INSTALLATION INSTRUCTION

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.
AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

READ AND SAVE THESE INSTRUCTIONS

INSTALLATION STEPS

PREPATION

1. Shut off the power at the fuse box or circuit breaker box. If necessary, remove the old fixture and all mounting hardware from junction box.

2. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any parts necessary for installation.

ASSEMBLING THE FIXTURE (Fig.1)

3. Thread nut (O) onto all thread (P), then secure cap (N) into coupling (M) by threading all thread (P) and tighten with nut (O).

4. Slide (Q), cap (N), iron washer (R), plastic washer (S), glass (T) and iron washer (R) overall thread (P), then secure with knurled nut (U).

5. Thread metal frame (V) into all thread (P) until tight.

6. Place shade (L) into metal frame (V).

7. Determine the desired hanging height and thread rods (G, H, I, J) to top of coupling (K). Pass wires carefully through each rod as you assembled. Please remove all thread if installing with one 6" rod.

MOUNTING THE FIXTURE (Fig.1)

8. Thread two mounting screws (C) (Size: #8-32*1.4"L) into crossbar (A) spaced same distance apart as holes in canopy (D). Length of mounting screws (B) into crossbar (A) may be adjusted if necessary. Attach crossbar (A) to junction box (Not included) using junction box screws (B) (Size: #8-32*0.6"). The side of crossbar (A) marked "GND" must face out.

CONNECTING THE WIRES (Fig.2)

9. Connect the electrical wires as shown in figure 2, making sure that all wire connectors are secured. If your junction box has a ground wire (green or bare copper), connect the ground wires to it. Otherwise, connect the ground wire directly to the crossbar and secure using the green screw provided.

10. Tuck wire connectors neatly into the junction box.

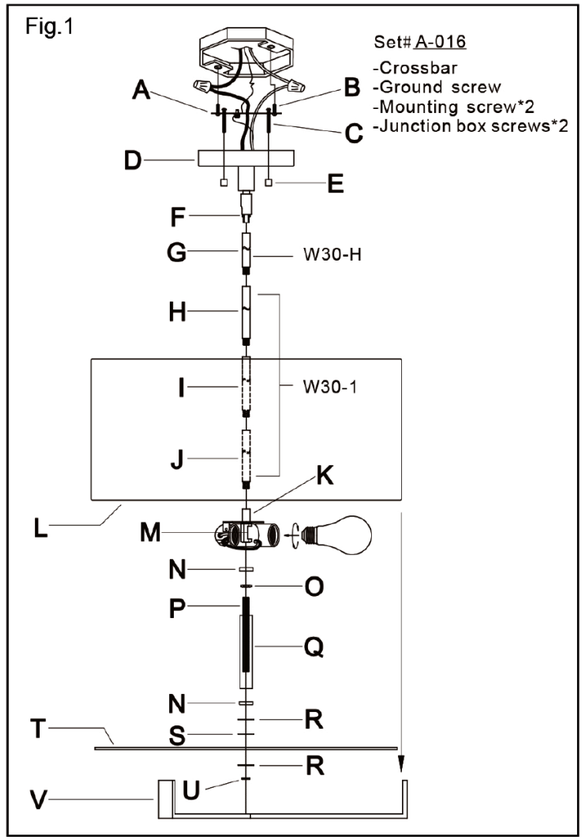

COMPLETING THE INSTALLATION (Fig. 1)

11. Place canopy (D) over mounting screws (C) and secure with cap nuts (E).

12. Install (3) three medium base bulbs up to 100 watts each or CFL or LED equivalent (not included) in accordance with the fixture specification. **(DO NOT EXCEED THE SPECIFIED WATTAGE!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)**

Your installation is now complete. Return power to the junction box and test the fixture.

HARDWARE INCLUDED

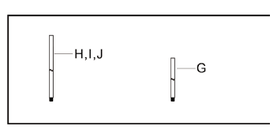

a. Hardware Bag:

A. Crossbar *1
B. Junction Box Screws *2
C. Mounting Screws *2
D. Canopy *1
E. Cap Nuts *2

b. Hardware Bag:

H, I, J. Rod 12" *3
G Rod 6" *1
