers failures due to defects in material or workmanship which occurs during normal use and does not extend to color change arising due to normal weathering or to damage resulting from misuse or neglect, commercial use, failure to follow assembly instructions and the owner's manual (including proper anchoring of the shed), painting, forces of nature and other causes which is beyond our control.

Claims under this warranty must be made within the warranty period by calling 1-800-483-4674 or mail in a dated sales slip and clear photograph of the part to:

U.S. Polymers Inc. 1057 S. Vail Ave Montebello, CA 90640.

We reserve the right to discontinue or change components. If a component has been discontinued or is not available, U.S. Polymers, Inc. reserves the right to substitute a component of equal quality as may be compatible.

Limits and Exclusions

There are no express warranties except as listed above. The warrantor shall not be liable for incidental or consequential damages resulting from the use of this product, or arising out of any breach of this warranty. All express warranties are limited to the warranty period set forth above. Some states do not allow the exclusion or limitation on how long an implied warranty lasts, so the above limitations may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state or country to country.

(ES) Jardín De Vinilo Cubierto Duramax
Garantía Limitada durante 10 años

U.S. Polymer Inc. enviará una pieza de recambio sin coste alguno en caso de defectos de fábrica o en los materiales durante un periodo de 10 años a partir de la fecha de adquisición.

Esta garantía se aplica únicamente al comprador original. Es necesario presentar un recibo u otra prueba de compra antes de prestar los servicios especificados en esta garantía. En ningún caso se sufragará el coste de la instalación de suelos, mano de obra, instalación o cualquier otro gasto relacionado.

Esta garantía cubre exclusivamente los defectos de fabricación o en los materiales que aparezcan durante el uso habitual y no se aplica a los cambios de color causados por la exposición normal a los elementos o a daños ocasionados por un uso inapropiado o negligente, usos comerciales, no seguir las instrucciones de montaje o el manual del propietario (incluyendo el correcto anclaje del cobertizo), aplicación de pintura, causas naturales o cualquier otra ajena a nuestro control.

Las reclamaciones cubiertas por la presente garantía pueden efectuarse dentro del periodo de garantía llamando al teléfono 1-800-483-4674 o por correo postal con una prueba de compra fechada y una fotografía nítida de la pieza dañada a:
U.S. Polymers Inc. 1057 S. Vail Ave Montebello, CA 90640.

Nos reservamos el derecho a abandonar la fabricación de un componente o cambiarlo. En caso de no continuar fabricando un componente o no estar éste disponible, U.S. Polymers, Inc. se reserva el derecho a sustituirlo por otro componente de idéntica calidad que sea compatible.

Límites y Exclusiones

No existe ninguna garantía expresa más allá de las indicadas anteriormente. El garante no aceptará ninguna responsabilidad por daños incidentales o emergentes ocasionados por el uso de este producto o por cualquier infracción de esta garantía. Todas las garantías expresadas se aplican al periodo de garantía anteriormente señalado. Algunos estados no aceptan exclusiones o limitaciones en la duración de las garantías implícitas, por lo que las limitaciones anteriormente expresadas pueden no ser de aplicación para usted.

Esta garantía otorga derechos legales específicos. Usted puede disfrutar también de otros derechos que pueden ser diferentes para cada estado o país.

(FR) Duramax abri de jardin en vynile
Garantie Dix Ans

U.S. Polymer Inc. remplacera sans frais toute pièce en cas de défaut de fabrication ou de matière pour une période de dix ans (A compter de la date d'achat).

La garantie est seulement étendue à l'acheteur original. Une facture d'achat ou autre preuve confirmant la date de transaction sera exigée avant que le service de garantie vous soit accordée. Nous ne rembourserons aucun frais liés à l'achat des fondations, de main-d'œuvre, d'installation ou tout autre coût extérieur à la garantie.

La garantie s'applique contre tous défauts de fabrication ou de matière dès lors que l'installation est conforme aux préconisations du fabricant décrites dans la notice d'assemblage, à l'exception d'une mauvaise utilisation, de l'usure, d'une décoloration liée aux intempéries, d'une utilisation commerciale et d'incidents matériels extérieurs concernant le dit produit.

