D 3pcs

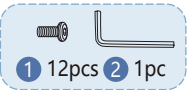

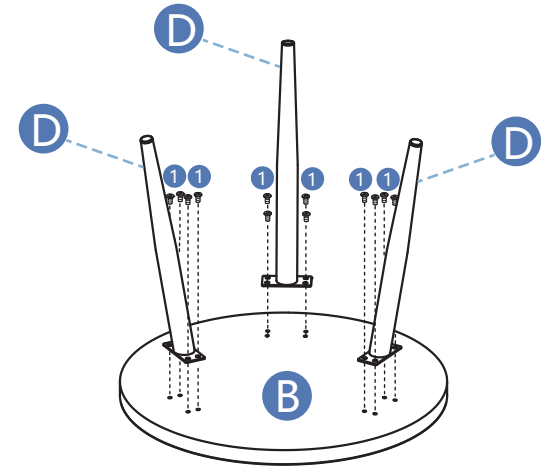

step1:

Secure the table legs **C** to the board **A** with screws **1**.

step2:

Secure the table legs **D** to the board **B** with screws **1**.

Assembly Notes

- It is recommended that you categorize the accessories before installation to quickly find the required accessories during installation.

Matters Needing Attention

- Please make sure the weight of the objects you put on the board follows the allowed weight standards.
Max static load capacity of the board : 66lb
- Washing the entire table can be detrimental to its construction.
Please clean it gently with a wet cloth instead.
- A smell of wood is present on all new products. Please keep the table in a well-ventilated room soon after construction so that the odor can leave.