Toutes réclamations doivent être faites durant la période de garantie en téléphonant au 1-800-483-4674 ou en expédiant une facture d'achat datée et une photographie de la pièce à:

U.S. Polymers, Inc. 1057 S. Vail Ave, Montebello, CA 90640 United States of America.

Nous nous réservons le droit d'annuler ou de changer les pièces si l'une des pièces a été arrêtée ou n'est plus disponible. U.S. Polymers Inc. se réserve le droit de changer une pièce de qualité égale à la pièce d'origine.

Limitation et Exclusions

Il n'y a d'autre garantie exceptée celle mentionnée ci-dessus. Le garant n'est pas responsable des dégâts matériels ou des accidents consécutifs à une installation non conforme aux dispositions légales et réglementaires du pays de mise en service. En aucun cas, cette garantie ne donne droit à des indemnités ou à des dommages et intérêts. Toutes garanties sont limitées pour une période mentionnée ci-dessus certains pays ne permettent pas la limitation et l'exclusion concernant la durée de garantie, ceci pourrait donc ne pas s'adresser à vous.

Cette garantie vous donne des droits légaux spécifiques et vous pourriez aussi avoir d'autres droits qui varient d'un pays à l'autre.

(EN) SAFETY & PRECAUTIONS

For your own safety, please read and follow these instructions during the shed assembly.

Before You Begin...

1. Check your local building codes regarding footings, location, etc.
2. Select a site that allows enough working space around the shed.
3. Determine building foundation and anchor system.
4. Read and understand the Owner's manual enclosed in the package.
5. Follow all directions and dimensions thoroughly.
6. Follow the steps given in the manual carefully for correct assembly.
7. Make sure all parts are present before you start assembling.
8. **BE SAFE** : Follow safety instructions and avoid injury.
(See inside page).
9. **GROUND MUST BE EVEN** : Make sure the foundation frame lies flat on the ground. If the earth bed is uneven, remove sod and other debris and level it with a flat shovel.
10. Separate contents of the carton by the part number and review the list. Be sure you have all the necessary parts for your shed. Refer Owner's manual for part list.

Safety First !

1. Always wear work gloves, long sleeves and eye protection during assembly of the shed. Some pieces of the shed contain sharp edges and can cause injury.
2. Be cautious with the tools used for the assembly of the shed. Familiarize yourself with the operation of all the power tools.
3. Children and pets should be kept away from the assembly site to avoid any distractions and accidents.
4. When using a step ladder, make sure it is on even ground and fully open with the safety latch in place. Never concentrate your full weight on the roof or any part of the shed.
5. Do not attempt to assemble the shed on a windy day. Shed panels can be whipped across by the wind making the worksite difficult and dangerous.

Important

-  Wear eye protection when using any form of power tools. Do not use voltage power tools in a wet or damp environment to avoid electric shock.
-  Do not use any part of the shed as a means of personal support while attaching components during assembly.
-  **The shed must be constructed on a solid base foundation.** A concrete pad or a large size concrete patio stone squares is recommended for suitable floor base. Make sure it is firm and level and will allow drainage away from the site. The base foundation should be at least 4 inches (100mm) larger than the shed dimensions. Please refer to the front page of your owner's manual for the exterior dimensions of the shed. **Manufacturer is not responsible for the choice and construction of the foundation.**
For a concrete pad base, prepare a level bed for a firm footing layer of crushed stone. The concrete pad should then be poured to a thickness of 4 inches (100mm) to 5 inches (125mm). Allow to dry thoroughly for at least 48 hours.
-  Your shed must be firmly anchored to the concrete pad or large concrete patio stone squares, to help protect against damage in high winds.

Care & Maintenance

Although this unit does not require any maintenance, care should be taken to prolong the life of your shed.

ROOF : Keep roof clean of leaves and snow with long handled, soft bristled broom. Heavy amounts of snow on the roof can damage the shed making it unsafe. Do not step on the roof.

WALLS : Do not rest any object against the wall panels of the shed.

DOORS : Keep doors closed to prevent wind damage.

FASTENERS : Regularly check your shed for loose screws, bolts, nuts, etc. And retighten them as necessary.

MOISTURE : With changing temperatures, condensation will accumulate inside the shed. Good ventilation will help in regulating and avoid moisture.

TIP : A noncorrosive caulking is helpful to seal the shed.

**DO NOT store swimming pool chemicals in your building.
Combustibles and corrosive must be stored in
air tight containers**

(ES) SEGURIDAD Y PRECAUCIONES

Para su propia seguridad, lea y siga las instrucciones durante el ensamblaje del cobertizo.

Antes de comenzar ...

1. Consulte los códigos de construcción locales relativos a cimentación, localización etc.
2. Seleccione un sitio que permite suficiente espacio para trabajar alrededor de la nave.
3. Determine la fundación de la construcción y sistema de anclaje.
4. Lea y entienda el manual de instrucciones incluido en el paquete.
5. Siga las indicaciones y dimensiones exhaustivamente.
6. Siga los pasos indicados en el manual para un montaje correcto.
7. Asegúrese de que no le falte ninguna pieza antes de empezar el montaje.
8. SEA SEGURA : Para evitar lesiones siga las instrucciones de seguridad. (Véase pagina interior).
9. El SUELO DEBE SER NIVELADO : Asegúrese de que el marco de la base quede plano en el suelo .Si la base del suelo esta desnivelado se recomienda que quite césped y otros escombros y lo nivele con una pala plana.
10. Disponga del contenido de la caja según numeración de las partes , revisando la lista. Asegúrese de que no le falte ninguna pieza para el montaje de su cobertizo. Consulte el manual del propietario para revisar el nombre de las piezas.

Safety Primero !

1. Use siempre guantes de trabajo, mangas largas protección ocular durante el montaje de la nave . Algunas piezas de la nave tienen bordes afilados y pueden causar lesiones.
2. Tenga cuidado con las herramientas utilizadas para el montaje de la nave. Familiarícese con el funcionamiento de todas las herramientas eléctricas.
3. Los niños y los animales domésticos deben mantenerse alejados de las instalaciones de ensamblaje para evitar cualquier distracción o accidente.
4. Cuando se utiliza una escalera de tijera , asegúrese de que este sobre un fondo plano y completamente abierto con el pasador de seguridad en su lugar. Nunca concentre todo su peso sobre el techo o cualquier parte de la nave.
5. No intente montar el cobertizo durante un día ventoso. Los paneles de cobertizo pueden ser azotados a través por el viento que hace las obras difíciles y peligrosas.

Importante

-  Use protección ocular cuando utilice cualquier tipo de herramientas eléctricas. No utilice herramientas de tensión en un ambiente húmedo o mojado para evitar descargas eléctricas.
-  No utilice ninguna parte de la nave como un medio de apoyo personal mientras coloca los componentes durante el montaje.
-  **La vertiente se debe construir en una fundación sólida.** Un cojín concreto o los cuadrados concretos del tamaño grande de una piedra del patio se recomiendan para la base conveniente para el suelo. Asegúrese de que sea firme y llana y que permita drenaje lejos del sitio. La fundación baja debe ser por lo menos de 4 pulgadas (100m m) más grande que las dimensiones de la vertiente. Refiera por favor a la página delantera del manual de su dueño para las dimensiones exteriores de la vertiente. **El fabricante no es responsable de la opción y de la construcción de la fundación.**
Para una base concreta del cojín, prepare una cama llana para una capa de pie firme de la piedra machacada. El cojín concreto se debe entonces verter a un grueso de 4 pulgadas (100m m) a 5 pulgadas (125mm). Permita secarse a fondo por lo menos 48 horas.
-  Su cobertizo debe ser firmemente anclado al bloc de concreta o cuadrados(plazas) de piedra de patio g randes concretos, ayudando a proteger contra el daño del viento fuertes.

Cuidado & Mantenimiento

Aunque esta unidad no requiere mantenimiento, se debe tener cuidado para prolongar la vida de su caseta.

CUBIERTA: Mantenga el techo limpio de hojas y la nieve con mango largo y cerdas suaves escoba. Grandes cantidades de nieve en el techo pueden dañar el cobertizo y hacer peligrosa. No se pare en el techo.

PAREDES: No apoye ningún objeto contra los paneles de la pared del cobertizo.

PUERTAS: Mantenga las puertas cerradas para prevenir daños por el viento.

SUJETADORES: Verifique periódicamente su cobertizo para los tornillos, pernos, tuercas, etc, y volver a apretarlo en caso necesario.

HUMEDAD: Con los cambios de temperatura, la condensación se acumulará en el interior del cobertizo. Una buena ventilación ayudará en la regulación y evitar la humedad.

SUGERENCIA: Un sellador no corrosivo ayudaría a sellar la nave.

No guarde productos químicos de piscina en su edificio. Combustibles y corrosivos deben guardarse en recipientes herméticos un aire.

(FR) SÉCURITÉ ET PRÉCAUTIONS

Pour votre propre sûreté, svp lisez et suivez ces instructions avant et pendant le montage.

Avant de commencer...

1. Vérifiez vos codes de la construction et de l'habitation concernant la pose, l'emplacement, etc.
2. Choisissez un site qui laisse assez d'espace de travail autour de l'abri.
3. Déterminez la surface de l'abri et fixez les système d'ancrage aux fondations.
4. Lisez et analysez le manuel de l'abri glissez dans le paquet.
5. Suivez scrupuleusement toutes les consignes et les dimensions.
6. Suivez les étapes scrupuleusement les étapes de montage afin de monter correctement votre abri.
7. Assurez-vous que toutes les pièces sont présentes avant de débiter le montage.
8. ATTENTION : Suivez les consignes de sécurité afin d'éviter tous dommages physiques ou corporels.
9. LA SURFACE DE POSE DOIT PLANE ET DE NIVEAU : Assurez-vous que les fondations sont posées sur un sol plan et de niveau. Si le lit de sol est inégal, enlevez le gazon et autres débris et nivelez-la avec une pelle.
10. Classez l'ensemble des pièces par numéro et confrontez -les à la liste de la notice. Soyez sûr que vous avez toutes les pièces nécessaires pour le montage de votre abri.

Safety Premier !

1. Portez toujours des gants de travail, de longues manches et des lunettes de protection des yeux pendant le montage de l'abri. Quelques morceaux de l'abri contiennent des bords agressifs et peuvent causer des dommages.
2. Soyez prudent avec les outils utilisés pour le montage de l'abri. Familiarisez-vous avec le fonctionnement de toutes machines-outils.
3. Ne laissez pas les enfants et les animaux jouer autour de l'abri lors du montage, afin d'éviter tous risques d'accidents.
4. Si vous utilisez une échelle, assurez-vous qu'elle soit posée sur un sol plan et de niveau. Ouvrez-la entièrement et assurez-vous que les verrous de sécurité des charnières sont bien enclenchés. Ne jamais marcher sur le toit ou tout autre partie de l'abri.
5. N'essayez pas d'assembler l'abri en cas de vent fort. Les panneaux de l'abri peuvent s'envoler rendant le montage dangereux.

Important

- Portez des lunettes de protection lors de l'utilisation de machine-outils. N'utilisez pas de machine-outils électriques dans un environnement humide afin d'éviter tous chocs électriques.
- N'utilisez pas de composant de l'abri en tant qu'échelle lors du montage de l'abri.
- L'abri doit être construit sur des fondations solides.** Une dalle de béton armé ou de dalles de béton de grandes dimensions (100x100 cm minimum) est recommandé. S'assurer qu'elle est plane et de niveau et permettra le drainage de l'eau. La dalle devra faire 10 cm de plus que les dimensions extérieures de l'abri. Veuillez vous référer à la première page de votre manuel pour les dimensions extérieures de l'abri. **Le fabricant n'est pas responsable du choix et de la construction des fondations.**
Pour une dalle en béton, préparer une couche de graviers de niveau. La dalle doit faire entre 10 et 12.5 cm. Laissez sécher 1cm pour 10 jours.
- Votre abri doit être fermement ancré à la dalle, pour se protéger contre les risques de dommages liés aux vents forts.

Soin et entretien

Bien que cette unité n'exige aucun entretien, le soin devrait être pris afin de prolonger la durée de vie de votre abri.

TOIT : Le toit doit être nettoyé avec un balai à brosse souple afin de le débarrasser des feuilles et de la neige. Une grande quantité de neige sur le toit peut endommager l'abri le rendant dangereux. Ne marchez pas sur le toit.

MURS : Ne mettez aucun objet contre les panneaux de mur.

PORTES : Assurez-vous que les portes sont fermées afin d'empêcher les risques de dommages liés aux vents forts.

PIÈCES DE FIXATION : Examinez régulièrement votre les vis, boulons, écrous, de votre abri. En cas de doute resserez-les.

HUMIDITÉ : Avec les températures changeantes, la condensation s'accumulera à l'intérieur de l'abri. La bonne ventilation aidera à l'évacuation de l'humidité.

CONSEIL : Un calfeutrage non corrosif est utile afin de renforcer la durée de vie de l'abri.

Ne stockez pas les produits chimiques de piscine dans votre abri. Les combustibles et les produits chimiques doivent être stockés dans des armoires étanches et isolées.

(ES) Base canal 'U'
(FR) Profilé en U

(EN) Note : Apply silicone around the perimeter of the base 'U' channel. Seal the corners, joints and base of door column.

This is optional and should be done for heavy rain areas if needed.

(ES) Pozor : Aplicar silicona alrededor del perímetro del canal "U" de la base. Selle las esquinas, juntas y la base de la columna de la puerta.

Esto es opcional y se debe hacer para zonas de fuertes lluvias, si es necesario.

(FR) Note : Appliquez du silicone sur le pourtour des profilés 'U' . Scellez les coins, les joints et la base des cornières de la porte.

Cette étape est facultative et devrait se faire pour les zones de fortes pluies.

(EN) Note : For heavy rain areas, you can fix a weather strip at the bottom of the door. This is optional and the part is not included.

(ES) Pozor : En las zonas de fuertes lluvias, se puede fijar un burlete en la parte inferior de la puerta. Esto es opcional y la pieza no está incluida.

(FR) Note : Pour les zones de fortes pluies, vous pouvez fixer un joint coupe-froid au bas de la porte. Cette étape est facultative et le joint n'est pas inclu.

 Foret de 3/16" (5 mm) de diamètre
 Foret de 1/2" (12,5 mm) de diamètre

(EN) Optional ventilation kits can be installed on any of the wall panels. However, we recommend mounting them on the top of the shed's back wall.

(ES) Los kits de ventilación pueden instalarse en cualquier panel lateral. Sin embargo, recomendamos instalarlos en la parte superior de la pared trasera del cobertizo.

(FR) Des kits de ventilation vendus en option peuvent être installés sur n'importe lequel des panneaux muraux. Néanmoins, nous vous recommandons de les monter en haut du mur arrière de l'abri.

(EN) High wind area installation instructions

(ES) Instrucciones de instalación de la zona con fuertes vientos

(FR) Instructions pour une installation dans des zones de vent violent

(EN) Note: To ensure that your shed withstands high winds, you will need the following reinforcement.

(ES) Pozor: Para asegurarse de que su cubierta resiste a vientos fuertes, se necesita el siguiente refuerzo.

(FR) Note: Pour être sûr que votre abri supportera des vents violents, vous devrez vous équiper des renforts suivants :

(EN) Parts needed (not included) :		
CODE	DESCRIPTION	QTY
S4	Dia. 4.2 x 16mm. (5/32" x 5/8") Sheet Metal Screw	68
S5	M5 x 40mm. (3/16" x 1 1/2") Anchor Bolt	51

(ES) Las partes necesitaron (No incluido) :		
CODE	(ES) DESCRIPCIÓN	QTY
S4	Dia. 4.2 x 16mm. (5/32" x 5/8") Hoja de tornillo de metal	68
S5	M5 x 40mm. (3/16" x 1 1/2") Perno de anclaje	51

(FR) Pièces nécessaires (non fournies avec l'abri) :		
CODE	DESCRIPTION	QTÉ
S4	DIA. 4,2 x 16 mm. (5/32" x 5/8") VIS A TOLE	68
S5	M5 x 40 mm. (3/16" x 1 1/2") Boulon d'ancrage avec écrou	51

1

(EN) Shed or shed foundation should be placed on concrete footing by use of anchor bolt. Using a carpenter square, line up corners. Align base bars, mark the concrete at the holes in the base and drill concrete with suitable concrete bit to accept 3/16" x 1 1/2" (M5 x 40mm) anchor bolts.

(ES) Arrojar o verter cimientos deben ser puestos en base de concreto mediante el uso de pernos de anclaje. Usando una escuadra de carpintero, alinear las esquinas. Alinear las barras de base, marcar el concreto en los agujeros en la base y perforar concreto con poco cemento adecuado para aceptar 16.3 'x 1 1/2' (M5 x 40 mm) pernos de anclaje..

(FR) Remise ou jeter base devrait être mis sur pied en béton par l'utilisation de boulon d'ancrage. L'aide d'un carré de charpentier, s'aligner coins. Alignez les barres de base, marquer le béton dans les trous de la base et percer le béton avec foret à béton adapté à accepter 3/16 'x 1 1/2' (M5 x 40 mm) boulons d'ancrage.

(EN) Attach each side panel (**SP↑**) on the bottom to the Base U-channel. Using a dia. 3mm (1/8") drill with a power drill, make two equal distance holes on the Base U-channel through the Side Panel. Drive a self tapping screw (**S4**) through the Base U-channel to the Side Panel. Repeat this for every Side Panel. See blowup.

(ES) Fije cada panel lateral (**SP↑**) en la parte inferior a la base U-canal. Usando un día. 3 mm (1/8 ") perfore con un taladro eléctrico, hacer dos agujeros a la misma distancia de la Base del canal U- a través del panel lateral. Introduzca un tornillo auto-roscante (**S4**) a través de la Base de canal U- del panel lateral. Repita esto para cada panel lateral. Ver ampliación.

(FR) Attachez chaque panneau latéral (**SP↑**) sur le bas des profilés U . En utilisant un foret de 3mm de dia. avec une perceuse électrique, faites deux trous à à égale distance sur le profilé U , à travers le Panneau Latéral. Enfoncez une vis auto-fôrante (**S4**) à travers le profilé U au Panneau Latéral. Répétez ceci pour chaque panneau latéral. Voir schéma ci-dessous.

(EN) Important Warranty Information

(ES) Información importante sobre la garantía

(FR) Informations Importantes Concernant La Garantie

(EN) The 'DURAMAX' shed has been tested and passed high wind loads in a controlled laboratory environment when installed with the high wind installation guidelines. Natural high wind areas create wind at unpredictable speeds that are very difficult to capture accurately by location. As such we cannot guarantee the performance of the shed in these extreme situations.

(ES) El cobertizo 'DURAMAX' ha sido probado y aprobado cargas de viento en un entorno controlado de laboratorio cuando se instala con las pautas de instalación de vientos fuertes. Espacios naturales de vientos crean viento a velocidades impredecibles que son muy difíciles de capturar con precisión la ubicación. Como tal, no podemos garantizar el funcionamiento de la nave en.

(FR) Le hangar 'DURAMAX' a été testé et passé des charges de vent élevées dans un environnement de laboratoire contrôlé lorsqu'il est installé avec les directives d'installation de haute vent. Naturelles, les zones de vents forts créent vent à des vitesses imprévisibles qui sont très difficiles à saisir avec précision par emplacement. En tant que tel, nous ne pouvons pas garantir la performance de la foule dans ces situations.
